1. Letter to Shareholders

Dear Shareholders,

Due to the persisting COVID-19 pandemic for the past two years, climate change risks and geopolitical conflicts, the macro environment faced many challenges and uncertainties. Despite increasing cost of raw materials and ocean freight, inflation affects the cost of procurement, manufacture, and plant construction; Taiwan Hon Chuan continues to deliver strong performance and expand our global footprint. Currently, we have continuously invested in Mainland China and Southeast Asia to bring both revenue and earnings growth. The team at Taiwan Hon Chuan continue to work hard to achieve year-on-year growth and strong performance for the Company. In 2021, consolidated sales reached NTD\$ 21,382,534,000, increased by 10.51% from NTD\$ 19,348,249,000 in 2020. Profit after tax totaled at NTD\$ 2,028,358,000, an increase of 17.20% from last year's NTD\$ 1,730,740,000. Earnings per share were 6.83 dollars for the year of 2021 conclusively. Both net income and earnings per share had hit a record high in 2021. Taiwan Hon Chuan would like most sincerely to thank our shareholders, clients, and suppliers for their long-term affirmation and support.

The long-term operating direction is to continuously promote the goal of “structural transformation, increasing efficiency, reducing costs, investing in innovation, deepening cooperation, and improving profitability,” we remain dedicated to governance, competitiveness, and sustainability. The operation directions of the Company are as follows:

- (1) Structural transformation: continuously promote the aspect of ESG (environment, society, corporate governance) in order to implement comprehensive quality assurance, meet client demand, cultivate talents, optimize the organizational operation and operational efficiency in each plant.
- (2) Increase efficiency: uplift automation processes and introduce Manufacturing Execution Systems to timely mastery of manufacturing information.
- (3) Reduce costs: through open tendering procurement, lean management, and internal audit to implement cost control.
- (4) Invest in innovation: develop innovative products, such as niche products, products for the circular economy, and cross-industry packaging.
- (5) Deepen cooperation: promote a customer-oriented culture which is led by a win-win business model and partnership via improving service quality, and focusing on the clients' needs to win their trust.
- (6) Improve profitability: implement business policies and targets, continuously create value for the Company, employees, society, and shareholders.

Taiwan Hon Chuan is dedicated to professional development, innovative research and developing, and personnel training, strengthening the accomplishment of global distributions and business model innovation, by ways of flexible commercial strategies, steady growing pace, bottom-up resources integration, accumulated experience with domestic and international clients and modern production technology and corporate governance ability, in order to demonstrate overall operating synergy.

Looking ahead, focusing on core business, Taiwan Hon Chuan will continue to strive towards our corporate purposes: “acquiring good business reputation, developing global markets, respecting our customers, caring for our employees and fulfilling our social responsibilities”. We aim to solidify our home market in Taiwan, and replicate our success story across the world such as Mainland China, South East Asia, Africa and other high potential regions. We look forward to a new era of Taiwan Hon Chuan through our sustainable development and persistent efforts in 2022.

1.2.1.4 Research and Development

Hon Chuan pays highly attention on R&D, with continuously innovative activities, to ensure a leading position in industry. We not only promote the lightness of products in order to save energy and reduce carbon dioxide, but also develop a multitude of new functions, new materials and cross-industry products to enhance the value of the products. The R & D achievement for 2021 was as follows:

- (1) 1810 bottle neck 1500ml hot fill bottle
- (2) 1810 bottle neck 560ml, 1250 soda bottle
- (3) 38mm bottle neck 250ml, 300ml, and 450ml freezing bottle
- (4) 38mm bottle neck 380ml, 500ml cold fill bottle
- (5) 1881 bottle neck 350ml, 490ml, 590ml, 1500ml aseptic bottle
- (6) 1881 BAPHS aseptic plastic cap
- (7) Soy sauce container (PET bottle, plastic cap, clamshell cap)
- (8) 37mm composite vacuum cap
- (9) 42mm ring pull cap
- (10) Twist-off cap with robust extraction and low precipitation
- (11) 30 x 60mm long neck aluminum cap
- (12) Spiral iron cap/aluminum cap
- (13) Introduction of low-VOC UV ink

- (14) Introduction and mass production of 30% PCR PET shrinkable film
- (15) Eco-Label PET shrinkable film

1.2.2 Outlines of Business Plans

1.2.2.1 Business Objectives

1. Strengthen core competency
 - (1) Continuously expand mid- and long-term strategic cooperation with clients.
 - (2) Actively promote In-House (Plant-Within-a-Plant) strategic coalitions with clients and provide high-quality packaging materials and product service to scale up the business and achieve win-win situation for both Hon Chuan and clients.
 - (3) Implement Corporate Governance Evaluation System, in order to make the Company's overall operation more Institutionalized, standardized and rationalized. Achieve the goal of sustainable operation and development.
 - (4) Continuously carry out projects of lean management and tendering procedures for procurement, implement budget and cost control, and encourage all departments to proactively propose improvement plans and feasible measures, and track the performance of the project on a regular basis in order to reach the lean and refined goals which the Company sets.
 - (5) Actively implement the development of new products, use innovative R&D technology to develop new materials, new functions and cross-industry products to enhance the value of the products.
 - (6) To strengthen the function of The Quality Improvement Management Committee: hold regular meetings twice a month including members from quality control, manufacturing (including warehousing and transportation), sales, human resources, equipment(mold) improvement, procurement, and auditing to formulate methods and respective responsibilities with an aim to reach the quality goals the Company set through cross-department coordination, actions from meetings' resolutions, and subsequent follow-up.
2. Continue to take action toward globalization – foothold in Taiwan and aim to the world
 - (1) Continuously integrate, use and share group resources in order to enhance business synergy.
 - (2) Build strategic alliances with global and domestic giants. Apply experiences from Taiwan to China, Southeast Asia and Africa. Integrate resources and expand markets.
3. The Company actively complements with the government's net-zero carbon emission goal by 2050, the direction of carbon emission reduction will be progressively implemented. We focus on green sustainability, energy conservation and environmental protection, and take action on various climate change mitigation and adaptation actions in the short, medium and long-term.
 - (1) Short-term goals:
 - a. Purchase more eco-friendly /new process equipment to reduce energy consumption.
 - b. Introduce and promote the ISO14064-1 International standard for GHG emissions inventories and verification.
 - c. TCFD climate-related financial disclosures.
 - d. Introduce and promote the product carbon footprint management system.
 - e. Participate in CDP carbon disclosure program.
 - f. Increase the share of renewable energy used for electricity generation and sustainable products.

- g. Import and promote ISO50001 energy management system (EnMS).
- (2) Mid-term goals:
 - a. Manage with the goal of carbon neutrality.
 - b. Continue to move towards energy conservation, carbon reduction, and optimization of energy efficiency.
 - c. Participate in SBTi science-based reduction target initiative.
- (3) Long-term goal: net-zero carbon emissions by 2050.

1.2.2.2 Projected sales volume and its reference

1. The projected sales volume for 2022 is outlined as follows:

Unit: Thousand Pcs/Kg/Bottle/Box

Major Products	Sales Volume
Plastic Closures	26,849,625
PET Bottles	9,919,287
Labels	2,230,466
Aluminum Closures	908,125
Films & Electronics Packaging	17,352
Tobacco & Liquor Packaging	487
Beverage Filling OEM	2,335,874
TR Filling OEM	122,219
Metal Lug Caps	599,687
Others	311
Totals	42,983,453

2. Hon Chuan made sales forecasts according to the market movements, considering supply and demand in beverage and food industry and taking into account of changes in products and clients mix in recent years.

1.2.2.3 Key Production and Sales Strategies

1. R&D: We aggressively develop new products, cultivate new customers, put equal emphasis on customer and product orientations, and develop innovative packaging materials and services to meet customers' requests and industry trends.
2. Manufacture: We cooperate with upstream material suppliers to secure high quality and sources of materials. We also strengthen the production management system, improve production lines, and automate production linkage. We establish manufacturing information management feedback system and initiate cooperation with domestic and foreign organizations to improve production technology and equipment process to ensure a leading position in technology.
3. Sales: To cope with business expansion, we aggressively establish comprehensive marketing and logistics management ability worldwide and develop a close and robust supply and marketing system with world-leading beverage manufacturers.
4. Operations: We cultivate all-rounded talents, develop flexible competitive strategies, promptly capture industrial trends and market direction, innovate and launch new products that adapt to the constant changing market demands and future challenges.

1.2.3 Future development strategy

1.2.3.1 Continuous innovation activities

Hon Chuan insists on “Innovation” philosophy, actively innovates all kinds of niche type new products and technologies, such as lighter bottles, single-sheet plastic caps, eco trademarks, eco-friendly packaging materials, barrier packaging materials, PET beer bottles and plastic beer bottle caps to increase the products’ functionality, additional value and differentiation. By turning creative ideas into innovative products and activities with commercial value, we expand the application of our products in order to improve the Company’s core competitiveness.

We introduce new technologies including 3D printing, QR code, digital printing, 3D laser anti-fraud technology, and PVC free TPE composite materials to enhance product safety and improve product competitiveness. Also, aggressively enter new industries, develops new products such as food, life and cleaning supplies and offer packaging materials with functionality and specialty to cater the demand of customers and consumers.

1.2.3.2 Management strategy with differentiation

Hon Chuan keep abreast of market development trend and customer needs in every stage from individual item sales (selling bottle, cap, label or PET bottle separately) to modular sales (selling bottle cap + label + PET bottle collectively), and stretch to total solution (from the beginning of producing bottle cap, label and PET bottle to the end service of filling OEM, package and storage etc.) and servitization in beverage manufacturing (OEM, ODM, In-house service, joint venture and so on). Builds up an irreplaceable cooperation mode by offering a satisfactory overall service and entering in depth into the production process of the customers.

1.2.4 The Impact of the External Competitive Environment, Regulatory Environment, and Macroeconomic Conditions

1.2.4.1 External competitive environment

In Taiwan, the beverage market is extremely competitive. As over one hundred new beverages are released every year, beverage companies must continuously launch new products to maintain competitive strength and secure market share. As the leader of beverage packaging materials in Taiwan, we have the highest market share in bottle caps, bottle labels, and PET bottles. We continuously develop packaging materials with new functionality, new visuality, and new style to minimize the cost of packaging materials for beverage companies and increase the added value of their products, so that they can maintain their competitive strength in the market.

1.2.4.2 Regulatory environment

In terms of the legal environment, Hon Chuan complies with national related laws, international agreements and such policies. To meet regulatory change and requirements from competent authority, we build and implement related regulations to strengthen corporate governance as our principle.

1.2.4.3 Macroeconomic conditions

We are in the fast moving consumer goods (FMCG) business; therefore, revenue is closely related with the demographic size and national GDP. As the birth-rate in Taiwan has been falling recently, an ageing society with population decline is expected in the future, which would limit the growth momentum of the FMCG market. This will indirectly influence our revenue growth. To mitigate the relevant impacts, apart from aggressively internationalizing our business, we implement vertical integration to expand the depth and breadth of our products and services to improve competitiveness and maintain revenue growth by offering all-rounded services to our key customers.

2. Company Profile

2.1 Company Profile

2.1.1 Date of incorporation: July 15, 1969.

2.1.2 Company history

Year	Milestones
1969	➤ “Hon Chuan Industrial Limited Company” with capital of NTD\$ 600,000 was established in Changhua City.
1982	➤ Moved to Shiou Shuei, Changhua County due to continued expansion, and was renamed as Hon Chuan Enterprise Co., Ltd.

Independent Director/ Huang, Hsiang-Ying			2
Independent Director/ Kung, Yi-Lu			0

Note 1: Professional Qualification and Experience: none of the Directors has been in or is under any circumstances stated in Article 30 of the Company Law.

Note 2: During the two years before being elected and during the term of office, meet any of the following situations:

- (1) Not an employee of the Company or any of its affiliated companies.
- (2) Not a director or supervisor of the Company or any of its affiliates.
- (3) Not an individual shareholder who holds shares, together with those held by the person's spouse, minor children, or held by the person under others' names, in an aggregate amount of 1% or more of the total number of issued shares of the Company or ranking in the top 10 in holdings.
- (4) Not a spouse, relative within the second degree of kinship, or lineal relative within the third degree of kinship of a manager in (1) or personnel in (2) and (3).
- (5) Not a director, supervisor, or employee of a corporate shareholder that directly holds 5% or more of the Company's outstanding shares, a top five shareholder, or appointed as the Company's director or supervisor in accordance with Article 27, Paragraph 1 or 2 of the Company Act.
- (6) Not a director, supervisor, or employee of other companies controlled by the same person with over half of the Company's director seats or shares with voting rights.
- (7) Not a director, supervisor, or employee of another company or institution who is the same person or spouse of the Company's chairperson, president or equivalent position.
- (8) Not a director, supervisor, or executive officer of a specific company or institution with financial or business dealings with the Company, or shareholder with 5% or more shares of the Company.
- (9) Not a professional individual who, or an owner, partner, director, supervisor, or manager of a sole proprietorship, partnership, company, or institution that audited or provided commercial, legal, financial, or accounting services for total compensation not exceeding NT\$500,000 in the most recent two years to the company or to any affiliate of the company, or a spouse thereof. This does not apply to members of the Remuneration Committee, Public Tender Offer Review

Committee, or Merger and Acquisition Special Committee performing duties in accordance with the Securities and Exchange Act or laws and regulations related to mergers and acquisitions.

- (10) Not having a marital relationship, or a relative within the second degree of kinship to any other director of the company.
 (11) Not serving concurrently as an independent director on more than three other public companies in total.
 (12) Not a government agency, juristic person, or its representative set forth in Article 27 of the Company Act of the ROC.

3.2.1.4 The Diversity and Independence of the Board of Directors

(1) Diversity of the Board of Directors

According to Article 20 of Corporate Governance Best Practice Principle of the Company, the composition of the board of directors shall be determined by taking diversity into consideration and formulating an appropriate policy on diversity based on the company's business operations, operating dynamics, and development needs. There are nine seats in the Board of Directors, and all of them possess various professional background and work domain:

- The percentage of the Company's directors who are employee is 44%. The percentage of independent directors is 33%. 11% of directors are female. The three independent directors were all appointed for the first time on June 15, 2017.
- Normal director members: composed of members with rich industry experience and professional skills. Not only do many of them have higher education degree such as Master Degree in Structural Engineering, University of California, Berkeley, U.S.A, Master Degree in Urban Design, University of Sydney, Australia, EMBA of Beijing University, China, but they are also award-winning leaders in different industries.
- Independent director members: composed of the members who possess professional background, expertise and industrial experience, such as Master Degree in Politics, Arkansas State University, U.S.A, Ph. D. in Public Finance and Economics, Central University of Finance and Economics, Peking, China and Master Degree in Accounting, Soochow University, Taiwan. They also have diverse professional backgrounds and skills, such as legislator for eight consecutive terms, member of the Control Yuan, the senior certified public accountant, and the general auditor of finance holding company.
- Hon Chuan's Board of Directors consist of members with different backgrounds and professional skills, and we are concerned about gender equality among board members. The Company's diversity policy targets and achievements:
 1. Set up independent directors at least 1/3 of all directors: achieved
 2. All directors must have at least more than one female director: achieved
 3. At least one of the independent directors has an accountant license and financial expertise: achieved

Note 1: 2021 the net profit of the individual financial statements was NTD\$ 1,964,731 thousand.

Note 2: 2021 the director profit sharing and employee profit sharing have not been distributed and shall be proposed as an estimation of the amount.

3.3.5 Analyze the ratio of the total remuneration paid to the Company's directors, supervisors, President, and Vice President in the last two years by the Company and all the consolidated subsidiaries to the net income in the proprietary or individual financial report. Explain the remuneration policy, standards, and combinations, remuneration determination procedures, and the relevance of operating performance and future risks

1. The percentage of total remuneration paid by the Company and by all companies included in the consolidated financial statements for the two most recent fiscal years to directors, supervisors, president and vice president of the Company, relative to net income.

Title	Total Remuneration as % of 2021 Net Profit		Total Remuneration as % of 2020 Net Profit	
	From HON CHUAN	From All Consolidated Entities	From HON CHUAN	From All Consolidated Entities
Directors	1.77%	2.52%	1.69%	2.49%
General Manager and Vice Presidents	2.26%	2.83%	2.55%	3.16%

Note 1: The Company established the Audit Committee in 2017 to replace the supervisor, so it's not applicable.

Note 2: 2021 the net profit of the individual financial statements was NTD\$ 1,964,731 thousand.

2. The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and correlation with business performance:
 - (1) According to Article 28 of Articles of Incorporation, annual profit before income tax, employees' compensation, and directors' remuneration shall be resolved by the Board of Directors to set aside a maximum of 3% of said profit as remuneration to directors; evaluation items for performance of the Board and individual directors listed in the Regulation of Self-Evaluation of the Board of Directors are also taken into consideration.
 - (2) In accordance with Article 3 Item 2 Paragraph 1 of Remuneration Committee Charter of the Company, performance evaluation and remuneration to directors and managers shall take factors into account including industry average remuneration, individual's performance (e.g. productivity, work knowledge, work quality, work attitude, interpersonal relationship, and flexibility) regularly evaluated in accordance with the Regulation of Performance Evaluation, the Company's operating performance (e.g. financial indicators and non-financial indicators), and future risk exposure. The remuneration to general manager and vice presidents is determined mainly based on the Company's earnings, while taking into account each individual's participation, contribution and performance, as well as the level of remuneration paid by peers.

3.4 Corporate governance practices and status of compliance

3.4.1 Operations of the Board of Directors

The Board held 6 meetings (A) in 2021 with the attendance record of Board members as follows:

Title	Name	Actual Attendance (B)	Attendance by proxy	Attendance Rate (%) (B/A)	Remarks
Chairman	Dai, Hung-Chuan	6	0	100	-
Director	Tsao, Hsih-Chung	6	0	100	-
Director	Liu, Yun-Chang	6	0	100	-
Director	Chang, Chun-Shu	6	0	100	-
Director	Tsao, Hung Yu	6	0	100	-
Director	Dai, Hung-I	5	1	83	-

4. Measures taken to strengthen the functionality of the Board of Directors in recent years and implementation status:

(1) Strengthen the functionality of the Board of Directors:

The Company established functional committees, including the Remuneration Committee (established on 15 March 2012) and the Audit Committee (established on 15 June 2017), in order to strengthen the functionality of the Board of Directors. The independent directors as well as the members of the Remuneration Committee, have a wide range of expertise in accounting, finance, business and law, and often provide effective and professional advice on issues relating to corporate finance, management, new investment plans, internal control and risk control at board meetings; The committee members in accordance with his/her professionalism and independence, make review comments to the Board of Directors in order to ensure the appropriateness of the Company's financial and non-financial reports, the effectiveness of the internal control system, and the reasonableness of the performance evaluation and remuneration of the Company's directors and managers.

(2) Improve information transparency:

The Company has established a comprehensive spokesman system to ensure timely disclosure of all material Information for the reference of shareholders and stakeholders on the financial position and operation of the Company. The Company's website is constantly updated to provide timely information of operations, financial standing and corporate governance to ensure that shareholders have access to the latest information.

(3) Liability insurance for directors and managers:

In order to reduce the legal and financial burden of management team and lessen the possible damage to directors and the Company on exercising their duties, the Company has, since 2010, purchased liability insurance for directors and management team. The current insured amount is US\$7 million, and the insurance expires in January 2022 and has been renewed and approved by the Board on March 22, 2022.

(4) The implementation status of the Board of Directors' functionality:

- To actively promote corporate governance, the Company reported the implementation status of promoting ethical management affairs to the Board of Directors on March 23, 2020, and amended part of Ethical Corporate Management Best Practice Principles and Corporate Social Responsibility Best Practice Principles.
- To implement the internal control systems, the Board of Directors passed the Operating Procedures for Handling Material Inside Information and Preventing Insider Trading on March 23, 2020.
- To strengthen the functionality of the Board of Directors, the amendment of the Regulation of the Self-Evaluation of the Board of Directors was approved by the Board of Directors on March 23, 2021.
- On March 23, 2021, the Board of Directors resolved to appoint the corporate governance officer responsible for provision of information required for performance of duties by the directors and assistance in complying with laws and regulations.

3.4.2 Operations of Audit Committee and the participation of supervisors in the Board operation

1. Operations of Audit Committee

(1) The operation of Audit Committee: The Audit Committee of the Company consists of 3 independent directors with diversified professional background and financial expertise such as—legislator for eight consecutive terms, member of the Control Yuan, senior certified public accountants, and general auditor of finance holding company. The Audit Committee holds meetings before board meetings regularly every quarter, and reviews the following matters:

- Review financial reports, business report, profit distribution proposal.
- Review the effectiveness of internal control system.
- Review the adoption of or any amendment to the relevant regulations of internal control system.
- Review the material investment of the Company, adoption or amendment of acquisition or disposal of assets pursuant to Article 36-1
- Review the offering, issuance, or private placement of any equity-type securities of the Company.
- Review handling procedures for financial or operational actions of material significance, such as derivatives trading, extension of monetary loans to others, or endorsements or guarantees for others.
- Review the matter bearing on the personal interest of directors.
- Review the hiring or dismissal of an attesting CPA, or the compensation given thereto.
- Review the appointment or discharge of a financial, accounting, or internal auditing officer.
- Review the assessment report of the independence and suitability of the CPA engaged by the Company.
- Review the internal audit report.

(2) The Audit Committee, comprising 3 independent directors, was set up on June 15, 2017, and assists the Board of Directors in supervising fair presentation of the financial reports of this Corporation, reviewing the assessment report on the independence and competency of the CPA firm, effectiveness of internal control, compliance with relevant laws and regulations, risk management and so on.

Audit Committee held 6 meetings (A) in 2021 with the attendance record of members as follows:

Title	Name	Actual attendance (B)	Authorized attendance	Actual attendance Rate (%) (B/A)	Remarks
Chairman	Hung, Chao-Nan	6	0	100	-
Member	Huang, Hsiang-Ying	6	0	100	-
Member	Kung, Yi-Lu	6	0	100	-

Other required information:

1. If any of the following circumstances occurs in the course of the Audit Committee's operations, please indicate the date of the Audit Committee meeting, session number, contents of the motion, as well as independent Directors' objections, reservations, or important suggestions, resolutions of the Audit Committee, and the Company's handling of the Audit Committee's opinions:

- Matters listed in Article 14-5 of the Securities and Exchange Act.

Meeting Date of Audit Committee	Content of Motion	Members' opinion to resolutions and the Company's response
2021.03.23	1. Resolution of 2020 employees' compensation and directors' remuneration.	Approved by all members of Audit Committee
	2. Resolution of 2020 financial statements.	
	3. Resolved the 2020 Financial reports.	
	4. Resolved 2020 profit distribution.	
	5. Resolution of replacement of CPAs.

- (1) There are 3 members in Remuneration Committee of the Company.
- (2) Current term of office: From June 19, 2020 to June 18, 2023. A total of 2 (A) Remuneration Committee meetings were held in 2021.

The qualification and attendance record of the Remuneration Committee members were as follows:

Title	Name	Actual attendance (B)	Attendance by proxy	Actual attendance rate (%) (B/A)	Remarks
Chairman	Hung, Chao-Nan	2	0	100%	-
Member	Huang, Hsiang-Ying	2	0	100%	-
Member	Kung, Yi-Lu	2	0	100%	-

Other required information:

1. If the Board of Directors does not accept or amend the suggestions of the Remuneration Committee, please state the Board meeting date, term, the motions, content of the resolutions of the Board, and the Company's handling the opinions proposed by the Remuneration Committee: None.
2. For resolutions approved by the Remuneration Committee regarding which independent director objects or expresses reservations, and has been recorded or declared in writing, the Remuneration Committee meeting date, term, content of the resolution, opinions of all members, and the handling of the opinions of the members: None.

- (3) The meeting contents, resolution results and the Company's response to the opinions of members of the Remuneration Committee:

Meeting Date of Remuneration Committee	Content of Motion	Resolution and opinion of Remuneration Committee	The Company's response to opinion of Remuneration Committee
2021.03.23	1. Resolved the Company's 2020 directors compensation, year-end bonus and management dividend. 2. Resolved the Company's 2021 promotion of executives.	Approved by all members of Remuneration Committee.	Been submitted to the Board of Directors, and resolved by all present directors.
2021.05.11	1. Resolved the Company's 2020 employees dividend of managers.		

3.4.5 The State of the Company's Promotion of Sustainable Development, any Variance from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, and the Reason for any Such Variance

Item	Implementation Status			Reason for Deviations from Sustainable Development Best-Practice Principles for TWSE/GTSM Listed Companies
	Yes	No	Description	
A. Has the Company established exclusively (or concurrently) dedicated units to implement sustainable development, and has the board of directors appointed executive-level positions with responsibility for sustainable development, and supervision of the board of directors?	V		The Company formulated and amended the "Corporate Social Responsibility Best Practice Principles" on November 12, 2015. The Company's "Corporate Social Responsibility Promotion Committee" was also established in October 2019 (it was renamed the "Sustainable Development Committee" on May 2021), and amended the "Sustainable Development Best Practice Principles" on March 22, 2022. The main purposes of the Committee is to constantly promote the Company's implementation of ESG (sustainable environment, social participation, corporate governance), increase corporate sustainability capabilities, enhance the Company's corporate image, and fulfill corporate social responsibility. Our board of directors values the issue of environmental protection and climate change. The board of directors leads the Sustainable Committee and Project Promotion Committee to discuss and examine. The dedicated unit of the Committee is the General Administration Department, which is responsible for corporate social responsibility policies and systems, integrating the management policies and specific promotion plans of the implementation teams, and reporting the implementation status to the Board of Directors. The Company officially releases an ESG sustainable report. For details, please refer to the Company's website.	None
2. Has the Company conducted risk assessment on environmental, social and corporate governance issues related to business operations of the Company in accordance with the concept of	V		Based upon material principle, the Company has conducted risk assessments on environmental, social, and corporate governance issues and formulated relevant risk management policies or strategies. To reduce the impact of potential risk losses, the Company	None

3.4.9 The implementation of the internal control system

3.4.9.1 Statement of Internal Control System

Taiwan Hon Chuan Enterprise Co., Ltd. Statement of Internal Control System

Date: March 22, 2022

Based on the findings of a self-assessment, Taiwan Hon Chuan Enterprise Co., Ltd. (Hon Chuan) states the following with regard to its internal control system during the year 2021:

1. Hon Chuan's Board of Directors and Management team are responsible for establishing, implementing, and maintaining an adequate internal control system. Our internal control is a process designed to provide reasonable assurance over the effectiveness and efficiency of our operations (including profitability, performance, and safeguarding of assets), reliability, immediacy and transparency of report, and compliance with applicable regulations and laws.
2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing its stated objectives. Moreover, the effectiveness of an internal control system may be subject to changes due to extenuating circumstances beyond our control. Nevertheless, our internal control system contains self-monitoring mechanisms, and Hon Chuan takes immediate remedial actions in response to any identified deficiencies.
3. Hon Chuan evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (herein below, the "Regulations"). The criteria adopted by the Regulations identify five key components of managerial internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities.
4. Hon Chuan has evaluated the design and operating effectiveness of its internal control system according to the aforesaid Regulations.
5. Based on the findings of such evaluation, Hon Chuan believes that, on December 31, 2021, it has maintained, in all material respects, an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability, immediacy and transparency of report, and compliance with applicable regulations and laws.
6. This Statement will be an integral part of Hon Chuan's Annual Report and Prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Law.
7. This Statement has been resolved by the Board of Directors in the meeting held on March 22, 2022, with none of the nine attending directors expressed dissenting opinions, and meanwhile, approved the content of this Statement.

Taiwan Hon Chuan Enterprise Co., Ltd.

Chairman: Dai, Hung-Chuan

President: Tsao, Hsih-Chung

3.4.9.2 If a CPA is commissioned to review internal control system specifically, the review report should be disclosed: None.

Note 1: The Company's 2021 Profit Distribution Proposal was resolved by the Board of Directors on March 22, 2022, and has yet to be resolved by the shareholders' meeting. If the number of total shares outstanding, prior to the ex-dividend date for the distribution, has changed so that the ratios of dividends are affected, the Board of Directors is authorized to make such adjustments.

Note 2: Price-Earnings (P/E) Ratio = Average closing price per share of the year / Earnings per share.

Note 3: Profit Ratio = Average closing price per share of the year / Cash dividend per share.

Note 4: Cash Dividend Yield = Cash dividend per share / Average closing price per share of the year.

4.1.6 Dividend Policy and Distribution

4.1.6.1 Dividend Policy in Articles of Incorporation

- (1) Upon closing of accounts, if there shall be any net profit, the Company shall make up the losses for the preceding years, then set aside a legal reserve of 10% of the net profit unless the statutory surplus reserve has reached the total capital and then set aside or rotate special reserves; Any further remaining amount shall be added to the unallocated surplus from the prior year as shareholder dividend and bonus. The Board of Directors shall draft a proposal to distribute the surplus, which shall be approved at a shareholders' meeting.

If the distributable dividend, bonus, capital surplus or legal reserve in whole or in part are to be paid in the form of cash, the Board of Directors is authorized to implement by a resolution to be adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting.

The dividend policy of the Company shall be made according to the Company's current and future plan, considering investment environment, fund requirements, overall competition and taking into account the interests of shareholders. The Company may appropriate more than 30% of net profits of current year for dividends to shareholders. However, when accumulated unappropriated earnings are less than 10% of capital, the Company may decide not to distribute dividend.

The shareholder dividend shall be in the form of cash dividend or stock dividend. More than (or equal to) 50% of the total amount of shareholders dividend shall be in the form of cash dividend.

4.1.6.2 Proposal for Dividend Distribution by this Shareholders' meeting (Resolved by the Board of Directors' meeting on March 22, 2022, and will be proposed to Shareholders' meeting which held on June 17, 2022 for ratification)

Items	Unit: NTD\$	
	Subtotal	Total
Unappropriated retained earnings of previous years		1,945,519,993
2021 after-tax net income	1,964,730,343	
Remeasurement of defined benefit obligation	(815,122)	
Retired treasury stock debited to retained earnings	367,515	
After-tax net income and other profit items adjusted to the current year's undistributed earnings other than after-tax net income		1,964,282,736
Legal capital reserve		(196,428,274)
Special reserve		<u>(544,040,378)</u>
Retained Earnings Available for Distribution as of 2021		3,169,334,077
Shareholders' Dividend - Cash (NTD\$ 4.3 per share)		(1,237,479,280)
Unappropriated Retained Earnings		<u><u>1,931,854,797</u></u>

If the number of total shares outstanding, prior to the ex-dividend date for the distribution, has changed so that the ratios of dividends are affected, the Board of Directors is authorized to make such adjustments.

4.1.6.3 If expecting any significant change about dividend policy, it shall give explanation: None.

4.1.7 Impact to Business Performance and EPS resulting from Stock

Dividend Distribution: Not applicable.

4.1.8 Employees' Compensation and Directors' Remuneration

4.1.8.1 The policy of employees' compensation and directors' remuneration as stated in the Articles of Incorporation

Annual profit before income tax, employees' compensation, and directors' remuneration shall be resolved by Board of Directors to set aside no less than 1% of said profit as employee compensation and a maximum of 3% of said profit as remuneration to directors.

Employee's compensation may be distributed in the form of shares or in cash, and employees qualified to receive such compensation may include employees from holding or affiliates companies who meet the qualifications which the Board of Directors stipulates.

The issues relevant to distribution of employee compensation and director remuneration shall be set by resolutions of the Board of Directors. If the Company has accumulated losses, it shall first deduct the accumulated losses, and then calculate the compensation from the remaining amount.

4.1.8.2 Basis for estimating employees' compensation, directors' remuneration and stock dividends, and accounting treatments for any discrepancies between the amounts estimated and the amounts paid:

If a different amount is resolved during the shareholders' meeting, the difference shall be treated as a change in accounting estimates and recognized as gains or losses in the year of 2022.

4.1.8.3 Compensation and Remuneration proposal resolved by the Board of Directors

- (1) Disclose the amount, cause and treatment for any difference that arise between the amount proposed and estimated in the year it was recognized as an expense.

The Board of Directors resolved the profit distribution on March 22, 2022.

Employees' compensation: 1.70% as of NTD\$37,432,750 in Cash.

Directors' remuneration: 0.79% as of NTD\$ 17,294,076 in Cash.

There was no difference between the amount proposed and estimated in the year it was recognized as an expense. After actual distribution amount being resolved in the shareholders' meeting, the difference with recorded amount will be deemed as changes in accounting estimates and included in 2022 profit and loss.

- (2) The percentage of proposed employee bonus paid in shares, relative to the sum of standalone after-tax net income plus total employee bonus: Employees' compensation would be distributed completely in cash, which resolved on March 22, 2022 the Board of Directors' meeting; so it is not applicable.

4.1.8.4 Actual distribution of employees' compensation and directors' and supervisors' remuneration in previous year

Units: NTD\$

Items	2020			
	Recorded amount	Actually paid	Difference (Note)	Remark
Employees' compensation	33,065,500	33,047,500	18,000	Recorded as Other revenue
Directors' and supervisors' remuneration	14,585,598	14,585,598	None	-

Note: The reason of difference is the payment of resigned employees.

Bank of Taiwan	0.78%	2020/9/1 - 2022/9/1		200,000	200,000	(Note)	200,000	(Note)	(Note)
Total					3,000,000		3,000,000	(Note)	(Note)

Note: The Company issued this Domestic Unsecured Corporate Bonds in order to repay the short-term debt with the floating interest rate. It increased long-term funds to make the financial structure more sound, lock in capital costs, and reduce the risk of rate hike in the future. The coupon rate for the issuance of corporate bonds is a 5-year fixed rate of 0.75%. Although there is no nominal benefit compared to the repayment of floating interest rate loans, considering that the current interest rates of domestic loans are relatively low, it is expected that the interest rate will gradually increase in the future. The interest expense of the floating interest rate in the next few years will be substantially higher than the cost of issuing corporate bonds. Therefore, the issuance of Corporate Bonds at the moment can secure more favorable interest rate.

4.8.1.6 Any Change relating to this Cash Capital Increase: None.**4.8.1.7 Date of Public Disclosure:** November 17, 2021.

4.8.2 Implementation status

Unit: NTD\$ Thousand; %

Plan Item	Implementation		4th Quarter, 2021	Up to the end of 4th quarter, 2021	Reason and Improvement plan while ahead of / behind the schedule
To replenish working capital	Used Amount	Expected	3,000,000	3,000,000	Completely implement at 4th quarter of 2021 as expected schedule.
		Actual	3,000,000	3,000,000	
	Implementation Status	Expected	100%	100%	
		Actual	100%	100%	

The Company issued the 1st Domestic Unsecured Corporate Bonds in 2021, which resolved by the Board of Directors on September 30, 2021 and approved by Taipei Exchange with the registration no. 11000126991 on November 17, 2021. The issuance has completed on November 26, 2021 and the Company has fully repaid its loans at 4th quarter of 2021 as expected schedule.

33. F221010 Retail of food additives.
34. F102180 Wholesale of Ethanol.
35. F203030 Retail Sale of Ethanol.
36. F203020 Retail Sale of Tobacco and Alcoholic Drinks.
37. F401161 Tobacco Products Import.
38. A102060 Grain Commerce
39. F201010 Retail sale of Agricultural Products
40. ZZ99999 All business items that are not prohibited or restricted by law, except those that are subject to special approval.

5.1.1.2 Major Products and Revenue Proportion

2021 Major products and Revenue Proportion

Unit: NTD\$ Thousand

2021	Net Sales	Percentage
PET Bottle	6,936,528	32.44%
Beverage Filling OEM	6,392,625	29.90%
Plastic Cap	5,491,094	25.68%
Tobacco & Liquor Packaging	743,820	3.48%
Label	609,013	2.85%
Aluminum Cap	599,324	2.80%
Metal Lug Cap	338,832	1.58%
Films & Electronics Packaging	104,087	0.49%
Others	167,211	0.78%
Total	21,382,534	100.00%

5.1.1.3 Current Product Items

Products		Item
Cap Product	Aluminum cap	Aluminum cap for carbonated drink, functional beverage, hot-fill drink, long neck security wine cap, ring pull cap, spiral bottle cap, I.V. injection aluminum cap, iron cap for medicine use, classic aluminum iron box, hologram aluminum cap, QR Code aluminum cap
	Plastic cap	Plastic cap for carbonated drink, mineral water, hot fill drink & aseptic drink, QR Code plastic cap, Soy sauce cap
	Metal lug cap	Metal lug cap with safety button, metal lup cap with high temperature resistance and normal temperature, composite metal lug cap with high temperature resistance
Label Product		PVC/PET shrinkable colorful label, OPP film colorful label, PVC shrinkable colorful bottle cover, classic bottle cover, multi-layer LDPE shrinkable film
PET Bottle		Heat-resistance crystallized PET bottle, mineral water bottle, Soy sauce bottle, CSD carbonated drink bottle, aseptic bottle, wide neck refrigerated bottle, cosmetic bottle, preform
Beverage Filling OEM		Beverage Filling OEM for PET aseptic bottle, PET hot-fill bottle, TR refrigerated bottle, TBA long conserved products
Tobacco & Liquor Packaging Product		Filter connector, filter paper, BOPP film, malt, cork, oak barrel, wet silicone rubber, cigarette paper, coated paper, cap seal
Other Product		LDPE shrinkable film for multipack

5.1.1.4 New Products Development

Item	Estimated Amount
------	------------------

1. Household chemicals and seasoning packaging materials	NTD\$ 97.95 million
2. Introduction of eco-friendly packaging material rPET	
3. New specifications and lightweight 1881 aseptic cap and 3025 plastic cap	
4. Long protruded cap, bi-color cap, clamshell cap, etc. for enhanced appearance and usability	
5. Connected cap with environmental protection demands	
6. Development and application of eco-friendly packaging material r-HDPE	
7. PCR shrinkable film and PLA biodegradable films with environmental protection demands	

5.1.2 Market and Sales Conditions

5.1.2.1 Current Status and Development of the Industry

In the 2021 Food Industry Year Book report, the gross production value of Taiwan's Food and Beverage Manufacturing Industry in 2020 was NTD\$ 642.1 billion, up by 1.9% from the previous year. Dividing the industry into two segments, the production value of Food manufacturing was NTD\$ 547.7 billion, and the aforesaid amount of Beverage manufacturing (including Alcoholic beverage) was NTD\$ 94.5 billion. As the COVID-19 pandemic spread globally in 2020, Taiwan effectively controlled the disease. Thus, the production value of food & beverage manufacturers is stable growth. The Beverage Industry belongs to the domestic demand-oriented industry with a highly concentrated market, and the top eight manufacturers make up for over 70% of the entire market scale. Furthermore, in order to intensify the growth energy in beverage market, Taiwan's beverage companies prefer the strategy of cross-border cooperation to launch new flavors which can bring customers innovative experience, so as to increase the beverage market momentum.

According to the statistics indicated by Ministry of Economic Affairs, the sales volume of non-alcoholic beverage in 2020 reached NTD\$ 57.46 billion, increased by 11.2% compared with NTD\$ 51.67 billion in the previous year. In terms of product types, Tea was the leading product which reached NTD\$ 20.73 billion (36.1%). Vegetable juice followed, stood at NTD\$ 5.82 billion (10.1%). Coffee took the third place, stood at NTD\$ 57.5 billion (10.0%), and was followed by Carbonated drinks with NTD\$5.38 billion (9.4%), mineral water with NTD\$ 3.18 billion (5.5%), and Sports drinks with NTD\$ 2.99 billion (5.2%).

In 2020, new food and beverage products were mainly entirely new products, while new packaging products increased noticeably; the entirely new products accounted for 39% (lower than 40% of last year). The extended products of new products series followed and had a proportion of 31% (lower than 33% of last year). Then, the new products with new packaging accounted for 25% (higher than 23% of last year). Overall, the market may maintain certain growth energy due to some factors, such as stable growth of macroeconomics, constant hot weather and continuously stable sales led by new products.

Due to the fact that the beverage industry is maturing, the competition in the overall beverage market has become relatively fierce, and brands manufacturers are launching new brands and new product to win more market share. According to the 2021 Food Industry Year Book report, the pandemic has strengthened consumers' health consciousness; therefore, the natural ingredients become innovative templates for the beverage. Climate change has led the consumer's awareness to go green. The sustainable food ingredients and packaging

materials will gain young consumers' recognition. In addition, fancy packaging color and design of beverage products provide consumers with sensory experiences and encourage new target audience to buy.

It is already the global trend for the beverage packaging to develop towards lightweight, eco-friendly, carbon footprint and carbon labeling, and so on. Under current phenomenon of global plastic reduction, international beverage manufacturers are gradually turning to green and circular economy products as alternative materials. In the future, there may exist innovative packaging in the beverage market.

In addition, in the recent years, the society has placed great emphasis on food safety; the Company is actively reinforcing the supplier's source management, applying the SAP system to completely track each product's traceability, and strictly controlling the product quality for customers. The Company will keep cooperating with the leading brands in the beverage market, hoping to grasp the mainstream products in the market and continue to expand the market development.

The Company's major product categories are hereby analyzed as the follows:

(1) Cap Product

The closure is an important part of food and beverage packaging, and is also the customer's first contact with the product; the closure has the characteristics to keep the products airtight and to stabilize the quality, and it also has the functions in terms of pilfer-proof opening and safety, so it is extensively used in the bottled products with content. Therefore, the closure is the upstream industry for food industry, beverage industry, chemical industry, pharmaceutical industry and pickles industry, and is also the key product for the packaging of bottled containers.

The early developments of the closure involved the use of cork materials, SPTE (Steel Plated-Tin, Electrolytic) crown closure and iron spiral closure, and they were all imported from places such as Japan and Germany, etc. With the introduction of cap production technology, there are about 30 to 40 cap production operators, and so far, they have gradually developed products such as long neck aluminum closures, carbonated beverage aluminum closures, hot-fill aluminum closures, injection aluminum closures, medicine bottle closures, open pull ring covers, metal lug closure with safety button, and plastic closures, etc. However, as the majority of manufacturers are unable to continue their investments in R&D and quality improvement, and can not meet customer expectations of product value and service, they would withdraw from the cap market due to lack of competitiveness. As a result, the market is highly concentrated with the characteristics of economies of scale.

As the closure plays an important part in the beverage packaging industry, upwardly connecting the metal and plastic raw material industry, downwardly closely related to the beverage industry, the change of demand intensity in the downstream consumption market would directly affect the market demand for closures; and the booming of beverage industry has higher and higher requirements for product packaging, and which also drives the demand for cap products. And cap products stand in a key position in the beverage packaging industry, so the development trend of the beverage industry would directly affect the demand for cap products.

In the cap product market, the demand is stable and showing a growing trend, except for the fact when the packaging materials change, the structure of cap product category would also change accordingly; overall, the use of plastic closures increases proportionally. Even though aluminum closures are partially replaced by plastic closures, it is mainly used in alcohols and functional beverages, and its demand is steadily growing; and the proportional demand for metal lug closures has not changed very much.

(2) Label Product

Plastic colorful labels are mainly used in the external packaging of food and beverage, such as beverage, food, chemical drugs and dairy products, etc. The functions are high elongate strength, impact-resistance, oil-proof, water repellent, etc., so the shiny and remarkable labels can also, at the same time, bring out the products' sense of value to attract consumers; so the color and gloss control are extremely important for the printing of plastic colorful labels. According to the different materials, plastic colorful labels can be categorized into PET shrinkable colorful labels, OPP colorful labels, OPS shrinkable colorful labels, PET + PS co-extrusion shrinkable colorful labels, PET shrinkable labels with hot stamping.

Conventionally, paper was pasted onto the PET bottles and glass bottles to identify or label the product description. As paper materials are not humidity-resistant, can easily fall off, and would appear to be corroded or turn yellow over a longer storage time, they are not excellent material for external packaging. And the materials used for colorful labels are PET, OPP, etc., they not only have extremely good hot-shrinkable property and can be pasted unto products in various shapes, but also have features such as not falling off easily and with bright appearance, so they are extensively used by all kinds of beverage and food and replace the traditional paper materials.

As the plastic material has features such as impact-resistance, oil-proof, water-repellence, soaking resistance, water temperature resistance, and etc., plastic colorful labels have a more extensive range of applications than does the general labels printed on paper, and can increase the sense of value for packaged products. Therefore, plastic colorful labels play a very important role in the packaging material for the basic commodity industry. Along with the economic development of Taiwan and the increase of gross national income, consumers' taste for the products' packaging selection also gets higher. And for the industry operators in the beverage, food and general supplies industries, while facing the fierce competition in the market, they also have higher demands for the design and requirements of the product packaging materials, so the plastic colorful labels have become one of the indispensable packaging materials. In the recent years, the plastic colorful labels have been paired with PET bottles, PE bottles, glass bottles and other various types of bottle and jars as supporting marketing to highlight the image and value of packaged products.

(3) Multi-layer LDPE Shrinkable Film

The original monolayer film has poor homogeneity and cannot highlight the properties of the materials. In order to meet the client's requirement specifications, special raw materials of higher unit prices need to be added, and the effects are limited and cannot achieve both elongate strength and shrinkage ratio at the same time. Recently, multilayer LDPE shrinkable films were implemented: for materials LDPE, LLDPE, mLLDPE and HDPE, the elongate strength and shrinkage ratio can be adjusted between the layers according to the clients' specification requirements, and the homogeneity is better and the properties required for each layer can be highlighted, and

the crushed materials and deputy brand materials can also be added into the middle layer to reduce the raw material costs.

(4) PET Bottle

PET bottles' technical trends of the functions such as transparency, lightweight, good preservability, emphasized heat-resistance, reseal ability, pressure-resistance, etc., make them grow continuously in the soft drinks market. Today, PET bottles have become the mainstream packaging for beverages (please refer to the figure below for the Evolution of Packaging Materials in the World). Many kinds of beverages that need to be sterilized at high temperature in order to be filled, such as flavored water, juice, dairy products, tea drinks, sports drinks, soy sauce bottle, etc. have also started, one after the other, to be packaged in PET bottles, so PET bottles have just become the mainstream packaging material for beverage and food products.

As PET bottles have properties that can reduce environmental pollution and energy wasting, at the rise of environmental awareness like today, they have gradually replaced the conventional packaging materials. With functions such as heat-resistance, pressure-resistance and etc., in the recent years, they have replaced various types PP bottles, Tetra Pak, aluminum cans, tin cans, glass bottles, etc., and have become the packaging material with the most growth potential.

The Evolution of Packaging Materials in the World

Evolution	Glass Bottle (About 250 years)	Metal Can (About 200 years) Aluminum Can (About 60 years)	Carton Box & Tetra Pak (About 60 years)	PET Bottle (About 30 years)
Advantage	<ul style="list-style-type: none"> ★ Good Permeability ★ Heat Resistance and Wear Resistance 	<ul style="list-style-type: none"> ★ Light-blocking ★ High Temperature Resistance ★ Not easy to break or damage 	<ul style="list-style-type: none"> ★ Low cost and light-weight ★ Low shipping cost 	<ul style="list-style-type: none"> ★ Low cost ★ Recyclable, can be used repeatedly ★ Form is easy to shape, diversified shapes
Disadvantage	<ul style="list-style-type: none"> ★ Heavier, easy to break or damage ★ Higher shipping costs 	<ul style="list-style-type: none"> ★ Poor Chemical Stability ★ Easy to have peculiar smell 	<ul style="list-style-type: none"> ★ Fixed form ★ Easy to be crushed, damaged and deformed 	<ul style="list-style-type: none"> ★ Shorter shelf life, less than 6 months
Range of Application	<ul style="list-style-type: none"> ★ Alcohols and etc. 	<ul style="list-style-type: none"> ★ Carbonated drinks, beer and etc. 	<ul style="list-style-type: none"> ★ Dairy products, juice, Tea drinks and etc. 	<ul style="list-style-type: none"> ★ 1st Generation – bottled water (30 years) ★ 2nd Generation – carbonated drinks (25 years) ★ 3rd Generation – heat-resistant crystallized bottles (20 years) ★ 4th Generation – beer (already a small amount available in the market, moving towards universal development)

(5) Beverage Filling

The Company's aseptic beverage plants adopt the newest generation of Germany GEA beverage aseptic filling equipment, which can produce low acid beverages (products such as tea, coffee, milk tea, etc.) and aseptic carbonated beverage (products such as soda, juice soda, sparkling water, etc.)

The features of the aseptic PET bottle filling:

- ① The weight of the PET bottles used accounts for 60% of the hot-fill lines, with lower material costs.
- ② In addition to high acid products, low acid products can also be filled.
- ③ The filling temperature is room temperature, so the flavor of the products can be maintained.
- ④ The products can be stored in room temperature.

- ⑤ The products need to be strictly controlled from raw materials, packaging materials to manufacturing process, so the consumers have more quality assurance.
- ⑥ A more extensive range of products can be packaged.
- ⑦ Higher level of processing technology.

5.1.2.2 The correlation among the upstream, midstream and downstream of the industry

The Company's business is mainly in the packaging materials, and due to the fact that the packaging methods for various downstream products are different, product categories of the Company also appear to be diversified. The materials and the manufacturing processes of each product are quite different due to the different requirements of the downstream manufacturers. Therefore, the correlations among the upstream, midstream and downstream of the industries for the Company's main products, such as cap category, label category, PET bottles and beverage filling, etc., is explained as follows:

(1) Cap Category

① Raw Material Suppliers

The upstream supplier of closures provides the closure manufacturers the raw materials required for the production of the products, and the raw materials are generally divided into two types: one is the metal material industry, and the other is the plastic material industry. Among them, the metal material operators provide materials required to produce closures, such as aluminum sheets, iron sheets and SPTE, etc.; the plastic material operators would provide all types of plastic materials, such as plastic grains, Polyester grains, etc., for the production of all types of plastic closures.

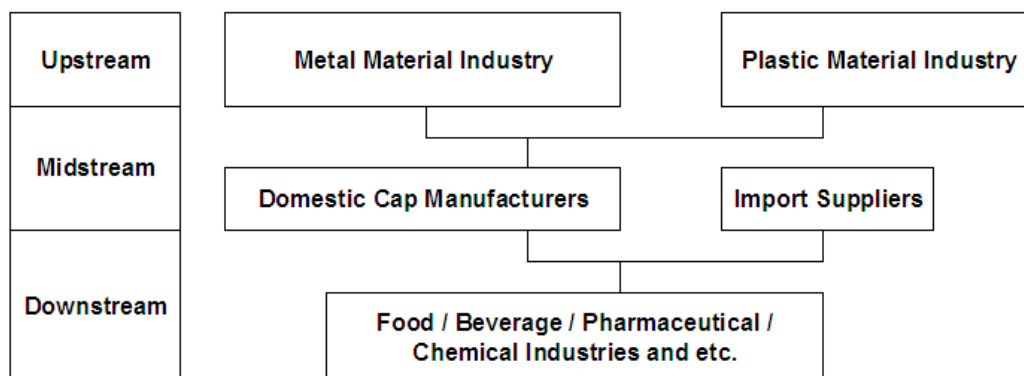

② The Manufacturers and the Import Suppliers

The closure manufacturers are the production operators that integrate raw materials, technology and production equipment; and the import suppliers are the vendors that import all types of closures from abroad in order to meet the domestic demand.

③ The Procurement User or the Final Demander

This type of operators usually belongs in the food industry, beverage industry, pharmaceutical and chemical industries, etc., and their demand for the specification category of closures varies according to the types of products. The types of closures required for all industries can be broadly divided into functional aluminum closures, biotech aluminum closures, high temperature resistant aluminum closures, alcohol long neck aluminum closures, plastic closures and metal lug closures, etc.

The relationships among the closure manufacturers and sellers are as follows:

(2) Label Category

① Raw Material Suppliers

The upstream raw material suppliers of labels belong in the plastic material industry, and the materials can be divided into POLYETHYLENE TEREPHTHALATE (hereinafter referred to as PET), ORIENTED POLYSTYRENE (hereinafter referred to as OPS), POLYVINYL CHLORIDE (hereinafter referred to as PVC) and ORIENTATION POLYPROPYLENE (hereinafter referred to as OPP), and other eco-friendly materials (such as ORIENTATION PET, C-PET, OPS and PLA shrinkable film), to provide the raw materials for shrinkable films in order to supply for the production of labels.

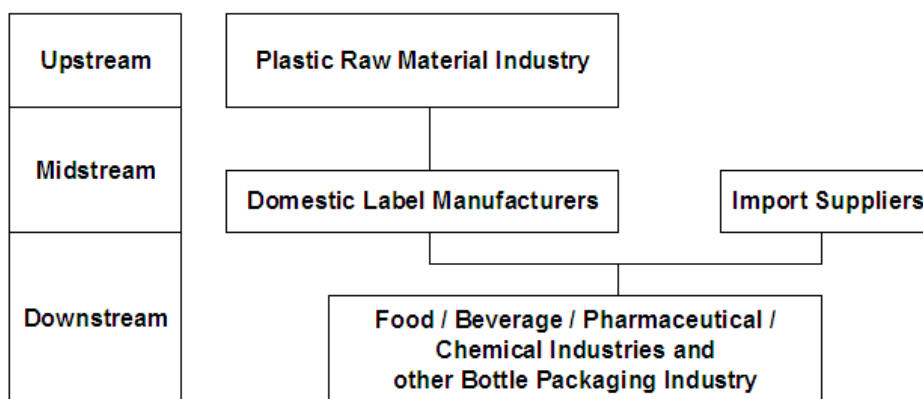

② The Manufacturers and the Import Suppliers

Domestically, there are many manufacturers that produce label products, so the competition is fierce in the market; in addition to the domestic labels, our country also imports labels from abroad annually to supply for the demand in the domestic market.

③ The Procurement User or the Final Demander

Labels are mainly used in the external packaging for food, beverage, pharmaceuticals, chemicals, makeup and other bottles.

The relationships among the label manufacturers and sellers are as follows:

(3) PET Bottle

① Raw Material Suppliers

The upstream raw material suppliers of PET bottles belong in the plastic material industry, and the material is Polyester grains, the major raw material for PET bottles.

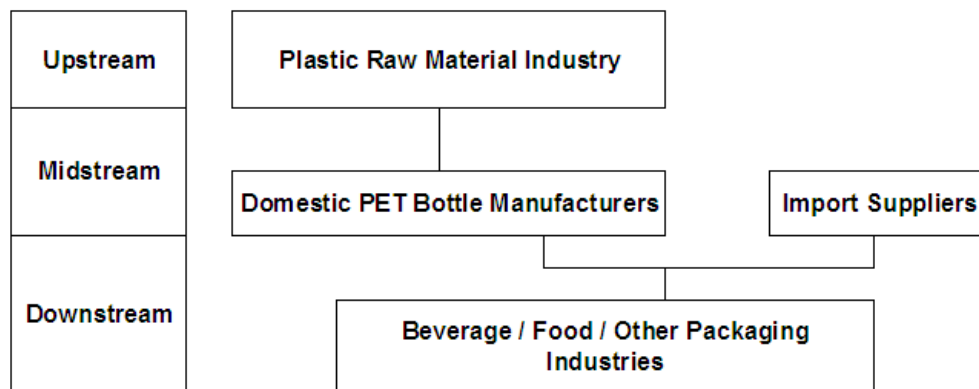

② The Manufacturers and the Import Suppliers

Domestically, there are quite a few PET bottle manufacturers, and their experience and technology are maturing; our country also imports PET bottles from abroad annually to supply for the demand in the domestic market.

③ The Procurement User or the Final Demander

PET bottles are considerably used in low temperature and hot-fill juice, tea, carbonated drinks, coffee, mineral water, sports drinks and soy sauce bottle.

The relationships among the PET bottles manufacturers and sellers are as follows:

(4) Beverage Filling

The clients entrust our company for beverage OEM, so we can form a strategic cooperation of work specialization; the clients can provide us the professional R&D formula and raw material suppliers, and HON CHUAN can provide high quality and sufficient packaging and filling OEM services, so the clients can dedicate themselves to the brand marketing and channel development of beverages. The integration of two parties can complement each other and create an impressive synergy.

The relationships among the Beverage Filling manufacturers and sellers are as follows:

5.1.2.3 Development Trend and Competitive Situation of Major Products

(1) The Development Trends of the Products

① Cap Category

As closure is an indispensable part of beverage packaging, the development trends in the cap industry are closely related to the development trends in the beverage packaging industry. The development trends of beverage packaging are analyzed as follows:

Currently, the beverage packaging, commonly seen in the market, according to the materials, can be divided into four categories, including paper packaging, plastic packaging, metal packaging and glass packaging. As for the opinion which category of packaging material is suitable for which beverage packaging method, following the continuous improvement of the material technology, has changed greatly. However, as the packaging material must match the product characteristics and consumption patterns of the beverage itself, each type of packaging material still has different market shares in all kinds of beverage market segments. PET bottles have become the mainstream packaging material for global beverage market and continue to grow, so plastic closures, used with PET bottles, are also the mainstream of packaging.

Nevertheless, plastic and glass material packaging can also use plastic closures or metal closures, and the key is determined by the characteristics of the beverage products themselves; metal packaging, due to its material characteristics, are mainly used in metal closures and closures bottles, and the cap products it can also use are aluminum closures and SPTE (Steel Plated-Tin, Electrolytic) closures.

As Taiwan consumers' awareness of health care gradually grows, the demand for biotech type healthy food is also increasing day by day, which can drive up the market demand for aluminum closure.

Due to the characteristics of various shapes and applicability to the fast moving consumer goods supply chain, PET bottle has become the mainstream packaging material in the beverage market with its market share increasing year by year. Furthermore, the PET bottle and plastic closures can be classified and reused in the process of recycling, which prove the fact that PET bottle a highly sustainable material, and the added value of PET bottle can be enhanced.

② Label Category

Nowadays, Environmental Protection Administration, in response to the price fluctuations of the international raw materials and to promote the eco-friendly design for container products, has further considered the overall objective and subjective factors, by revising the container recycling cleaning and processing fees to be effective on July 1, 2012; and for those who adopt easy to remove design for PET containers labels, there were programs to provide them with preferential fees, in order to stabilize the resource recovery fund and the operation of the recycling and processing system, and to enhance the benefits from recycling and processing waste containers. For those who still use containers with PVC material attachments, twice of the processing fees would be imposed on them, as the expectation is for the beverage plants to replace

the PVC shrinkable films with PET shrink labels and increase the use of easy to tear lines.

At present, approximately 90% of the market used PET labels, and the rest of 10% used other materials.

Since 2019, the Company has introduces advanced flexo printing system from Europe using UV inks with low VOCs (Volatile Organic Compounds) , and starts production in 2021 so as to enhance the quality of our packaging products with better touch, hot-foil stamping for high-gloss effects, or anti-counterfeit technologies. In this way, Hon Chuan can operate in an eco-friendly manner to fulfill our corporate social responsibility.

To follow the global trends of environment protection and plastic reduction, the Company introduced 30%PCR PET shrinkable film and started production in 2020, in order to increase the recycling rate.

Currently, the recycling rate of PET shrinkable labels is low. In 2021, the Company developed the application of Eco-Label PET shrinkable film to increase the recycling rate of PET shrinkable labels.

③ PET Bottle

PET bottles have gained a pivotal position in the development of the beverage industry, according to the survey by relevant research institute, such as Canadean Ltd., half of the soft drinks globally adopt PET as the packaging material.

PET first appeared in the United Sated, and later was promoted in Europe and Asia, and further became a global packaging material, as the application and function of PET kept growing, it is now extensively used in the beverage market. Among the very many types of packaging, the usage of PET bottles has been the fastest growing. Soft drinks and mineral water are the two kinds of beverages that use the PET bottles the most globally. Many brewers have even started to identify the feasibility of PET bottled beers, as, in addition to glass bottles, PET bottles can also be used to enrich the packaging style of beers to cater to some special occasions.

PET bottles have features such as lightweight, good preservability, convenience to use and ship, and when it is paired with the same material plastic closures, the whole PET bottles can be recycled; in the process of recycling, the PET bottle and plastic closures can be classified and reused, and the added value of PET bottle can be enhanced. Furthermore, as PET bottles have properties that can reduce environmental pollution and energy wasting, at the rise of environmental awareness like today, they have gradually replaced the conventional packaging materials. Therefore, at the present stage, PET bottles have become the mainstream packaging material for global beverage products.

④ Beverages Filling

During the aseptic filling manufacturing process, the products would undergo an ultra-high temperature sterilization of 130°C instantaneously and then after rapid cryogenic cooling, they are sent directly for filling at the PET filling machine in the clean room, and the process can fully preserve the aroma and flavor of tea. The advantages of aseptic filling method are not only of sterilization function but also ensuring the original flavor and aroma of products, so it is suitable for sensitive beverage. Its shelf life is longer than hot filling method and filling at room temperature then sterilization, so the development of aseptic filling is the milestone of the development technology for PET bottles. As PET aseptic filling have functions such as sterilization and keeping the original aroma and flavor of products, in addition, in the recent years, the booming of tea drinks, fruit & vegetable juice and coffee beverage, etc. globally has helped PET gradually gain the market recognition, and its growth is expected to continue to rise up.

(2) The Competition Situation of All Types of Products

As our company's cap category products are of excellent quality and complete specifications, and we can provide a complete set of comprehensive services to our clients, so we are in a leading manufacturer position in the domestic cap market. As PET bottles have become the mainstream in the beverage packaging market, our company can not only produce the PET bottles that are suitable for high temperature filling or beverage that required high temperature processing (such as carbonated beverage, tea drinks, juice and etc.), but also can further focus on developing aseptic PET bottles and the OEM of aseptic filling beverage at higher technical levels and wider applied areas. As our company can provide our clients related packaging materials such as PET bottles, closures, labels, etc., and can provide filling OEM services for the clients; our comprehensive services can let clients save costs with one-stop shopping, so the competitiveness has increased greatly.

5.1.3 Technology and R&D Overview

The R&D expenses and the technology or products successfully developed in the recent fiscal year and up to the annual report printing date:

Unit: NTD\$ Thousand

Year	R&D Fee	R&D Achievements
2021	106,895	1. 1810 bottle neck 1500ml hot fill bottle 2. 1881 bottle neck 560 ml, 1250ml soda bottle
As of March 31, 2022	41,670	3. 38mm bottle neck 250ml, 300ml, and 450ml freezing bottle 4. 38mm bottle neck 380ml, 500ml cold fill bottle 5. 1881 bottle neck 350ml, 490ml, 590ml, 1500ml aseptic bottle 6. 1881 BAPHS aseptic plastic cap 7. Soy sauce container (PET bottle, plastic cap, clamshell cap) 8. 37mm composite vacuum cap 9. 42mm ring pull cap 10. Twist-off cap with robust extraction and low precipitation 11. 30 x 60mm long neck aluminum cap 12. Spiral iron cap/aluminum cap 13. Introduction of low-VOC UV ink 14. Introduction and mass production of 30% PCR PET shrinkable film 15. Eco-Label PET shrinkable film

5.1.4 Long-Term and Short-Term Business Development Plans

5.1.4.1 Short-Term Business Development Plans

- (1) Apply routine management; reinforce personnel training and taking root, sales & marketing capabilities, customer service, depth management and the concept of cost of sales, to enhance the competitiveness.
- (2) Grasp the latest market and society trend with innovative thinking and ideas; apply modern technology and information system to development of products and service qualified for clients and customers' need.
- (3) Adopt the winning strategy by fulfilling our role in the industry, paying attention to deepening customer management and services, achieve customer satisfaction, customers touched, customer brand life trust, in order to gain the trust of the customers, and actively develop the domestic and international markets.
- (4) Emphasize on the external market mechanism, get closer to customers' needs, and reinforce the upgrade of all management core competencies internally.

5.1.4.2 Long-Term Business Development Plans

- (1) Servitization of Manufacturing: The Company is committed to vertical Integration in order to meet customers' demand for one stop shopping, providing comprehensive production, responsibility and services.
- (1) Diversified operation, commitment to vertical integration, to establish product differentiation and competitive advantage.
- (2) Actively cooperate with major international brand, and establish global action arrangements.
- (3) Continuously promote the IN-HOUSE innovative commercial business model to domestic and international customers, and build long-term stable

cooperative relationships with the customers by providing packaging materials of high quality and low costs, in order to ensure the Company's future growth and profitability.

- (4) Sign the supply contracts that guarantee both prices and quantities, adjust OEM prices with the price fluctuations of the raw material, avoid raw material fluctuation risk to ensure the Company's revenues and profits, and at the time, assist the customers broaden their market shares and resource sharing, to achieve win-win co-operations.

5.2 Markets and the Overview of Production and Sales

5.2.1 Market Analysis

5.2.1.1 The Sales (Providing) Regions of the Major Products (Services)

The Company's major products in 2021 were: all types of aluminum closures, plastic closures, lug closures, labels, performs, PET bottles, beverage filling, and etc., and for the markets, except for Taiwan, Mainland China, Thailand, Malaysia, Cambodia, Indonesia, Vietnam, Myanmar and Mozambique where there were mainly considered local domestic sales, the Company sold to the remaining countries by export. The main sales targets are all food, beverage, cosmetic and drug industry. The sales regions are mainly Taiwan, Hong Kong, Singapore, Malaysia, Cambodia, Mainland China, Japan, Thailand, Indonesia, Philippines, Vietnam, Myanmar, New Caledonia(Oceania), Australia, New Zealand, Canada, USA, Pakistan, Africa, Vanuatu, Guyana, Mexico, South Korea, Guatemala, Chile, Ghana, Mongolia and so on.

5.2.1.2 Domestic Market Share of Major Products

Item		Sales of Domestic Market (NT\$ Thousands)	THC Market share (%)
Closure Products	Aluminum Cap	650,000	81%
	Plastic Cap	1,100,000	59%
	Metal Lug cap	280,000	81%
PET Bottle		2,252,000	64%
Label		1,050,000	30%

5.2.1.3 Future Market Supply and Demand and Growth

The major products of our company are closures, labels, PET bottles and beverage filling, and etc., and the future market supply and demand and growth for each major product are explained as follows:

(1) Cap Category

The cap products include all kinds of materials such as aluminum closures, lug closures, plastic closures, etc., and the range of application covers industries such as beverage industry, food industry, alcohols, cosmetic and etc.; under the demand for packaging material diversification and small-scale bundled sales, the sales volume of the overall cap category is estimated to show a stable growth trend.

In the recent years, the Company also introduces QR CODE to provide the clients more diversified marketing activities, and at the same time to acquire

the collection and statistical analysis of large data, along with the latest aluminum closure stamping anti-fraud technology, new type eco-friendly liner style TPE aluminum ring pull closures and metal lug closures, in order to increase the competitiveness of beverage products in the market.

(2) Label Category

By coordinating with PET bottles the company is actively developing, and by developing the trends of supplying the clients' need with bundled sales and all large labels, the sales volume is predicted to grow slightly.

Since 2007, the Environmental Protection Bureau has been vigorously promoting for the beverage industry to change the labels from the previous PVC material to a material that is suitable for recycling and eco-friendly. Our company has fully cooperated in the label conversion to the eco-friendly replacement labels material PET and OPS, etc. and also the design of labels that are easy to remove.

In 2021, the Company has formally introduced the advanced flexographic printing system from Europe, using UV inks with low VOC (volatile organic compounds) that are more friendly to the overall environment. We provide clients with better texture, hot stamping for high gloss, anti-counterfeit technologies, and other excellent packaging textures. The high-value products have been making the clear market segmentation.

(3) PET Bottles

As the modern people pay more and more attention to healthy appeals (including tea beverage, juice beverage, etc.) with a growing trend every year, plus the two-day weekend system, the consumers now have more leisure time for outing, so relatively, the convenience to carry personally and the PET bottles that can transform the shapes of containers have become the trends for packaging bottles.

(4) Beverage Filling

The future packaging trend in Taiwan's beverage market is predicted to be aseptic filling oriented, and this will also be the common trend around the world. There is a lot of room for growth in the future beverage market, so Hon Chuan will increase market share with strategic alliance.

5.2.1.4 Competitive Niche

- (1) The Company's business model continuously innovate, focus on the clients, and provide customer-oriented services.

The Company grasps the market development trends and customer service needs in each stage, from the single-item sales (closures or labels or PET bottles), to all-in-one packaging sales (closures + labels + PET bottles), to full bundled package sales (closures + labels + PET bottles + filling OEM + packaging + warehousing), to manufacturing as a service (OEM with materials included, ODM, resident inspector coalition services, joint venture, etc.), to provide satisfactory services to the clients.

- (2) Actively broaden the market share with the IN-HOUSE model:

- ① Hon Chuan, with more than 50 years' excellent technology and credibility guarantee, in addition to providing the three-in-one products and services

consisting of closures, PET bottles, labels, in order to serve the clients, to enhance clients' market competitiveness, and to establish closer partnership with the clients, has further actively created resident inspection IN-HOUSE strategic alliances with the clients.

- ② The successful mode of international beverage company (such as Coca Cola / Pepsi Cola and so on) is emphasizing on brand management and marketing channel and delegating professional OEM company to do production, in order to grab a bigger source and power to swiftly enhance competitiveness and market share.
- ③ The IN-HOUSE model refers to Hon Chuan investing in the PET bottle blowing equipment and has them installed right inside the clients' plants and have them connected with the clients' filling machine for production, and the closures, labels, preforms, and etc. are also provided by Hon Chuan.

The advantages of IN-HOUSE coalition production are as follows:

- Ensure the sufficient supply and uniformity specification of the PET bottles.
- The adoption of the most advanced equipment can enhance production efficiency and reduce defect ratio.
- Coalition production provides more assurance in terms of quality control, safety and health.
- With coalition production, the production of lightweight PET bottles can be realized to economize on raw material costs and environmental recycling expenses.

- ④ Re-Evolution of IN-HOUSE model: To extend the services from installing the original closures, preforms, and glass-blowing equipment to beverage filling equipment, to provide the clients the full bundled package and services, including injection at the front end, bottle blowing, to filling at the final end.

- (3) The Company thinks highly of putting the spirit of "Innovation" into action, and actively research and develop all types of new niche products and new niche technology to elevate the product functionality and added value, such as anti-fraud aluminum closures, aluminum closures stamping/transfer printing, digital print plastic closures, laser QR code plastic closures, thermal sensitive ink labels, PVC Free lug closures, and to serve the clients' needs and guarantee our company's leadership position.
- (4) Provide comprehensive services to our clients, through vertical integration and bundled sales, to strengthen customer relations.
- (5) The industry is with the vision for growth, so we actively move towards international development.
- (6) With the foundation such as resource integration conducted by the Group headquarters in Taiwan, the management teams, etc., we actively develop the markets in Greater China, Southeast Asia, and Africa, and the growth potential can be expected.
- (7) Hon Chuan Enterprise adopts the winning strategy by focusing on the present industry, paying attention to customer services, diversifying operation, committing to vertical integration and product differentiation, practicing the

strategy to cooperate with major brands, emphasizing on the external market mechanism, getting closer to customers' needs, and strengthening to enhance all management core competencies internally as the direction to put in our efforts.

5.2.1.5 The Favorable factors and Unfavorable Factors of the Development Prospect and the Countermeasures

Items	Favorable Factors	Unfavorable Factors	Countermeasures
1. The future development situations of business operations	<ol style="list-style-type: none"> 1. The products have eco-friendly appeals and are easy to be accepted by the consumers, so the future prospects look good. 2. Actively develop the international market and expand export business. 3. With the bundling and integration of packaging materials, the clients are provided with even more convenient services. 	There is labor shortage, so the wage costs are increasing.	<ol style="list-style-type: none"> 1. Actively improve existing machinery and equipment and strive to move towards the direction of high level of automation. Cooperate with China Productivity Center to carry out the improvement of production processes, and conduct the research of material formula with Plastics Industry Development Center to enhance output efficiency. 2. To respond to the demand for labor by introducing part of foreign laborers to help with production and to improve the situations with labor shortage and wage increases.
2. The sales status of the major products	<ol style="list-style-type: none"> 1. The packaging products we produced spread around an extensive range, so by the same token, we can satisfy our clients' need for all kinds of packaging materials; as the extensive range of products can be applied to the use of various types of packaging containers, the business risks can be diversified. 2. The equipment for the major products aluminum closures, plastic closures, and lug closures have high utilization rates, and their productions have reached the scale of mass production, so the costs can be effectively reduced and the products have great price competitiveness. 3. It has leading advantages in terms of technology and the marketing system, and has been granted the patents for all kinds of cap products in Taiwan, Mainland China, Japan and USA, etc., so the product synergy can be put into action. 	Our company's products belong in the packaging industry. Even though our products do not change as rapidly as the electronic products, the packaging products do change rapidly as the consumption habits change quickly; we need to constantly develop new products to satisfy the clients' demand for diversification.	<ol style="list-style-type: none"> 1. To establish the R&D department, actively recruit talents, and apply foreign technology in order to improve professional qualities and product standards. 2. Constantly pay attention to the market trends, and participate in exhibitions overseas to collect relevant information.
3. Position in the industry	1. Our products are the leading brands domestically, received certification from international well-	There are quite a few small plants and which could easily result in pricing	<ol style="list-style-type: none"> 1. Develop products with high added value and high quality. 2. Actively develop the international markets,

Items	Favorable Factors	Unfavorable Factors	Countermeasures
	known beverage plants, and have vast marketing channels. 2. We have leading R&D technology, high degree of facility automation, and good process capabilities, so we are in the leading position of the industry.	competition of products.	constantly develop new products and become the leader in the integrated packaging industry.
4. The supply status of the major raw materials	All the suppliers of our company's major raw materials are domestic or foreign well-known manufacturers, (such as C.S. Aluminum Corporation, Formosa Oil, Korean HYOSUNG), and we maintain good long-term cooperative relationships with all of the suppliers.	The increase of raw material prices causes the increase of costs.	Sign long-term purchase contracts with both domestic and foreign well-known manufacturers to ensure price stability. Actively develop alternative materials and formula to reduce the costs.
5. Financial condition	The financial structure of our company is sound with good solvency, and the short-term capital turnover is also good, the ratio of long-term capital to fixed assets has also achieved a reasonable level, and the sales and profitability both show stable growth.	Our company constantly invests in new products and needs to purchase new equipment, so we need a considerable amount of capital.	As our company is a public listed company, the fund-raising channels from the capital market are increased, and this will be beneficial for our company's long-term stable development.

5.2.2 Important Applications and Production Processes of Major Products

5.2.2.1 Important Applications of Major Products

(1) Aluminum Cap Category:

The products include hot-fill temperature resistant aluminum closures, carbonated beverage aluminum closures, injection pilfer-proof aluminum closures, pull ring covers, long neck anti-fraud aluminum closures, iron cap for medicine use, biotechnology category, functional beverage, etc., and the wide variety are applicable for the demand of all types of products, such as healthy food, alcohols, medicines, healthy food, etc.; each item of product has pilfer-proof function, so the safety of the products is guaranteed; the domestic monopoly bureau, and all major beverage, food, and pharmaceutical manufacturers are our clients.

(2) Plastic Cap Category:

They are made of special synthetic PP and PE plastic materials, with better anti-impact effect and heat resistance than other plastic materials. They are available in all types of specifications, such as 28 m/m, 30 m/m, 38 m/m, 45 m/m, lightweight plastic closures, etc., and the leakage angle of the new style patented design is greater than its breakage angle, so it can effectively protect the quality and safety of the content. So far, we have developed, on our own, a variety of different specifications for lightweight closures, such as BUUV type, BP type, BHUV type, BHC type, BHP type, BHA type, BC type, YPL type, 1881 type, 3025 type, KBPV type, BPKS type, etc., and we have been granted several patent rights and were approved by Coca-Cola & Pepsi-Cola international to be qualified; they are extensively used for products such as mineral water, carbonated beverages, hot-fill beverages, etc., and there is great development potential with excellent prospects.

The condiment market is a key project that the Company has actively developed and branched out into the new markets in recent years. Currently, we cooperating with some renowned soy sauce manufacturers to develop a new specification to mass-produce the soy sauce cap. In the future, we will continue striving to expand cooperation opportunities.

(3) Lug Cap Category:

They are applicable for all types of products, such as pickles and healthy food, as the most advanced food-grade eco-friendly rubber and liner are used and they can resist high temperature treatment and maintain the standard degree of vacuum; with the vacuum safety button, there is an additional layer of safety assurance for the products.

(4) Label Category:

They are suitable external packaging for soft drinks, beverage, mineral water, chemicals, food, instant noodles, medicines, etc.; with great elongate strength, impact resistance, oil-proof, water repellence, the shiny and remarkable labels can increase the sense of value for products.

(5) PET Bottles:

They can be used for mineral water, carbonated beverage, high temperature sterilization and hot fill beverage, and the range is extensive, such as mineral water, flavored water, tea drinks, juice, coffee, sports drinks, juice flavored soft drinks, dairy products, soy sauce bottle, etc.

(6) Beverage Filling:

In addition to high acid products, low acid products (tea, coffee, dairy products, etc.) and aseptic carbonated beverage (products such as soda, juice soda, sparkling water, etc.) can also be filled, so the consumers are provided with products with good flavor and safety; as the production process is room temperature filling, so the packaging container (PET bottles) can be lightweight, and which reduces the costs and has more eco-friendly effects.

5.2.2.2 Production Processes of Major Products

(1) Aluminum Cap Category

- a. Aluminum sheet → raw material aluminum sheet – coating & printing → automatic slitting → automatic cap pressing → automatic knurling → high frequency liner forming(with liner and gluing) → laser QR Code inside → computer visual inspection → finished product
- b. Aluminum sheet → raw material aluminum sheet – coating & printing → automatic slitting → automatic cap pressing → clean → security burn printing → braille → polish → knurling → liner → computer visual inspection → finished product
- c. Aluminum sheet → raw material aluminum sheet – coating & printing → automatic slitting → automatic cap pressing → high frequency liner forming(TPE) → computer visual inspection → finished product
- d. Iron sheet → coating & printing → wax spraying → automatic slitting → automatic cap pressing → rolling → automatic knurling → gluing(with liner) → visual inspection → finished product

(2) Plastic Cap Category

- a. Plastic cap : Material casting → injection, press molding → shape modifying → cutting → printing → liner forming → laser QR Code → computer visual inspection → finished product
- b. Soy sauce cap : Material casting → injection → combination → visual inspection → finished product

(3) Lug Cap Category

- a. Printing and coating iron sheet → wax spraying → cap pressing → pre-rolling → forming → gluing → oven → computer visual inspection → finished product
- b. Printing and coating iron sheet → wax spraying → cap pressing → pre-rolling → forming → gluing → oven → combination → computer visual inspection → finished product

(4) Label Category

Draft creation → copperplate → printing → automatic inspection machine → slitting → center-seal and gusset → slicing → inspection → finished product

(5) PET Bottles

Raw material continuous drying treatment → preform injection and molding → automatic inspection machine → preform crystallization (applicable for hot-fill beverage) → automatic inspection machine → glass blowing → automatic inspection machine → labeling → inspection → finished product

(6) Beverage Filling

Material casting → blending → sterilization → aseptic barrel → not aerating (aerating) → aseptic filling → capping → jet printing → labeling → finished product

5.2.3 Supply Status of the Major Raw Materials

Major Product	Major Raw Material	Major Supplier	Supply Situation
Aluminum Cap	Aluminum sheet	CSAC, Shen Fa	Good
Plastic Cap	PP chip, PE chip, Liner, Slip agent	Hanwha, USI, Min Yen, GCM, Kuan Yeh, Nantex, LCY, Hyosung, Basell, Formosa plastics	Good
Metal Lug Cap	Iron sheet	Sumitomo, Uni-president, Tong Yang Steel	Good
Label	PET film, PVC film, OPP film, Pearlized film, Ink	SKC, Far Eastern, Topglow, Changa, General Ink, Champoin Ink & Paint, Sungbo, Flint Group, Chi-Hsiang, Pao Li	Good
PET Bottle	PET resin	Nan Ya, Shinkong, Far Eastern, Jiangsu Xingye Plastics	Good
Beverage Filling OEM	Tea, Fructose, Sugar, Condensed milk, Milk powder, coffee powder, Carton and etc.	Li Yu, Taisugar, MitaCharm, TetraPak, twfysugar, Jiaher Paper, Cheng Loong, UCC, Taiwan Shionogi, San Ching Tea, Ta Tung Tea and etc.	Good

5.4 The Expenditure for Environmental Protection

The Company actively promotes environmental protection. All plants have introduced the ISO 14001 Environmental Management System to systematize and standardize related management (water resources and wastewater, air pollution control, and waste). The Company has established the Occupational Safety and Health Center to handle courses related to environmental management, training for dedicated environmental personnel, and strict requirements on implementation and auditing.

The Company has obtained the stationary pollution source permit issued by the Environmental Protection Bureau to carry out regular inspection, maintenance, and records of raw materials, fuel, products, process equipment, control equipment, and facilities to ensure successful implementation of various improvements.

Due to the threat of global warming and extreme climate, the Company has actively introduced lightweight products, the In-house PWP coalition production model, energy-saving and environmental protection equipment, and solar energy systems to reduce raw materials consumption in production, packaging, and transportation. Therefore, we can reduce our carbon emissions, waste of medical care resources, and environmental impacts, continuously striving toward the goals of environmental friendliness and sustainable development.

Any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental inspection).

5.4.1 The total amount of loss (including compensation) and fine which caused by polluting environment

1. On September 11 and 20, 2018, the Environmental Protection Bureau of Taichung city government came to the Company for examining and auditing air pollution control issues in company with Taiwan Taichung District Prosecutors Office. Because the air pollution control equipment in the Label plant of the Company didn't reach the regulatory standards, emission amounts exceeded the contents of the license, and internal executive units didn't follow up the latest regulations update, which caused air pollution control fees under-reported for the past periods, the Environmental Protection Bureau of Taichung city government, by No. 1080045552 on May 2, 2019, had recalculated the fee from the 3rd quarter of 2013 to the 2nd quarter of 2018 in accordance with Article 75 of the Air Pollution Control Act and requested the Company to pay double the amount of the fee rates for pollution source emissions, which was in total NTD\$ 125,869,455 (has been recognized in the 2nd quarter financial report of 2019). The Company has paid the fine within the time limit, and sought for administrative relief. The Taichung High Administrative Court decided against the Company on October 8, 2020, and the case is currently appealed to the Supreme Administrative Court. Regarding the above-mentioned lack of environmental safety, the Company has completed the improvement after the event.

Due to the above incidents, the prosecutor from the Taiwan Taichung District Prosecutor's Office institutes a public prosecution in 19 people including the Company for violating the Air Pollution Control Act and the Offenses of Fraudulence of Criminal Code of the Republic of China, and requested them to pay NTD\$ 77,298,948(has been recognized in the 3rd quarter financial report of 2019). The content contained in the indictment of the Taichung District Procuratorate Office is partly different from the facts. In addition, there may exist doubt about double payment between the above-mentioned payment and the amount of NTD\$ 125,869,455 for the air pollution fee from the 3rd quarter of 2013 to the 2nd quarter of 2018 paid by the Company to the Environmental Protection Bureau; the company has appointed lawyers to undertake relevant research and assist in the subsequent defense. The whole case (No. 2479 in 2019) is pending in the Taiwan Taichung District Court.

2. In 2021, the Environmental Protection Bureau identified the waste label code was wrong and fined the Company NT\$6,000 (No. 1100028219) for violating Waste Disposal Act. However, we still dissented from the result and started administrative proceedings.

5.4.2 Countermeasure (including improvement) and possible expenditure in the future

1. The Company has introduced the ISO 14001 Environmental Management System to reduce environmental risks and increase our positive environmental impact.
2. As of the end of 2021, a total of 51 people in the Company have been certified with licenses for air pollution control, wastewater treatment, waste disposal, and toxic chemical substances technician. The training for environmental dedicated personnel is aimed to be conducted continuously.
3. The Company has recruited several environmental safety specialists, cooperated with the Environmental Protection Bureau to hold teaching workshops on pollution prevention practices in printing, and also cooperated with the Industrial Technology Research Institute to improve the air pollution control equipment.

Their responsibilities are to increase the understanding and training of environmental protection regulations in all plants, promptly update related laws, and fully implement procedures related to environmental protection law, occupational safety, environmental sanitation.

4. The Expenditure for Environmental Protection: (Currency: NTD)

Contents	1. The maintenance cost for air and water pollution and waste installation. 2. Periodic and irregular inspection fee for environmental protection. 3. The Company outsources to proper disposal of the waste. 4. Related fees as air pollution, land pollution, and water pollution fees. 5. Related fees for park adoption, environmental education for employees, the review of the permit documents, environmental consultant, and implementation of the environmental management system.		
Year	2019	2020	2021
Cost	124.53 million	74.25 million	65.82 million
Total	264.60 million		

Note: Statistics only show that the fee of investing equipment in the 2020 annual report, so we supply additional costs for air pollution, wastewater, and waste for two years before in the 2021 annual report.

- In order to demonstrate our determination to continuously improve and promote environmental protection, the Company has purchased label UV flexo printing machines from Italy in 2019, which have a number of advantages, such as no solvent, no VOCs (volatile organic compounds) emissions, no residual ink to reduce waste, accurate color, automatic plate change, and so on. The equipment is able to provide environmental, safe, and high texture label products. In 2020, the machine has started and production, we will keep promoting and replacing the traditional high pollution intaglio printing with UV flexo printing, thoroughly solving the problem of air pollution emissions to actively contribute to environmental protection.
- Comply with toxic and chemical substances regulations. Assess in advance and register to local Environmental protection bureau before implementing, keep records and report regularly during the implementation, also, conduct issues related to personnel training, hazard evaluation and prevention to prevent from destroying natural ecosystems and damaging property due to the operation of chemical substances.

5.4.3 Policy of Environmental Protection and Employee Safety and Health

- Systematize and standardize the management of environmental protection in all plants.
 - Implement the ISO 14001 Environmental Management System and recruit several environmental safety specialists to regularly check environmental protection matters and conduct courses related to environmental management. Including the implementation points of various environmental protection businesses and acts and announcements, strengthening the operation of emergencies and response in the operation process of the plant,

a total of 887 people participated so that the employees could improve the quality of management.

- (2) Environmental protection training is included in compulsory courses for new employees to improve employees' environmental awareness.
- (3) The Company has passed the Cleaner Production Assessment System of the Green Factory Label and complies with their requirement to keep promoting.

2. Promote waste reduction and reuse of resources

- (1) Instead of incineration, the Company promotes waste plastic recycling and turns waste labels into solid recovered fuel (SRF) to improve the recycling rate of plastic waste in all plants.
- (2) Install waste residue dehydrator which can reduce the water content of waste so the recycling rate of organic fertilizers will be increased.

3. Conduct water resource and sewage management

- (1) In order to monitor sewage disposal in plants, the Company installed the equipment of flow meters, monitors, and UPS equipment in 2020. At present, the person responsible for carrying out drain water, ditch, and water meter inspection of the plant and analysis of water consumption and drainage to achieve control every day.
- (2) Conducted water vulnerability assessment and water resource management plan with the client and participated in ISO 46001 water efficiency management systems promoted by the Ministry of Economic Affairs. The system will analyze water consumption to conduct water resource management and water conservation plan and reuse recycled water to control equipment, cooling towers, or other cleaning and watering to improve the reuse rate of water resources.
- (3) Finish permit document of Water Pollution Control Measures, conduct declaration of regular monitoring and increase inspection frequency to ensure that the quality of wastewater meets the standards and the testing values meet the emission standards.
- (4) Build up a plan for installing prevent sewage overflow facilities and strengthening spill containment pallets in the temporary storage area for outdoor solvents and waste ink so as to avoid leakage from directly polluting the drain or the ground. Formulate relevant emergency response procedures and regularly arrange wastewater leakage training and drills to avoid pollution caused by abnormal drainage.

4. Waste Management

- (1) Sources of waste: General business waste discharged from the plant; waste labels (D-0299 waste plastic mixture) from labels manufactured by the Packaging Materials Division; plant-based waste residue and sludge from the beverage filling process in the Beverages Division. Most of the waste is reused for back-end treatment (about 84%), while the remaining waste that

cannot be recycled or may cause environmental pollution is treated by incineration or thermal treatment as the end-process (about 15%).

- (2) Since 2019, the Company has been properly handling and complying with waste management regulations, and has included all types of recycling and reuse methods in the plant in the scope of joint declaration, resulting in an increase in the overall waste generation statistics. The Company will continue to implement waste control, and strengthen employees' awareness of waste resource separation and recycling.
 - (3) To properly manage the flow of waste, the dedicated environmental protection personnel of each area will arrange a site visit prior to waste removal to ensure the waste remover's actual capability and treatment situation. An annual inspection on waste vendors has also been proposed to reduce the risk of pollution from abnormal treatment by vendors.
5. Conduct assessment in plants and the supply chain management promotion
- (1) To prevent violating the law from changes in legislations, the Company monitors activities in plants regularly and how much they are in conformity with various environmental regulations, keep ourselves updated of new regulations every month.
 - (2) Set up inspection system of pollution in plants and irregularly check waste management every week, conduct inspection and examination of the air pollution, waste disposal and waste storage in plants every month.
 - (3) Through the supply chain assessment of the year to strengthen the management of the supplier's environment, occupational safety, and human rights issues, and value the concept of corporate social responsibility, to reduce the risks caused by suppliers to the enterprise.

5.4.4 Safety and Health

1. Employee safety holds considerable importance for the Company. To ensure that all employees work safely, we create a safe workplace and a healthy and friendly work environment. Safety promotion and training are provided continuously. By training, real stories and safety videos, employees' awareness of occupational safety could be maintained. We hope to implement safety and health management that "Safety Culture," and three safety stages: independence, dependence, and interdependence.
2. For the operational risks of occupational safety, we set up the Occupational Safety and Health Center and the Occupational Safety and Health Committee to formulate management policies, implementation, review, and planning for occupational health and safety. Each plant actively introduced ISO 45001 and CNS 45001 (TOSHMS) Occupational Safety and Health Management System certifications. The relevant instructions are as follows:
 - (1) Occupational Safety and Health Management System and Maintenance
To create a safe and great work environment for employees, our plants have passed the international standard for occupational health and safety management systems ISO 45001 : 2018 & CNS 45001 : 2018 since 2001. All employees are dedicated to promoting the environment and occupational safety and health policy: Comply with Laws and Regulations of Government,

Implement Continuous Improvement, Eliminate Risk, Fulfill Social Responsibility, Strengthen Communication and Consultation, Full Employee Participation, Build a Friendly Workplace, and Ensure Sustainable Operation.

(2) Risk management and improvement

Each department reviews hazard identification, risk assessment, and risk control every year to find the risks and set the target for improvement. Through external validation and clients audit, we continuously improve the environment of the plants and provide employees with a safe working environment to prevent occupational accidents from occurring.

(3) Promote occupational safety and health committee

Each plant's occupational safety and health committees were responsible for preparing, planning, supervising, and promoting occupational safety and health management matters to implement the occupational safety and health management system. Quarterly meetings are held on occupational safety and health, and the results of the discussions are determined and implemented by the committee's highest-level supervisor.

(4) The Company set up the annual training program for occupational safety and health education, and implements according to the occupational safety and health education training program. The total hours of education and training are 11,700 hours in 2021. The training items include general safety education training, specific occupational hazard, hazardous activity or situation training, fire and evacuation drills, conduct the toxic chemical substance disaster drill, confined space drill, and natural gas leakage drill. By enhancing working personnel's ability, they can use their professional skills when an emergency occurs to prevent further expansion of disaster and gather everyone to carry out disaster rescue works for the goal of employee safety. A total of 636 people obtained occupational safety and health certificates in the production department, and 161 people received certificates for new training and return training in 2021. The total cost of external training is NTD\$ 215 thousand per year.

Unit: person

Certificate	Total number	
	Packaging Business	Beverage Business
Forklift operation	170	217
Category I pressure vessels operators	1	6
Fire prevention management personnel	2	8
Rooftop supervisor	0	2
First aid personnel	46	29
Organic solvent operation supervisor	13	20
Hypoxia operation supervisor	0	18
Class-1 manager of affairs	8	6
Specified chemical operation personnel	1	27
Level B for boiler operators	1	19
X-Ray operators	10	4
Metal sealing supervisor	3	1
Fixed type crane operation personnel	20	0
Security supervisor	2	0
Security inspector	1	0
Dusty operation supervisor	1	0
Subtotal	279	357
Total	636	

(5) Apply the monitoring and improvement of working environment

Job site monitoring is carried out every six months; strategic planning and formulating a working environment monitoring plan is reviewed and updated according to actual needs. The results will be publicly announced according to regulations to avoid workers' exposure to various hazard factors.

Relevant improvements will be taken to address the deficiencies, so a safe working environment can be ensured for all employees.

- (6) Implement the source control and safe storage of hazardous chemicals, handle risk assessment, and hazard identification, Moreover, the production department regularly updates the chemical inventory and evaluates the safety planning of the storage area. Several risk reduction and prevention measures are also taken, such as the centralized chemical storage with better ventilation, installation of fire-fighting equipment, and the fire compartment.

(7) Health Protection

The standard of an employee health examination is higher than the regulatory requirements. According to laws and regulations, the Company conducts physical inspections every year and provides special physical reviews annually, and continuously follows up on the abnormal conditions in employees to ensure good health management.

According to the scale of each plant, the Company has set up full-time nursing personnel for labor health services and contracted occupational medicine doctors to perform on-site service three times a month. The medical personnel and the occupational safety and health personnel conduct on-site visits and determine the main annual tasks of labor health services. Because employee's health matters to us, the Company, in addition to complying with requirements of regulations, provides monthly doctor's on-site service of labor health services to take care of our employees and create a healthy workplace.

Continue promoting the four plans of the occupational safety and health administration: "Protecting and Managing Maternal Health at the Workplace," "Prevention of Ergonomic Hazards," "Preventing Abnormal Workload-triggered Disorders," "Prevention of Unlawful Infringement in the Performance of Duties." The personnel regularly implement key items to ensure employee health, continuous health education, and track performance.

Due to the pandemic of COVID-19, the Company established the Pandemic Prevention Committee on January 3, 2021, to capture domestic and overseas epidemics. We pay attention to the policies and instructions issued by the Centers for Disease Control (CDC) and start different prevention and control actions according to the level of response to effectively prevent the invasion and spread of the epidemic and protect the employees' health.

5.5 Labor Relations

5.5.1 The employee welfare measure, continuing education, training, retirement system and the implementation status, the agreement between employee and employer, and the status of the employee's right and interest maintenance measure

(1) Employee's benefit policies:

1. Offer health insurance and labor insurance to all employees, and group insurance to specific personnel in accordance with regulations.

2. To maintain employees' good health, THC provides free Health Examination every year.
 3. The Company provides a safe work environment, arranges fire compartment in office area and sets adequate fire extinguisher in accordance with Fire Act. Also, the company organizes the Self-defense fire team and carries out training of fire prevention on a casual basis to reinforce employees' abilities to respond to emergency.
 4. Set up Coffee bookstore, in which offering books, newspapers and magazines for employees to read and borrow.
 5. Offer infirmary and Nursery room.
 6. Provide dormitory for non-local employees to lower their financial burden and reduce risk in commuting.
 7. Offer parking lots and buffet-style meals in canteen for employees.
- (2) Benefit policies and implementation status which Employees' Welfare Committee organizes:
1. Offer Birthday Bonus, Marriage Subsidy, Childbirth Subsidy, Death Subsidy and Holiday bonus(gifts) for three Chinese festivals.
 2. Organize incentive tours for excellent employees, year-end banquet and raffle.
 3. Other various employees' subsidies and activities.
- (3) Pension system:
- To protect workers' livelihood after retirement, the Company contributes labor pension to Bank of Taiwan Trusts Dept. on a monthly basis in accordance with Labor Standards Act and Labor Pension Act. Also, for the person chooses to be applicable to the pension system of this Labor Pension Act after July 1, 2005, THC will on a monthly basis contribute 6% of the worker's monthly wage to individual accounts of labor pension at the Bureau of Labor Insurance according to Table of Monthly Contribution Wages of Labor Pension.
- (4) Education and continuous training:
- Since the Company was founded in 1969, we have treated our employees with honesty and have regarded our employees as assets and partners to grow together, through the welfare measures, to enrich and stabilize the employees' lives, and good education training, to establish good relationships of mutual trust and interdependence with the employees.

To nurture the Company for sustainable business development, human resources department established "Hon Chuan Academy" in order to actively cultivate the talents needed for the future, and the employee education training measures, normative education training system and training norms were also established as the basis to conduct training and to reserve professional management talents.

In 2021, education training of the Company includes topic such as food safety, quality management, occupational safety and health, ethical management, internal control and regulation compliance. The total training courses are 30,036 hours.

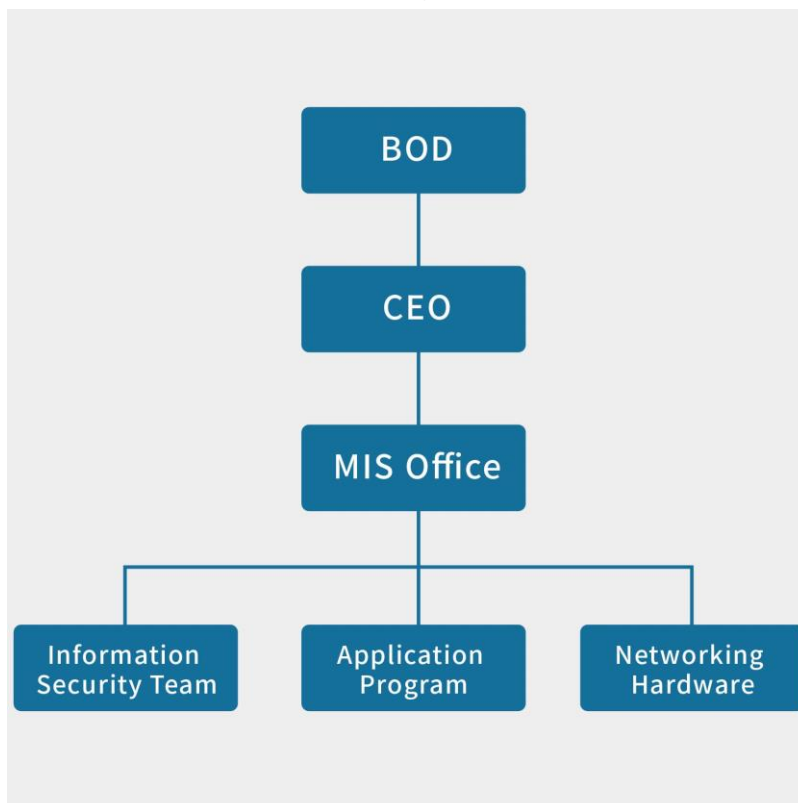

To provide a complete education training system, enhance employees' professional skills and personal growth; good working environment would enable employees to work with peace of mind.

5.5.2 List any losses suffered by the company in the most recent 2 fiscal years and up to the annual report publication date due to labor disputes (including any violations of the Labor Standards Act found in labor inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, the substance of the legal violations, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: None

5.6 Cyber Security Management

5.6.1 Describe the cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management

(1) The cyber security risk management framework

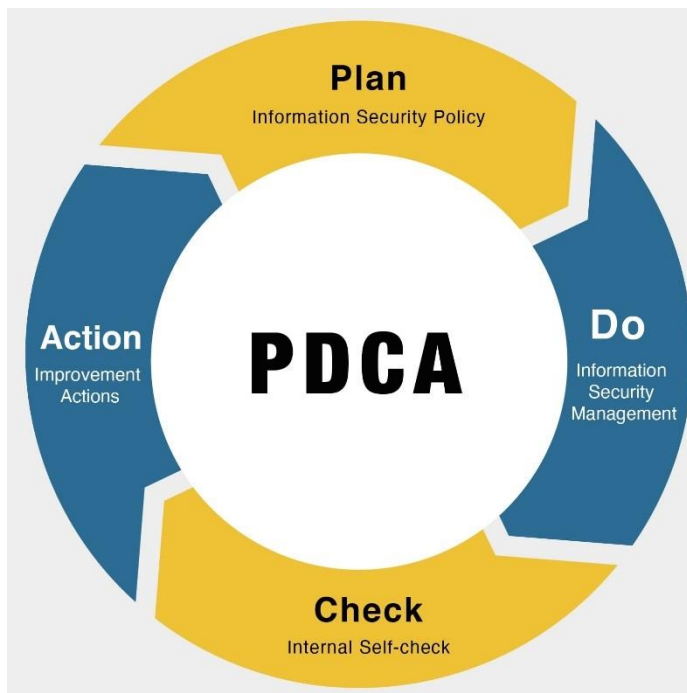

To establish the information security supervisor and personnel, are in charge of information security policy formulation, implementation, risk management, and compliance audits, with an Information Security Team under its supervision.

Information Security's highest-level supervisor delivers reports on information security management performance, related issues, and directions every year to the Board of Directors.

(2) Cyber security policies

An Information Security Team let the Company's concept of information security take root through the "Information Protection Working Committee." The Committee, which covers all organizations with Taiwan plants and overseas subsidiaries, convenes regular meetings to keep track of situations and utilizes the Plan-Do-Check-Act(PDCA) cycle to inspect the policy applicability and measures such as information protection.

Plan: Refer to relevant information security systems, and formulate information policy and management measures.

Do: Multi-layer information security protection: and management(physical security, network security, device security, access management, and information security maintenance and operation.)

Check: Information security monitoring

Action: Review and improvement on information security measures, introduce the new information security protective tools, and training programs and promotion campaigns on information security

(3) Concrete management programs

Multi-layer information security protection:

Network Security	<ul style="list-style-type: none"> • Deploy IPS intrusion detection protection system between the intranet and internet. • Strengthen network firewall and network control, shut down non-essential networks and services to reduce the risk of malicious attack.
Device security	<ul style="list-style-type: none"> • Monthly patch updates for the Windows operating system. • Endpoint anti-virus measures based on computer type.
Host and application security	<ul style="list-style-type: none"> • Enhance system and software vulnerability remediation. • Implemented intrusion protection system for important host computers; conducted two disaster recovery exercises for core systems.
Education, training and awareness promotion	<ul style="list-style-type: none"> • Conduct information security promotion and social engineering drills regularly to cultivate employees' information security awareness.

- (4) Investments in resources for cyber security management
In 2021, the corporate information security measures implementation results
- a. The core system to conduct disaster recovery drills: 2 times
 - b. Conducted email social engineering drills: 2 times
 - c. Information security promotion: 2 times
 - d. The information security supervisor participated in the 2021 information security promotion training by the Ministry of Economic Affairs, ROC.
 - e. There has been no major information security incident occurred.

Although the Company has not purchased the cyber insurance, the performance of the Information Security Team and the implementation of the Information Security Policy can also create a secure IT environment to ensure the information security of the Company's various services.

5.6.2 List any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken.

- (1) There has been no major information security incident occurred in 2021.
- (2) Information and communication security risks and countermeasures:
The Company has established a comprehensive network and computer-related information security measures, but it cannot guarantee that the Company will be fully protected from emerging risks and attacks in the face of rapidly changing information security threats, including threats to the Company's computer systems that operate critical corporate functions, network attacks from any third-party paralyzed systems, malicious hackers attempting to implant computer viruses, destructive software or ransomware introduced into the Company's network systems to interfere with the Company's operations, or to extort or blackmail the Company by gaining control of computer systems. These attacks

could result in losses due to business interruptions or incur significant costs to implement remediation and improvement measures to strengthen the Company's network security systems.

In order to prevent and reduce the damage caused by such attacks, the Company implements improvements and regularly updates its systems on an ongoing basis. HonChuan has joined the Taiwan Computer Emergency Response Team / Coordination Center (TWCERT/CC), Taichung Port Technology Industrial Park [Information Security Sharing], Chunghwa Telecom HiNet SOC, etc. to receive information security notifications and intelligence, strengthen system and software vulnerability repairs, introduce an intrusion protection system to important hosts, strengthen network firewall and network control, and set up endpoint anti-virus measures based on the computer type. The Company also conducts regular information security promotion and social engineering drills to train and cultivate sound information security awareness among employees. The core system has established a backup mechanism and conducts disaster recovery drills twice a year to ensure the viability of important information systems.

In the future, in addition to the expansion of information security personnel, we plan to conduct regular training and certification to improve the company's information security in terms of manpower and capability to ensure the Company's information security.

5.7 Major Contracts

March 31, 2022

Agreement	Counterparty	Period	Major Content	Restriction
Long-term Loan Contract	Mizuho Bank	2020.10.29 ~2023.10.13	To repay loan and strengthen operating capital	None
Long-term Loan Contract	The Export-Import Bank of the Republic of China	2020.01.03 ~2025.01.03	Overseas investment funds	None
Long-term Loan Contract	E.SUN Bank	2019.07.15 ~2026.07.15	To support investment plans and strengthen operating capital	None
Long-term Loan Contract	Hua Nan Bank	2019.10.31 ~2024.10.31	To support investment plans and strengthen operating capital	None

Agreement	Counterparty	Period	Major Content	Restriction
Long-term Loan Contract	Taipei Fubon Bank	2019.10.31 ~2024.10.31	To support investment plans and strengthen operating capital	None
Fixed Rate Commercial Paper	Taiwan Finance Corporation	2021.06.22 ~2025.06.20	Strengthen operating capital	None

	Financial Leverage	1.18	1.19	1.13	1.08	1.05	1.05

Please explain the variation reasons of all financial ratios (which exceeding 20%) in the most recent 2 years:

1. The increase in Interest Coverage: Mainly due to the lower borrowing rates and the decrease in interest expenses in 2021. Profit before income tax in 2021 increased compared with 2020, increasing interest coverage.
2. The increase in Pre-tax Profit to Paid-in Capital Ratio: Due to the increase in revenue in 2021 compared with 2020, both gross profit and profit before income tax increased, increasing pre-tax profit to paid-in capital ratio.
3. The decline in Cash Flow Ratio: a. 1. Mainly, the group purchased a large number of PET chips in the 4th quarter of 2021, which slowed down the cost increase caused by raw materials and increased the inventory of raw materials. 2. The rise of consolidated sales in the 4th quarter of 2021 increased the accounts receivable at the end of the year. 3. The decline in cash provided by operating activities is for two reasons above. b. The increase in Current Liabilities: 1. The group purchased many bulk materials such as PET chips in the 4th quarter of 2021 to alleviate the pressure of rising raw material costs. In addition, the PET chips of the second plant in Thailand were purchased locally, resulting in a decrease in prepayments and an increase in accounts payable, making an increase in current liabilities in 2021 compared to 2020. c. Due to

the decline in cash provided by operating activities and the increase in current liabilities, the cash flow ratio for the current period decreased.

4. The decline in Cash Flow Re-investment Ratio: 1. Due to the decline in cash provided by operating activities(the reason is the same as above). 2. The group continues to expand plants and purchase fixed assets. 3. In the 4th quarter of 2021, many PET chips were purchased, which slowed down the cost increase caused by raw materials and increased the inventory of raw materials, so the cash flow re-investment ratio declined.

Note 1: The Company has adopted IFRS since 2012. For above data, except the consolidated financial data for the period as of the quarter preceding the date of publication of the annual report was reviewed by CPA, others were all audited by CPA.

6.2.2 Non-consolidated Financial Analysis – IFRS

Analysis Item		Year	Financial Data Within The Last 5 Years (Note 1)				
			2017	2018	2019	2020	2021

Leverage	Operating Leverage		3.85	4.63	4.60	4.12	4.16
	Financial Leverage		1.06	1.07	1.10	1.14	1.14

Please explain the variation reasons of all financial ratios (which exceeding 20%) in the most recent 2 years:

1. The increase in Current Ratio: 1. Due to the increase in revenue in the fourth quarter of 2021 compared to the same period the previous year, accounts receivable increased. 2. Due to the crude oil price keeping rising, the group purchased a large number of PET chips in the 4th quarter of 2021, which slowed down the cost increase caused by raw materials and increased the inventory of raw materials. Because the current assets of accounts receivable and inventory increased compared with the same period last year, the current ratio increased.
2. The increase in Quick Ratio: On December 31, 2021, accounts receivable increased compared to the same period last year because the revenue in the fourth quarter of 2021 increased compared with the same period last year, so the quick ratio increased.
3. The decline in Cash Flow Ratio: The net change in accounts receivable decreased, resulting in reduced net cash flows from operating activities, so the cash flow ratio decreased.
4. The decline in Cash Flow Re-investment Ratio: Mainly due to the newly built employees' dormitory land at the Aseptic-filling Plant in 2021; the construction of the free trade plant started in 2021, and the gross fixed assets increased, so the cash flow re-investment ratio decreased.

Note 1: All the Annual Financial Statements above have audited by CPA.

The calculation formula of financial analysis:

1. Capital Structure Analysis

- (1) Debt to Asset Ratio = Total Liabilities / Total Assets
- (2) Long-term Capital to Property, Plant and Equipment Ratio = (Total Equity – Non-current Liabilities) / Net Property, Plant and Equipment

2. Liquidity Analysis

- (1) Current Ratio = Current Assets / Current Liabilities
- (2) Quick Ratio = (Current Assets - Inventories - Prepaid Expenses) / Current Liabilities
- (3) Times Interest Earned = Earnings before Interest and Taxes / Interest Expenses

3. Operating Performance Analysis

- (1) Average Collection Turnover = Net Sales / Average Trade Receivables
- (2) Average Collection Turnover Days = 365 / Receivables Turnover Rate
- (3) Average Inventory Turnover = Cost of Sales / Average Inventory
- (4) Average Inventory Turnover Days = 365 / Inventory Turnover Rate
- (5) Average Payment Turnover = Cost of Sales / Average Trade Payables
- (6) Property, Plant and Equipment Turnover = Net Sales / Average Net Property, Plant and Equipment
- (7) Total Assets Turnover = Net Sales / Average Total Assets

4. Profitability Analysis

- (1) Return on Total Assets = (Net Income + Interest Expenses * (1 - Effective Tax Rate)) / Average Total Assets
- (2) Return on Equity = Net Income / Average Total Equity
- (3) Net Margin = Net Income / Net Sales
- (4) Earning per Share = (Net Income Attributable to Shareholders of the Parent – Preferred Stock Dividend) / Weighted Average Number of Shares Outstanding

5. Cash Flow

- (1) Cash Flow Ratio = Net Cash Provided by Operating Activities / Current Liabilities
- (2) Cash Flow Adequacy Ratio = Five-year Sum of Cash from Operations / Five-year Sum of Capital Expenditures, Inventory Additions, and Cash Dividend
- (3) Cash Flow Re-investment Ratio = (Cash Provided by Operating Activities - Cash Dividend) / (Gross Property, Plant and Equipment + Long-term Investment + Other Non-current Asset + Working Capital)

6. Leverage

- (1) Operating Leverage = (Net Sales - Variable Cost) / Income from Operations
- (2) Operating Leverage = (Net Sales - Variable Cost) / Income from Operations

6.3 Audit Committees' Review Report in the most recent year

Taiwan Hon Chuan Enterprise Co., Ltd.

Audit Committees' Review Report

We hereby state as following:

This proposal is the presentation by the Board of Directors of the Company's 2021 Business Report, Financial Statements, and the Profit Allocation Proposal. Of these items, the Individual and Consolidated Financial Statements have been audited by external auditors Wu, Shao-Chun and Yen, Hsiao-Fang of Deloitte & Touche, Taiwan, and an opinion and report have been issued on the Financial Statements. The aforementioned items have been reviewed and determined to be correct and accurate by Audit Committee. Per the regulations in Article 14-4 of Securities and Exchange Act and Article 219 of the Company Act, we hereby submit this report.

To

2022 Annual Shareholders' Meeting of Taiwan Hon Chuan Enterprise Co., Ltd.

Taiwan Hon Chuan Enterprise Co., Ltd.

Audit Committee Chairman: Hung, Chao-Nan

Commissioner: Huang, Hsiang-Ying

Commissioner: Kung, Yi-Lu

March 22, 2022

6.4 Financial statement for the most recent fiscal year

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Taiwan Hon Chuan Enterprise Co., Ltd.

Opinion

We have audited the accompanying consolidated financial statements of Taiwan Hon Chuan Enterprise Co., Ltd. and its subsidiaries (collectively referred to as the “Group”), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the “consolidated financial statements”).

In our opinion, based on our audits and the reports of other auditors (please refer to the Other Matter paragraph), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion based on our audits and the report of other auditors.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in the Group's consolidated financial statements for the year ended December 31, 2021 is described as follows:

Revenue recognition

The Group manufactures and sells plastic caps and PET bottles, PET preforms and provides beverage filling OEM services. Because revenue from the aforementioned main products is significant to both the Group's revenue and profit, we identified revenue recognition as a key audit matter. Refer to Note 4 to the consolidated financial statements for the accounting policies on revenue recognition.

The key audit procedures that we performed in respect of revenue recognition included the following:

1. We understood the design of the internal controls related to revenue recognition and tested the operating effectiveness of the key controls. We also sampled and tested the effective continued operations of the relevant controls.
2. We selected sample entries from the main products and checked the entries against the original orders, delivery orders, invoices and receipt vouchers. We also checked the entries against the documents acknowledged by customers for their receipts, deliveries and orders.

Other Matter

We did not audit the financial statements of Hon Chuan Vietnam Co., Ltd., Hon Chuan Malaysia Sdn. Bhd., Hon Chuan (Thailand) Co., Ltd. and Hon Chuan FD Packaging Co., Ltd., which are investees of the Group and are included in the consolidated financial statements as of and for the year ended December 31, 2021 and 2020, but such statements were audited by other auditors. Our opinion, insofar as it relates to the amounts included in the Group's consolidated financial statements for these investees, is based solely on the reports of the other auditors. The total assets of the aforementioned investees were NTD4,040,075 thousand and NTD4,669,532 thousand, representing 12.04% and 14.73%, respectively, of the Group's consolidated assets as of December 31, 2021 and 2020. The total sales of the aforementioned investees were NTD3,075,600 thousand and NTD2,814,370 thousand, representing 14.38% and 14.55%, respectively, of the Group's consolidated net sales for the years ended December 31, 2021 and 2020.

We have also audited the parent company only financial statements of Taiwan Hon Chuan Enterprise Co., Ltd. as of and for the years ended December 31, 2021 and 2020 on which we have issued an unmodified report with other matter paragraph.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2021 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audits resulting in this independent auditors' report are Shao-Chun Wu and Hsiao-Feng Yen.

Deloitte & Touche
Taipei, Taiwan

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and consolidated financial statements shall prevail.

(Concluded)

TAIWAN HON CHUAN ENTERPRISE CO., LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

Taiwan Hon Chuan Enterprise Co., Ltd. (the “Corporation”) was incorporated in 1969. It manufactures and sells various packaging materials for the food and beverage industries (such as aluminum closures, plastic caps, metal caps, labels, polyethylene terephthalate (PET) bottles, and beverage filling original equipment manufacturer (OEM) and automatic sealer machines.

The Corporation became a public company in August 1993 under the approval of the Securities and Futures Bureau (SFB) of the Financial Supervisory Commission. The Corporation’s shares have been listed on the Taiwan Stock Exchange since March 2, 2001.

The consolidated financial statements of the Corporation and its subsidiaries (collectively referred to as “the Group”) are presented in the Corporation’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Corporation’s board of directors on March 22, 2022.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the following IFRSs endorsed and issued into effect by the FSC did not have a material impact on the Group’s accounting policies.

- b. The IFRSs endorsed by the FSC for application starting from 2022

New IFRSs	Effective Date Announced by IASB
“Annual Improvements to IFRS Standards 2018-2020”	January 1, 2022 (Note 1)
Amendments to IFRS 3 “Reference to the Conceptual Framework”	January 1, 2022 (Note 2)
Amendments to IAS 16 “Property, Plant and Equipment - Proceeds before Intended Use”	January 1, 2022 (Note 3)
Amendments to IAS 37 “Onerous Contracts - Cost of Fulfilling a Contract”	January 1, 2022 (Note 4)

Note 1: The amendments to IFRS 9 are applied prospectively to modifications and exchanges of financial liabilities that occur on or after the annual reporting periods beginning on or after January 1, 2022. The amendments to IAS 41 “Agriculture” are applied prospectively to the fair

value measurements on or after the annual reporting periods beginning on or after January 1, 2022. The amendments to IFRS 1 “First-time Adoptions of IFRSs” are applied retrospectively for annual reporting periods beginning on or after January 1, 2022.

Note 2: The amendments are applicable to business combinations for which the acquisition date is on or after the beginning of the annual reporting period beginning on or after January 1, 2022.

Note 3: The amendments are applicable to property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after January 1, 2021.

Note 4: The amendments are applicable to contracts for which the entity has not yet fulfilled all its obligations on January 1, 2022.

As of the date the consolidated financial statements were authorized for issue, the Group has assessed that the application of other standards and interpretations will not have a material impact on the Group’s financial position and financial performance.

c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

New IFRSs	Effective Date Announced by IASB (Note 1)
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 “Initial Application of IFRS 9 and IFRS 17 - Comparative Information”	January 1, 2023
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	January 1, 2023
Amendments to IAS 1 “Disclosure of Accounting Policies”	January 1, 2023 (Note 2)
Amendments to IAS 8 “Definition of Accounting Estimates”	January 1, 2023 (Note 3)
Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”	January 1, 2023 (Note 4)

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.

Note 3: The amendments are applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

Note 4: Except for deferred taxes that will be recognized on January 1, 2022 for temporary differences associated with leases and decommissioning obligations, the amendments will be applied prospectively to transactions that occur on or after January 1, 2022.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs as endorsed and issued into effect by the FSC.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Classification of current and non-current assets and liabilities

Current assets include:

- 1) Assets held primarily for the purpose of trading;
- 2) Assets expected to be realized within 12 months after the reporting period; and
- 3) Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current liabilities include:

- 1) Liabilities held primarily for the purpose of trading;
- 2) Liabilities due to be settled within 12 months after the reporting period, even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the consolidated financial statements are authorized for issue; and
- 3) Liabilities for which the Group does not have an unconditional right to defer settlement for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Assets and liabilities that are not classified as current are classified as non-current.

d. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Corporation and the entities controlled by the Corporation (i.e., its subsidiaries).

Income and expenses of subsidiaries acquired or disposed of during the period are included in the

consolidated statement of profit or loss and other comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Corporation and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of interests of the Group and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Corporation.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including any goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required had the Group directly disposed of the related assets or liabilities.

The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition of financial assets at fair value through other comprehensive income or financial assets at fair value through profit or loss.

See Note 11, Table 8 and Table 9 for detailed information on subsidiaries (including percentages of ownership and main businesses).

e. Foreign currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period in which they arise.

Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated at the rates prevailing at the date when the fair value is determined. Exchange differences arising from the retranslation of non-monetary items are included in profit or loss for the period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income; in which cases, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations (including subsidiaries and associates operating in other countries or those that use currencies that are different from the Corporation) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period; and income and expense items are translated at the average exchange rates for the period. Exchange differences arising are recognized in other comprehensive income (attributed to the owners of the Corporation and non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e., a disposal of the Corporation's entire interest in a foreign operation, or a disposal involving the loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Corporation are reclassified to profit or loss.

In a partial disposal of a subsidiary that does not result in the Corporation losing control over the subsidiary, the proportionate share of accumulated exchange differences is re-attributed to non-controlling interests of the subsidiary and is not recognized in profit or loss. For all other partial disposals, the proportionate share of the accumulated exchange differences recognized in other comprehensive income is reclassified to profit or loss.

f. Inventories

Inventories consist of raw materials, supplies, finished goods and work in progress and are stated at the lower of cost or net realizable value. Inventory write-downs are made by item, except where it may be appropriate to group similar or related items. The net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at the weighted-average cost on the balance sheet date.

g. Investments in associates

An associate is an entity over which the Group has significant influence and which is neither a subsidiary nor an interest in a joint venture.

The Group uses the equity method to account for its investments in associates.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting.

Under the equity method, the investment in an associate is initially recognized at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate. The Group also recognizes the changes in the Group's share of equity of associates attributable to the Group.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of an associate recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and is not amortized. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

When the Group subscribes for additional new shares of an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Group's proportionate interest in the associate. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus - changes in capital surplus from investments in associates accounted for using the equity method. If the Group's ownership interest is reduced due to the additional subscription of the new shares of associate, the proportionate amount of the gains or losses previously recognized in other comprehensive income in

relation to that associate is reclassified to profit or loss on the same basis as would be required had the investee directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for using the equity method is insufficient, the shortage is debited to retained earnings.

When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any carrying amount of the investment accounted for using the equity method and long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of further losses. Additional losses and liabilities are recognized only to the extent that the Group has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate.

The entire carrying amount of an investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The group discontinues the use of the equity method from the date on which its investment ceases to be an associate. Any retained investment is measured at fair value at that date, and the fair value is regarded as the investment's fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate. The Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would be required had that associate directly disposed of the related assets or liabilities. If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

When the group transacts with its associate, profits and losses resulting from the transactions with the associate are recognized in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

h. Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment loss.

Property, plant and equipment in the course of construction are measured at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Except for freehold land which is not depreciated, the depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

i. Goodwill

Goodwill arising from the acquisition of a business is measured at cost as established at the date of acquisition of the business less accumulated impairment loss.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units or groups of cash-generating units (referred to as "cash-generating units") that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually or more frequently when there is an indication that the unit may be impaired, by comparing its carrying amount, including the attributed goodwill, with its recoverable amount. However, if the goodwill allocated to a cash-generating unit was acquired in a business combination during the current annual period, that unit shall be tested for impairment before the end of the current annual period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then pro rata to the other assets of the unit based on the carrying amount of each asset in the unit. Any impairment loss is recognized directly in profit or loss. Any impairment loss recognized on goodwill is not reversed in subsequent periods.

If goodwill has been allocated to a cash-generating unit and the Group disposes of an operation within that unit, the goodwill associated with the operation which is disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal and is measured on the basis of the relative values of the operation disposed of and the portion of the cash-generating unit retained.

j. Intangible assets

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimate accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are measured at cost less accumulated impairment loss.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

k. Impairment of property, plant and equipment, right-of-use asset and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use asset and intangible assets, excluding goodwill, to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the corresponding asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

1. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

a) Measurement categories

Financial assets are classified into the following categories: financial assets at FVTPL, financial assets at amortized cost and investments in equity instruments at FVTOCI.

i. Financial assets at FVTPL

Financial assets are classified as at FVTPL when such financial assets are mandatorily classified as at FVTPL. Debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value and any dividends, interest earned and remeasurement gains or losses on such financial assets are recognized in other gains or losses. Fair value is determined in the manner described in Note 26.

ii. Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i) The financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents, trade receivables at amortized cost, notes receivable, other receivables and refundable deposits, are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset, except for:

- i) Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of such financial assets; and

- ii) Financial assets that are not credit impaired on purchase or origination but have subsequently become credit impaired, for which interest income is calculated by applying the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

A financial asset is credit impaired when one or more of the following events have occurred:

- i) Significant financial difficulty of the issuer or the borrower;
- ii) Breach of contract, such as a default;
- iii) It is becoming probable that the borrower will enter bankruptcy or undergo a financial reorganization; or
- iv) The disappearance of an active market for that financial asset because of financial difficulties.

Cash equivalents include time deposits with original maturities within 3 months from the date of acquisition, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

iii. Investments in equity instruments at FVTOCI

On initial recognition, the Group may make an irrevocable election to designate investments in equity instruments as at FVTOCI. Designation as at FVTOCI is not permitted if the equity investment is held for trading or if it is a contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments; instead, it will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

b) Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including trade receivables).

The Group always recognizes lifetime expected credit losses (ECLs) for trade receivables. For all other financial instruments, the Group recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Group considers that the following situations indicate that a financial asset is in default (without taking into account any collateral held by the Group):

- i. Internal or external information shows that the debtor is unlikely to pay its creditors.
- ii. When a financial asset is more than 90 days past due unless the Group has reasonable and corroborative information to support a more lagged default criterion.

The Group recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

c) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in an equity instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss which had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

2) Equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments issued by the Group are recognized at the proceeds received, net of direct issue costs.

The repurchase of the Group's own equity instruments is recognized in and deducted directly from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Corporation's own equity instruments.

3) Financial liabilities

a) Subsequent measurement

Except financial liabilities at FVTPL, all financial liabilities are measured at amortized cost using the effective interest method.

Financial liabilities are classified as at FVTPL when such financial liabilities are either held for trading or designated as at FVTPL.

Financial liabilities held for trading are stated at fair value, any gains or losses on such financial liabilities are recognized in other gains or losses; any remeasurement gains or losses on such financial liabilities are recognized in other gains or losses.

Fair value is determined in the manner described in Note 26.

b) Derecognition of financial liabilities

The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

4) Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts.

Derivatives are initially recognized at fair value at the date on which the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument; in which event, the timing of the recognition in profit or loss depends on the nature of the hedging relationship. When the fair value of a derivative financial instrument is positive, the derivative is recognized as a financial asset; when the fair value of a derivative financial instrument is negative, the derivative is recognized as a financial liability.

Derivatives embedded in hybrid contracts that contain financial asset hosts that is within the scope of IFRS 9 are not separated; instead, the classification is determined in accordance with the entire hybrid contract. Derivatives embedded in non-derivative host contracts that are not financial assets that is within the scope of IFRS 9 (e.g. financial liabilities) are treated as separate derivatives when they meet the definition of a derivative; their risks and characteristics are not closely related to those of the host contracts; and the host contracts are not measured at FVTPL.

m. Revenue recognition

The Group identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

For contracts where the period between the date on which the Group transfers a promised good or service to a customer and the date on which the customer pays for that good or service is one year or less, the Group does not adjust the promised amount of consideration for the effects of a significant financing component.

Revenue from the sale of goods and accounts receivable are recognized when the goods are delivered to the customer's designated location or when the goods are shipped, because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence.

The Group does not recognize revenue on materials delivered to subcontractors because this delivery does not involve a transfer of control.

n. Leases

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease.

The Group as lessee

The Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases which are accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the consolidated balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments which depend on an index or a rate. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

o. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other than that which is stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

p. Government grants

Government grants are not recognized until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

Government grants related to income are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan received at a below-market rate of interest is treated as a government grant measured as the difference between the proceeds received and the fair value of the loan based on prevailing market interest rates.

q. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost), and net interest on the net defined benefit liabilities are recognized as employee benefits expense in the period in which they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

r. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

Income tax payable (refundable) is based on taxable profit (loss) for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Act in the ROC, an additional tax on unappropriated earnings is provided in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences, unused loss carryforwards and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the

foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and such temporary differences are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3) Current and deferred taxes

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity respectively.

Where current taxes or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The Group considers the possible impact of the recent development of the COVID-19 in Taiwan and its economic environment implications when making its critical accounting estimates on cash flow projections, growth rate, discount rate, profitability, etc. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revisions affect only that period or in the period of the revisions and future periods if the revision affects both current and future periods.

6. CASH AND CASH EQUIVALENTS

	December 31	
	2021	2020
Cash on hand and petty cash	\$ 23,193	\$ 9,351
Checking accounts and demand deposits	2,999,563	3,618,337
Cash equivalent		
Time deposits with original maturities of 3 months or less	<u>1,929,362</u>	<u>419,436</u>
	<u>\$ 4,952,118</u>	<u>\$ 4,047,124</u>

The market rate intervals of cash in the bank at the end of the reporting period were as follows:

	December 31	
	2021	2020
Bank balance	0.00-6.00	0.00-5.00
Time deposits with original maturities of 3 months or less	0.23-3.20	0.30-3.40

7. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS - CURRENT

Financial Assets at Fair Value through Profit or Loss - Current	December 31	
	2021	2020
<u>Financial assets mandatorily classified as at FVTPL</u>		
Non-derivative financial assets		
Domestic convertible bonds	\$ -	\$ 46,321
Derivative financial assets		
Foreign exchange forward contracts	-	1,101
	<u>\$ -</u>	<u>\$ 47,422</u>

Financial Liabilities at Fair Value through Profit or Loss - Current

Financial liabilities mandatorily classified as at FVTPL

Derivative financial liabilities		
Foreign exchange forward contracts	<u>\$ 26</u>	<u>\$ 3,563</u>

At the end of the year, outstanding foreign exchange forward contracts not under hedge accounting were as follows:

	Currency	Maturity Date	Notional Amount
<u>December 31, 2021</u>			
Buy	USD/NTD	2022.03.07	USD920/TWD25,462
<u>December 31, 2020</u>			
Buy	EUR/USD	2021.06.15	EUR1,691/USD2,060
		2021.01.04-	
	USD/NTD	2021.02.25	USD2,849/TWD82,499
	EUR/RMB	2021.08.06	EUR1,000/RMB8,420

The Group entered into foreign exchange forward contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities.

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME - NON-CURRENT

	December 31	
	2021	2020
<u>Domestic investments</u>		
Unlisted shares	\$ 16,249	\$ 19,252
<u>Foreign investments</u>		
Listed shares	8,347	8,839
Unlisted shares	8,645	8,645
	<u>16,992</u>	<u>17,484</u>
	<u>\$ 33,241</u>	<u>\$ 36,736</u>

These investments in equity instruments are held for medium- to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

9. TRADE RECEIVABLES - NET

	December 31	
	2021	2020
<u>At amortized cost</u>		
Trade receivables from unrelated parties	\$ 3,496,897	\$ 2,921,985
Less: Allowance for impairment loss	<u>(42,362)</u>	<u>(44,639)</u>
	<u>\$ 3,454,535</u>	<u>\$ 2,877,346</u>

The average credit period of sales of goods is 30 to 90 days. No interest is charged on trade receivables. The Group uses other publicly available financial information or its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivable when there is evidence indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The Group has no notes receivable past due. The following table details the loss allowance of trade receivables:

	Not Past Due	1 to 90 Days Past Due	91 to 180 Days Past Due	181 to 360 Days Past Due	Over 1 Year Past Due	Total
Expected credit loss rate	0.001%	0.5%-2%	3%-5%	10%	50%-100%	
<u>December 31, 2021</u>						
Gross carrying amount	\$ 3,056,182	\$ 375,050	\$ 25,416	\$ 8,141	\$ 32,108	\$ 3,496,897
Loss allowance (Lifetime ECLs)	<u>(576)</u>	<u>(3,023)</u>	<u>(3,231)</u>	<u>(3,873)</u>	<u>(31,659)</u>	<u>(42,362)</u>

b. Lease liabilities

	December 31	
	2021	2020
<u>Carrying amount</u>		
Current	\$ 46,548	\$ 45,875
Non-current	\$ 419,258	\$ 464,855

Range of discount rate for lease liabilities was as follows:

	December 31	
	2021	2020
Land	1.18%	1.18%
Buildings	3.83%	3.83%
Other equipment	3.83%	3.83%

c. Material leasing activities and terms

The Group leases land for the use of plants, office spaces and warehouses with lease terms of 10 years from the Export Processing Zone Administration, MOEA of the ROC. Based on the lease, the variable lease payments are dependent on the Taiwan consumer price index of the year before the lease. The Group does not have bargain purchase options to acquire the leasehold land and buildings at the end of the lease term. In addition, the Group is prohibited from subleasing or transferring all or any portion of the underlying assets without the lessor's consent.

d. Other lease information

	For the Year Ended December 31	
	2021	2020
Expenses relating to short-term leases	\$ 82,870	\$ 88,048
Total cash outflow for leases	<u>\$ (141,816)</u>	<u>\$ (144,351)</u>

The Group leases certain buildings, office equipment and transportation equipment qualify as short-term leases. The Group has elected to apply the recognition exemption and thus, did not recognize right-of-use assets and lease liabilities for these leases.

15. OTHER ASSETS

	December 31	
	2021	2020
Office supplies	\$ 645,001	\$ 597,402
Prepaid expenses and prepayment for purchases	347,723	260,938

Others	<u>567,371</u>	<u>505,986</u>
	<u>\$ 1,390,426</u>	<u>\$ 1,140,521</u>

19. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

The Corporation adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, the Corporation makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

The employees of the Group's subsidiaries in China, Vietnam and Malaysia are members of state-managed retirement benefit plans operated by their respective governments. Each subsidiary is required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

b. Defined benefit plans

The defined benefit plans adopted by the Corporation in accordance with the Labor Standards Act is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the six months before retirement. The Corporation contribute amounts equal to 2% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Corporation assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Group is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Group has no right to influence the investment policy and strategy.

Hon Chuan Indonesia, Hon Chuan Thailand and Hon Fu Thailand also adopted the defined benefit plan in accordance with their local regulations.

The amounts included in the consolidated balance sheets in respect of the Group's defined benefit plans are as follows:

	December 31	
	2021	2020
Present value of defined benefit obligation	\$ 169,029	\$ 138,480
Fair value of plan assets	<u>(133,418)</u>	<u>(124,484)</u>
Net defined benefit liabilities	<u>\$ 35,611</u>	<u>\$ 13,996</u>

Movements in net defined benefit liabilities were as follows:

	Present Value of the Defined Benefit Obligation	Fair Value of the Plan Assets	Net Defined Benefit Liabilities
Balance at January 1, 2020	<u>\$ 139,598</u>	<u>\$ (118,458)</u>	<u>\$ 21,140</u>

Reclassified amount	35,217	-	35,217
Exchange differences on foreign plans	<u>(2,667)</u>	<u>-</u>	<u>(2,667)</u>
Balance at December 31, 2021	<u>\$ 169,029</u>	<u>\$ (133,418)</u>	<u>\$ 35,611</u>

Through the defined benefit plans under the Labor Standards Act, the Group is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the corporate bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plans' debt investments.
- 3) Salary risk: The present value of the defined benefit obligation is calculated by using the future salaries of plan participants. As such, an increase in the salaries of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations are as follows:

	December 31	
	2021	2020
Discount rate(s)		
The Corporation	0.750%	0.350%
Hon Chuan Indonesia	7.14%	6.98%
Hon Chuan Thailand	1.77%	1.77%
Hon Fu Thailand	1.71%	1.71%
Expected rate(s) of salary increase		
The Corporation	1.125%	1.125%
Hon Chuan Indonesia	8%	8%
Hon Chuan Thailand	4%	4%
Hon Fu Thailand	3%	3%

If possible reasonable changes in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation will increase (decrease) as follows:

	December 31	
	2021	2020
<u>The Corporation</u>

20. EQUITY

a. Share capital

	December 31	
	2021	2020
Shares authorized (in thousands of shares)	<u>350,000</u>	<u>350,000</u>
Shares authorized	<u>\$ 3,500,000</u>	<u>\$ 3,500,000</u>
Shares issued and fully paid (in thousands of shares)	<u>287,786</u>	<u>287,786</u>
Shares issued	<u>\$ 2,877,859</u>	<u>\$ 2,877,859</u>

b. Capital surplus

	December 31	
	2021	2020
Arising from issuance of common shares (1)	\$ 4,841,447	\$ 4,841,447
The difference between consideration received or paid and the carrying amount of the subsidiaries' net assets during actual disposal or acquisition (1)	353,848	353,848
Other (2)	<u>200,277</u>	<u>200,277</u>
	<u>\$ 5,395,572</u>	<u>\$ 5,395,572</u>

1) The capital surplus from shares issued in excess of par (additional paid-in capital from issuance of common shares) and the difference between consideration received or paid and the carrying amount of the subsidiaries' net assets during actual disposal or acquisition may be used to offset a deficit; in addition, when the Corporation has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Corporation's paid-in capital and to once a year).

2) Such capital surplus may be used to offset a deficit.

c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Articles, where the Corporation made a profit after tax in a fiscal year, the profit shall be first utilized for offsetting cumulative losses, setting aside as legal reserve 10% of the remaining profit until the accumulated legal capital reserve equals the Corporation's paid-in capital, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Corporation's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. For the policies on the distribution of compensation of employees and remuneration of directors after the amendment, please refer to compensation of employees and remuneration of directors in Note 21-d.

The dividends and bonuses, capital surplus, or legal reserve can be distributed in the whole or in part by cash after a resolution has been adopted by a majority of directors present at a meeting of the board of directors attended by two-thirds of the total number of directors; in addition, a report of such distribution shall be submitted to the shareholder's meeting.

The dividends policy of the Corporation shall be made according to the Corporation's current and future plan, considering investment environment, fund requirements, overall competition and taking into account the interests of shareholders. The Corporation may appropriate more than 30% of net profits of current year for dividends to shareholders. However, when accumulated unappropriated earnings are less than 10% of capital, the Corporation may decide not to distribute dividend.

The shareholders' dividends shall be distributed in the form of cash dividends or share dividends. More than (or equal to) 50% of the total amount of shareholders' dividends shall be in the form of cash dividends.

The legal reserve may be used to offset deficits. If the Corporation has no deficit and the legal reserve has exceeded 25% of the Corporation's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of cash dividends per share for 2020 and 2019 were as follows:

	<u>Appropriation of Earnings</u> <u>For the Year Ended December</u>		<u>Dividends Per</u> <u>Share (NT\$)</u> <u>For the Year Ended</u>	
	<u>31</u>		<u>December 31</u>	
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>
Legal reserve	\$ 151,030	\$ 138,104		
Special reserve	356,137	209,737		
Cash dividends	1,036,029	878,637	\$3.60	\$3.05

The appropriation of earnings as cash dividends has been resolved by the Corporation's board of directors in March 2021 and March 2020, the other proposed appropriations will be resolved by the shareholders in their meeting in July 2021 and June 2020.

The appropriation of earnings 2021, which was proposed/resolved by the Corporation's board of directors on March 22, 2022, was as follows:

	<u>Appropriation</u> <u>of Earnings</u>	<u>Dividends Per</u> <u>Share (NT\$)</u>
<u>Proposed</u>		
Legal reserve	\$ 196,428	
Special reserve	544,040	
<u>Resolved</u>		
Cash dividends	1,237,479	\$ 4.30

The appropriation of earnings as cash dividends as listed above had been resolved by the Corporation's board of directors; the other proposed appropriations will be resolved by the shareholders in their meeting to be held on June 17, 2022.

d. Special reserves

The increase in retained earnings that resulted from all IFRSs adjustments was not enough for this appropriation; therefore, the Corporation appropriated to the special reserve an amount of \$352,668 thousand, the increase in retained earnings that resulted from all IFRSs adjustments on transitions to IFRSs.

Additional special reserve should be appropriated for the amount equal to the difference between net debit balance reserves and the special reserve appropriated on the first-time adoption of IFRSs. Any special

reserve appropriated may be reversed to the extent that the net debit balance reverses and is thereafter distributed.

e. Treasury shares

Purpose of Buy-back	Number of shares at January 1	Increase During the Year	Decrease During the Year	Number of shares at December 31
<u>For the Year Ended</u> <u>December 31, 2020</u>				
Shares cancelled	<u>-</u>	<u>5,093,000</u>	<u>(5,093,000)</u>	<u>-</u>

In order to maintain the Group's creditworthiness and protect shareholders' interests, the Corporation's board of directors resolved in March 2020 to buy back and cancel 5,093 thousand treasury shares in accordance with Article 28-2 of the Securities and Exchange Act. As of December 31, 2020, the shares had been fully repurchased and the cost of the repurchase was \$277,423 thousand. On June 30, 2020, the treasury shares were cancelled and the registration of the change was completed in July 2020.

Under the Securities and Exchange Act, the Corporation shall neither pledge treasury shares nor exercise shareholders' rights on these shares, such as the rights to dividends and to vote.

21. NET PROFIT FROM CONTINUING OPERATIONS

Net profit (loss) from continuing operations includes the following items:

a. Other gains and losses

	<u>For the Year Ended December 31</u>	
	<u>2021</u>	<u>2020</u>
Loss on disposal of property, plant and equipment	\$ (54,683)	\$ (14,555)
Loss on valuation of financial assets and liabilities at FVTPL	(28,768)	(4,542)
Loss recognized on associates accounted for using the equity method	(1,272)	(32)
Miscellaneous expense	(30,853)	(25,168)
Miscellaneous income	<u>105,625</u>	<u>127,575</u>
	<u>\$ (9,951)</u>	<u>\$ 83,278</u>

b. Finance costs

	<u>For the Year Ended December 31</u>	
	<u>2021</u>	<u>2020</u>
Interest on bank loans	\$ 74,675	\$ 114,252
Interest on convertible bonds	35,492	33,196
Interest on lease liabilities	8,883	9,016
Other finance costs (Note 24)	<u>19,133</u>	<u>11,303</u>
	<u>\$ 138,183</u>	<u>\$ 167,767</u>

c. Employee benefits expense, depreciation and amortization expenses

	For the Year Ended December 31					
	2021			2020		
	Operating Costs	Operating Expenses	Total	Operating Costs	Operating Expenses	Total
Employee benefits expense						
Payroll expense	\$ 1,445,915	\$ 564,123	\$ 2,010,038	\$ 1,338,132	\$ 538,003	\$ 1,876,135
Labor and health insurance expense	76,500	65,628	142,128	69,410	56,145	125,555
Pension expense	30,727	60,248	90,975	29,075	13,169	42,244
Other employee benefits expense	15,995	36,080	52,075	11,426	35,708	47,134
Remuneration of directors	-	17,294	17,294	-	14,586	14,586
Depreciation expenses	2,025,106	220,298	2,245,404	2,013,013	238,916	2,251,929
Amortization expenses	39,098	5,222	44,320	28,763	7,650	36,413

d. Compensation of employees and remuneration of directors

The Corporation accrued compensation of employees and remuneration of directors at the rates of no less than 1% and no higher than 3%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors. The compensation of employees and remuneration of directors for the years ended December 31, 2021 and 2020 which have been approved by the Corporation's board of directors on March 22, 2022 and March 23, 2021, respectively, were as follows:

	For the Year Ended December 31			
	2021		2020	
	%	Cash	%	Cash
Compensation of employees	1.70%	\$ 37,433	1.78%	\$ 33,066
Remuneration of directors	0.79%	17,294	0.79%	14,586

If there is a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There is no difference between the actual amounts of compensation of employees and remuneration of directors paid and the amounts recognized in the consolidated financial statements for the year ended December 31, 2020 and 2019.

Information on the compensation of employees and remuneration of directors resolved by the Corporation's board of directors in 2022 and 2021 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

22. INCOME TAXES

a. Major components of tax expense recognized in profit or loss

	For the Year Ended December 31	
	2021	2020
Current tax		
In respect of the current year	\$ 696,461	\$ 459,276
Adjustments for prior year	5,191	(15,428)
Deferred tax		
In respect of the current year	(25,037)	(21,802)
Adjustments to deferred tax attributable to changes in tax rates and laws	<u>-</u>	<u>2,527</u>
Income tax expense recognized in profit or loss	<u>\$ 676,615</u>	<u>\$ 424,573</u>

A reconciliation of accounting profit and income tax expenses is as follows:

	For the Year Ended December 31	
	2021	2020
Income tax expense calculated at the statutory rate	\$ 886,228	\$ 638,573
Nondeductible expenses in determining taxable income	9,626	2,326
Tax-exempt income	(16,631)	(44,345)
Additional income tax under the Alternative Minimum Tax Act	85	-
Unrecognized loss carryforwards	14,781	26,951
Unrecognized deductible temporary differences	(274,275)	(184,439)
Effect of tax rate changes	-	2,527
Deductible items in determining taxable income	(58)	(1,592)
Income tax on repatriated funds	51,668	-
Adjustments for prior years' tax	<u>5,191</u>	<u>(15,428)</u>
Income tax expense recognized in profit or loss	<u>\$ 676,615</u>	<u>\$ 424,573</u>

b. Income tax recognized in other comprehensive income

	For the Year Ended December 31	
	2021	2020
Deferred tax		
In respect of current year		
- Remeasurement of defined benefit plans	<u>\$ 100</u>	<u>\$ 1,078</u>

c. Deferred tax assets and liabilities

For the Year Ended December 31, 2021					
	Opening Balance	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Exchange Difference	Closing Balance
<u>Deferred Tax Assets</u>					
Temporary differences					
Tax losses	\$ 180,020	\$ 16,759	\$ -	\$ (847)	\$ 195,932

Allowance for impairment loss of write-down of inventories	8,066	2,336	-	(65)	10,337
Others	<u>21,436</u>	<u>10,138</u>	<u>-</u>	<u>(779)</u>	<u>30,795</u>
	<u>\$ 216,108</u>	<u>\$ 26,859</u>	<u>\$ 100</u>	<u>\$ (1,746)</u>	<u>\$ 241,321</u>
<u>Deferred tax liabilities</u>					
Temporary differences					
Reserve for land value increment tax	\$ 24,283	\$ -	\$ -	\$ -	\$ 24,283
Others	<u>53,061</u>	<u>1,822</u>	<u>-</u>	<u>(2,608)</u>	<u>52,275</u>
	<u>\$ 77,344</u>	<u>\$ 1,822</u>	<u>\$ -</u>	<u>\$ (2,608)</u>	<u>\$ 76,558</u>
For the Year Ended December 31, 2020					
	Opening Balance	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Exchange Difference	Closing Balance
<u>Deferred Tax Assets</u>					
Temporary differences					
Tax losses	\$ 156,991	\$ 20,149	\$ -	\$ 2,880	\$ 180,020
Defined benefit obligation	7,626	(1,855)	1,078	(263)	6,586
Allowance for impairment loss of write-down of inventories	6,664	1,514	-	(112)	8,066
Others	<u>13,264</u>	<u>8,796</u>	<u>-</u>	<u>(624)</u>	<u>21,436</u>
	<u>\$ 184,545</u>	<u>\$ 28,604</u>	<u>\$ 1,078</u>	<u>\$ 1,881</u>	<u>\$ 216,108</u>
<u>Deferred tax liabilities</u>					
Temporary differences					
Reserve for land value increment tax	\$ 24,283	\$ -	\$ -	\$ -	\$ 24,283
Others	<u>44,783</u>	<u>9,329</u>	<u>-</u>	<u>(1,051)</u>	<u>53,061</u>
	<u>\$ 69,066</u>	<u>\$ 9,329</u>	<u>\$ -</u>	<u>\$ (1,051)</u>	<u>\$ 77,344</u>

- d. The aggregate amount of temporary differences associated with investments for which deferred tax liabilities have not been recognized.

As of December 31, 2021 and 2020, the taxable temporary differences associated with investments in subsidiaries for which no deferred tax liabilities have been recognized were \$703,935 thousand and \$559,930 thousand, respectively.

e. Information about unused loss carryforwards and tax-exemptions

Investee	Unused Amount	Expiry Year
Suzhou Hongxin	\$ 561,071	2024-2025
Suzhou Hon Chuan	72,819	2025
Zhangzhou Hon Chuan	<u>82,443</u>	2023-2025
	<u>\$ 716,333</u>	

As of December 31, 2021 under the local regulations of Suzhou Hon Chuan, Suzhou Hongxin and Zhangzhou Hon Chuan, their loss carryforwards may offset against future taxable income.

f. Income tax assessments

Income tax returns of the Corporation through 2019 have been assessed by the tax authorities.

23. EARNINGS PER SHARE

	Net Profit Attributable to Owners of the Corporation	Number of Shares (In Thousands)	Earnings Per Share (NT\$)
<u>For the year ended December 31, 2021</u>			
Basic earnings per share			
Net profit attributable to owners of the Corporation	\$ 1,964,731	287,786	<u>\$ 6.83</u>
Effect of potentially dilutive ordinary shares			
Compensation of employees	<u>-</u>	<u>632</u>	
Diluted earnings per share			
Net profit attributable to owners of the Corporation adding effect of potentially dilutive ordinary shares	<u>\$ 1,964,731</u>	<u>288,418</u>	<u>\$ 6.81</u>
<u>For the year ended December 31, 2020</u>			
Basic earnings per share			
Net profit attributable to owners of the Corporation	\$ 1,655,412	289,585	<u>\$ 5.72</u>
Effect of potentially dilutive ordinary shares			
Compensation of employees	<u>-</u>	<u>696</u>	
Diluted earnings per share			
Net profit attributable to owners of the Corporation adding effect of potentially dilutive ordinary shares	<u>\$ 1,655,412</u>	<u>290,281</u>	<u>\$ 5.70</u>

The Corporation may settle the compensation of employees in cash or shares; therefore, the Corporation assumes that the entire amount of the compensation will be settled in shares, and the resulting potential shares are included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

24. GOVERNMENT GRANTS

Except as disclosed in other notes, the following government grants were received by the Group:

As of December 31, 2021, according to the “Action Plan for Welcoming Overseas Taiwanese Businesses to Return to Invest in Taiwan” made by the government, the Corporation borrowed \$3,047,659 thousand from the National Development Fund with an preferential interest rate for its operation and purchase of equipment. The loan is expected to be settled within 5 to 7 years in equal installments. Using the prevailing market interest rates of 0.85%-1.35% for an equivalent loan, the fair value of the loan was estimated at \$2,963,289 thousand on initial recognition. The difference of \$84,370 thousand between the proceeds and the fair value of the loan is viewed as a government grants derived from an interest-free loan and is recognized as deferred revenue, which will be subsequently transferred to profit or loss over time. For the year ended December 31, 2021, the amount recognized in other revenue was \$13,048 thousand, and interest expense recognized on this loan was \$19,133 thousand.

If the Corporation fails to comply the loan regulations, and the National Development Fund terminates the grants, the Corporation will pay the loan with the original agreed interest rate plus the annual interest rate.

Jinan Hon Chuan, Qingxin Hon Chuan, and Chuzhou Hon Chuan acquired land use rights, invested in equipment, and constructed electronic projects, respectively, and received a government grant of RMB 6,028 thousand in total. The amount was recognized as deferred revenue and was subsequently transferred to profit or loss over the useful lives of the related assets.

25. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of net debt (borrowings offset by cash and cash equivalents) and equity attributable to owners of the Corporation (comprising issued capital, reserves, retained earnings and other equity).

Key management personnel of the Group review the capital structure on a quarterly basis. As part of this review, the key management personnel consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the key management personnel, in order to balance the overall capital structure, the Group may adjust the amount of dividends paid to shareholders, the number of new shares issued or repurchased, and/or the amount of new debt issued or existing debt redeemed.

26. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments measured at fair value on a recurring basis

1) Fair value hierarchy

	Level 1	Level 2	Level 3	Total
<u>December 31, 2021</u>				
Financial liabilities at fair value through profit or loss (FVTPL)				
Foreign exchange forward contracts	\$ -	\$ 26	\$ -	\$ 26
Financial assets at fair value through other comprehensive income				
Equity investments				
Foreign listed shares	\$ 8,347	\$ -	\$ -	\$ 8,347
Unlisted shares	-	-	24,894	24,894
	<u>\$ 8,347</u>	<u>\$ -</u>	<u>\$ 24,894</u>	<u>\$ 33,241</u>
<u>December 31, 2020</u>				
Financial assets at fair value through profit or loss (FVTPL)				
Domestic convertible bonds	\$ 16,640	\$ -	\$ -	\$ 16,640
Foreign corporate bonds	29,681	-	-	29,681
Foreign exchange forward contracts	-	1,101	-	1,101
	<u>\$ 46,321</u>	<u>\$ 1,101</u>	<u>\$ -</u>	<u>\$ 47,422</u>
Financial liabilities at fair value through profit or loss (FVTPL)				
Foreign exchange forward contracts	\$ -	\$ 3,563	\$ -	\$ 3,563
Financial assets at fair value through other comprehensive income				
Equity investments				
Foreign listed shares	\$ 8,839	\$ -	\$ -	\$ 8,839
Unlisted shares	-	-	27,897	27,897
	<u>\$ 8,839</u>	<u>\$ -</u>	<u>\$ 27,897</u>	<u>\$ 36,736</u>

There were no transfers between Level 1 and 2 in the current and prior years.

2) Valuation techniques and assumptions applied for fair value measurement

- The fair value of financial instruments with standard terms and conditions that are traded in an active market, including listed shares and emerging market shares, is determined based on the market price.
- The fair values of foreign exchange forward contracts are determined using the discounted cash flow method. Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

- c) The unlisted equity investments at fair value through other comprehensive income are all measured at Level 3. The fair values of unlisted equity investments are determined using price-to-book ratio approach. In this approach, according to the financial information of the companies, both net book value per share calculated and share price estimated by comparing share price or P/E ratio with similar companies were used to capture the present value of the expected future economic benefits to be derived from the ownership of these investments.

3) Reconciliation of Level 3 fair value measurements of financial instruments

Financial assets at fair value through other comprehensive income - equity instruments

	For the Year Ended December 31	
	2021	2020
Balance at January 1	\$ 27,897	\$ 35,399
Recognized in other comprehensive income (included in unrealized gain (loss) on financial assets at FVTOCI)	(3,003)	(3,502)
Return of capital due to capital reduction of invested companies	<u>-</u>	<u>(4,000)</u>
Balance at December 31	<u>\$ 24,894</u>	<u>\$ 27,897</u>

b. Categories of financial instruments

	December 31	
	2021	2020
<u>Financial assets</u>		
Mandatorily classified as at FVTPL	\$ -	\$ 47,422
Financial assets at amortized cost		
Cash and cash equivalents	4,952,118	4,047,124
Notes receivable and trade receivables	3,724,929	3,036,502
Financial assets at fair value through other comprehensive income - equity investments	33,241	36,736
Other receivables	28,409	31,592
Refundable deposits	58,090	64,244
<u>Financial liabilities</u>		
Held for trading at FVTPL	26	3,563
Amortized cost		
Short-term borrowings	2,617,521	1,594,452
Short-term bills payable	1,200,000	3,100,000
Notes payable and trade payables	1,087,509	826,850
Bonds payable	5,993,313	2,997,404
Long-term borrowings (including current portion)	5,885,057	7,234,019
Other payables	853,227	724,101
Guarantee deposits received	32,882	32,163

c. Financial risk management objectives and policies

The Group's major financial instruments include equity and debt investments, trade receivables, trade payables, borrowings and bonds payable. The Group's corporate treasury function identifies and assesses the risks and manages market uncertainties with the objective of reducing the potentially adverse effects that market fluctuations may have on its financial performance. These risks include market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk.

The Group's corporate treasury function evaluates, on a quarterly basis, whether the use of financial derivatives is governed by the Group's policies that were approved by the board of directors. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis. The Group did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

1) Market risk

The Group's activities exposed it primarily to the financial risk of changes in foreign currency exchange rates and interest rates. The Group entered into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk. There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

Foreign currency risk

The Group has foreign currency denominated sales and purchases, which expose the Group to foreign currency risk. Exchange rate exposures are managed within approved policy parameters utilizing foreign exchange forward contracts. The use of financial derivatives would reduce the influence of foreign exchange risk but could not completely eliminate the risk.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) at the end of the reporting period are set out in Note 30.

Sensitivity analysis

The Group is mainly exposed to the USD and EUR.

The Group's sensitivity to a 1% increase and decrease in NTD (the functional currency) against the relevant foreign currencies represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items. The sensitivity analysis included external borrowings as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the functional currency of the lender or the borrower. Assuming a 1% strengthening in the NTD against the USD, the pre-tax profit for the years ended December 31, 2021 and 2020 would have decreased by \$5,473 thousand and \$2,430 thousand, respectively. Assuming a 1% strengthening in the NTD against the EUR, the pre-tax profit for the years ended December 31, 2021 and 2020 would have increased by \$1,324 thousand and \$2,380 thousand, respectively.

Interest rate risk

The Group is exposed to interest rate risk because entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite ensuring the most cost-effective hedging strategies are applied.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates were as follows:

	December 31	
	2021	2020
Fair value interest rate risk		
Financial liabilities	\$ 7,659,119	\$ 6,608,134
Cash flow interest rate risk		
Financial liabilities	8,502,578	8,828,471

Sensitivity analysis

The sensitivity analysis below was determined based on the Group's exposure to interest rates for both derivative and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of each liability outstanding at the end of the reporting period was outstanding for the whole year. A 0.125% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been raised by 0.125% higher and all other variables were held constant, the Group's pre-tax profit for the years ended December 31, 2021 and 2020 would decrease by \$10,628 thousand and \$11,036 thousand, respectively.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. At the end of the reporting period, the Group's maximum exposure to credit risk, which would cause a financial loss to the Group due to the failure of the counterparty to discharge its obligation and due to the financial guarantees provided by the Group, is arising from:

- The carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets; and
- The maximum amount the entity would have to pay if the financial guarantee is called upon, irrespective of the likelihood of the guarantee being exercised.

Trade receivables consist of a large number of customers, which spread across diverse industries and geographical areas. On-going credit evaluation is performed on the financial condition of trade receivables. The Group's concentrations of credit risk regarding top 5 customers were 25% and 28%, respectively, in total trade receivables as of December 31, 2021 and 2020. No other concentration of credit risk was observed.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As of December 31, 2021 and 2020, the Corporation had available unutilized short-term bank loan facilities of \$16,172,000 thousand and \$15,511,080 thousand, respectively.

The following table has been drawn up based on the undiscounted cash flows of financial liabilities from the due date.

	Less Than 1 Year	1-5 Years	5+ Years
<u>December 31, 2021</u>			
Non-derivative financial liabilities			
Borrowings	\$ 3,573,265	\$ 4,929,313	\$ -
Short-term bills payable	1,200,000	-	-
Non-interest bearing liabilities	1,087,509	-	-
Bonds payable	-	5,993,313	-
Lease liabilities	<u>53,971</u>	<u>166,410</u>	<u>314,739</u>
	<u>\$ 5,914,745</u>	<u>\$ 11,089,036</u>	<u>\$ 314,739</u>
Derivative financial liabilities			
Foreign exchange forward contracts	<u>\$ 26</u>	<u>\$ -</u>	<u>\$ -</u>
<u>December 31, 2020</u>			
Non-derivative financial liabilities			
Borrowings	\$ 1,641,432	\$ 6,880,062	\$ 361,339
Short-term bills payable	3,100,000	-	-
Non-interest bearing liabilities	826,850	-	-
Bonds payable	-	2,997,404	-
Lease liabilities	<u>54,509</u>	<u>204,223</u>	<u>329,838</u>
	<u>\$ 5,622,791</u>	<u>\$ 10,081,689</u>	<u>\$ 691,177</u>
Derivative financial liabilities			
Foreign exchange forward contracts	<u>\$ 3,563</u>	<u>\$ -</u>	<u>\$ -</u>

Further information on the maturity analysis of the above financial liabilities was as follows:

	Less than 1 Year	1-5 Years	5-10 Years	10-15 Years	15-20 Years	20+ Years
<u>December 31, 2021</u>						
Lease liabilities	<u>\$ 53,971</u>	<u>\$ 166,410</u>	<u>\$ 72,956</u>	<u>\$ 56,383</u>	<u>\$ 56,384</u>	<u>\$ 129,016</u>
<u>December 31, 2020</u>						
Lease liabilities	<u>\$ 54,509</u>	<u>\$ 204,223</u>	<u>\$ 75,297</u>	<u>\$ 57,864</u>	<u>\$ 56,384</u>	<u>\$ 140,293</u>

27. TRANSACTIONS WITH RELATED PARTIES

Balances and transactions between the Corporation and its subsidiaries, which are related parties of the Corporation, have been eliminated on consolidation and are not disclosed in this note. Details of transactions between the Group and other related parties are disclosed as follows.

a. Related party name and category

<u>Related Party Name</u>	<u>Related Party Category</u>
Food and Drink Public Company Limited	Others
Ann Huang	Others

b. Sales of goods

	<u>For the Year Ended December 31</u>	
	<u>2021</u>	<u>2020</u>
Net sales		
Others	\$ <u>8,787</u>	\$ <u>5,507</u>
Rental expenses (recorded under manufacturing or operation expenses)		
Others	\$ <u>3,409</u>	\$ <u>3,668</u>

The price of sales to related parties and collection terms approximated those for third parties.

The Corporation has leased warehouse from related parties. The rent is based on the rates of neighboring properties and paid monthly.

	<u>December 31</u>	
	<u>2021</u>	<u>2020</u>
Trade receivables		
Others	\$ <u>2,773</u>	\$ <u>1,507</u>
Other receivables (recognized as other current assets)		
Others	\$ <u>-</u>	\$ <u>5</u>
Other payables (recognized as other current liabilities)		
Others	\$ <u>278</u>	\$ <u>318</u>

c. Remuneration of key management personnel

	<u>For the Year Ended December 31</u>	
	<u>2021</u>	<u>2020</u>
Short-term employee benefits	\$ 74,784	\$ 64,332
Post-employment benefits	<u>157</u>	<u>235</u>
	\$ <u>74,941</u>	\$ <u>64,567</u>

The remuneration of directors and key executives, as determined by the remuneration committee, is based on the performance of individuals and market trends.

28. ASSETS PLEDGED AS COLLATERAL OR FOR SECURITY

The following assets were provided as collateral for bank borrowings:

	December 31	
	2021	2020
Property, plant and equipment	\$ 183,780	\$ 237,291
Restricted assets (recognized as other current assets)	<u>13,342</u>	<u>1,594</u>
	<u>\$ 197,122</u>	<u>\$ 238,885</u>

29. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant contingencies and unrecognized commitments of the Group at December 31, 2021 and 2020 were as follows:

- a. As of December 31, 2021 and 2020, unused letters of credit for purchases of raw materials and machinery and equipment amounted to approximately \$298,464 thousand and \$318,812 thousand, respectively.
- b. Unrecognized commitments were as follows:

	December 31	
	2021	2020
Acquisition of property, plant and equipment	<u>\$ 1,467,147</u>	<u>\$ 464,981</u>

30. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by the foreign currencies other than functional currencies of the Group, and the exchange rates between the foreign currencies and the respective functional currencies were disclosed. The significant assets and liabilities denominated in foreign currencies were as follows:

December 31						
	2021			2020		
	Foreign Currency	Exchange Rate	New Taiwan Dollars	Foreign Currency	Exchange Rate	New Taiwan Dollars
<u>Financial assets of monetary items</u>						
USD	\$ 38,248	27.68	\$ 1,058,705	\$ 19,977	28.48	\$ 568,945
EUR	603	31.32	18,886	1,132	35.02	39,643
<u>Financial liabilities of monetary items</u>						
USD	18,474	27.68	511,360	11,443	28.48	325,897
EUR	4,831	31.32	151,307	7,927	35.02	277,604

The following information was aggregated by the functional currencies of the group entities, and the exchange rates between respective functional currencies and the presentation currency were disclosed. The significant realized and unrealized foreign exchange gains (losses) were as follows:

	For the Year Ended December 31			
	2021		2020	
	Exchange Rate	Net Foreign Exchange Gain (Loss)	Exchange Rate	Net Foreign Exchange Gain (Loss)
NTD	1.0000	\$ (23,377)	1.0000	\$ (7,695)
USD	28.009	211	29.549	4,939

PHP	0.5617	<u>330</u>	0.5887	<u>(3,456)</u>
		<u>\$ (27,062)</u>		<u>\$ (1,585)</u>

31. OTHER ITEMS

Environmental Protection Bureau of Taichung City Government (“Environmental Protection Bureau”), Environmental Protection Administration Executive Yuan, R.O.C. (Taiwan), and Taichung District Prosecutors Office (“Taichung Prosecutors Office”) collectively inspected the label factories of the Corporation and discovered that the air pollution control equipment was not functioning properly. As a result, Environmental Protection Bureau issued Letter No. 1070126655 with fine notifications No. 20-107-110002 and No. 20-107-110003 which amounted to \$20,200 thousand fine. The Corporation paid the fine and recognized the amount as other losses under non-operating income and expenses in the current year. The Corporation appointed a lawyer to appeal for an administrative remedy. This case was denied by the Supreme Administrative Court on November 25, 2021, and the case was concluded.

Because of the abovementioned event, Environmental Protection Bureau issued Letter No. 1080045552 on May 2, 2019 for the air pollution charge of \$125,869 thousand from the third quarter of 2013 through the second quarter of 2018. The Corporation paid the fine and recognized the amount as other losses under non-operating income and expenses in the first half of 2019. The Corporation appointed a lawyer to appeal to Taichung High Administrative Court for administrative litigation. The Taichung High Administrative Court announced the first-instance verdict that the Corporation lost the trial, and the case was appealed to the Supreme Administrative Court and is currently under trial. The investigation of the case was closed by the Taichung District Prosecutors Office on September 20, 2019. In addition to ordering the Corporation to pay the unlawful income of \$77,299 thousand, which was the air pollution charge from the fourth quarter of 2010 through the second quarter of 2018, the prosecutors charged 19 persons, including the Corporation, for indictable offense due to violation of Air Pollution Control Act. The case underwent a trial in the Taichung District Court. The Corporation paid the aforementioned unlawful income and recognized the amount as other losses under non-operating income and expenses in 2019.

32. SEPARATELY DISCLOSED ITEMS

a. Information on significant transactions and investees:

- 1) Financing provided to others. (Table 1)
- 2) Endorsements/guarantees provided. (Table 2)
- 3) Marketable securities held (excluding investments in subsidiaries, associates and joint controlled entities). (Table 3)
- 4) Marketable securities acquired or disposed of costs or prices at least NT\$300 million or 20% of the paid-in capital. (Table 4)
- 5) Acquisition of individual real estate at costs of at least NT\$300 million or 20% of the paid-in capital. (Table 5)
- 6) Disposal of individual real estate at prices of at least NT\$300 million or 20% of the paid-in capital. (None)
- 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital. (None)
- 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital. (Table 6)
- 9) Trading in derivative instruments. (Note 7)
- 10) Intercompany relationships and significant intercompany transactions. (Table 7)
- 11) Information on investees. (Table 8)

b. Information on investments in mainland China

- 1) Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the period, repatriations of investment income, and limit on the amount of investment in the mainland China area. (Table 9)
- 2) Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses:
 - a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period. (None)
 - b) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the period. (None)
 - c) The amount of property transactions and the amount of the resultant gains or losses. (None)
 - d) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes. (Table 2)

- e) The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds. (Table 1)
- f) Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receiving of services. (None)
- c. Information of major shareholders: list all shareholders with ownership of 5% or greater showing the name of the shareholder, the number of shares owned, and percentage of ownership of each shareholder: (None).

33. SEGMENT INFORMATION

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance focuses on the types of goods or services delivered or provided. Specifically, the Group's reportable segments under IFRS 8 "Operating Segments" were as follows:

- Domestic - Manufacture and sale in Taiwan.
- Foreign - Manufacture and sale in countries other than Taiwan.

a. Segment revenue and results

The following was an analysis of the Group's revenue and results from continuing operations by reportable segment:

	Domestic	Foreign Subsidiaries	Adjustment and Elimination	Total
<u>For the Year ended December 31, 2021</u>				
Revenue from external customers	\$ 8,389,771	\$ 12,992,763	\$ -	\$ 21,382,534
Inter-segment revenue	76,665	130,093	(206,758)	-
Segment revenue	<u>\$ 8,466,436</u>	<u>\$ 13,122,856</u>	<u>\$ (206,758)</u>	<u>\$ 21,382,534</u>
Segment income	<u>\$ 1,001,199</u>	<u>\$ 1,826,773</u>		\$ 2,827,972
Other gains and losses				(9,951)
Financial costs				(138,183)
Interest income				52,197
Foreign exchange loss				<u>(27,062)</u>
Profit before tax				<u>\$ 2,704,973</u>
<u>For the Year ended December 31, 2020</u>				
Revenue from external customers	\$ 8,175,370	\$ 11,172,879	\$ -	\$ 19,348,249
Inter-segment revenue	63,280	111,866	(175,146)	-
Segment revenue	<u>\$ 8,238,650</u>	<u>\$ 11,284,745</u>	<u>\$ (175,146)</u>	<u>\$ 19,348,249</u>
Segment income	<u>\$ 1,008,289</u>	<u>\$ 1,181,557</u>		\$ 2,189,846
Other gains and losses				83,278
Financial costs				(167,767)
Interest income				51,541
Foreign exchange loss				<u>(1,585)</u>
Profit before tax				<u>\$ 2,155,313</u>

Inter-segment revenue was accounted for based on market prices.

Segment profit represented the profit before tax earned by each segment without other gains and losses, financial costs, interest income, exchange gains or losses and income tax expense. This was the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

- b. The Group had not reported segment assets and liabilities information to the chief operating decision maker. Thus, no disclosure is made.
- c. Revenue from major products and services

The following is an analysis of the Corporation's revenue from continuing operations from its major products and services:

	For the Year Ended December 31	
	2021	2020
Packaging materials	\$ 14,077,765	\$ 12,582,665
Beverages (included bottle filling and OEM)	6,392,625	5,920,641
Others	<u>912,144</u>	<u>844,943</u>
	<u>\$ 21,382,534</u>	<u>\$ 19,348,249</u>

- d. Geographical information

The Corporation operates in three principal geographical areas - Taiwan, China and Southeast Asia.

The Corporation's revenue from continuing operations from external customers by location of operations and information about its non-current assets by location of assets are detailed below.

	Revenue from External Customers		Non-current Assets	
	For the Year Ended December 31		December 31	
	2021	2020	2021	2020
Taiwan	\$ 8,389,771	\$ 8,175,371	\$ 6,904,113	\$ 6,584,058
China	6,960,501	5,956,008	6,522,651	6,646,760
Southeast Asia	5,859,611	5,036,641	6,584,176	7,239,813
Others	<u>172,651</u>	<u>180,229</u>	<u>341,793</u>	<u>345,491</u>
	<u>\$ 21,382,534</u>	<u>\$ 19,348,249</u>	<u>\$ 20,352,733</u>	<u>\$ 20,816,122</u>

Non-current assets exclude financial instruments and deferred tax assets.

- e. Information about major customers

No single customer contributed 10% or more to the Group's revenue for both 2021 and 2020.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Taiwan Hon Chuan Enterprise Co., Ltd.

Opinion

We have audited the accompanying financial statements of Taiwan Hon Chuan Enterprise Co., Ltd. (the "Corporation"), which comprise the balance sheets as of December 31, 2021 and 2020, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation as of December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Corporation in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in the Corporation's financial statements for the year ended December 31, 2021 is described as follows:

Revenue recognition

The Corporation manufactures and sells plastic caps and PET bottles, PET preforms and provides beverage filling OEM services. Because revenue from the aforementioned main products is significant to both the Corporation's revenue and profit, we identified revenue recognition as a key audit matter. Refer to Note 4 to the financial statements for the accounting policies on revenue recognition.

The key audit procedures that we performed in respect of revenue recognition included the following:

1. We understood the design of the internal controls related to revenue recognition and tested the operating effectiveness of the key controls. We also sampled and tested the effective continued operations of relevance controls
2. We selected sample entries from the main products and we checked the entries against the original order, delivery order, invoices and receipt vouchers. We also checked the entries against the documents acknowledged by customers for their receipts, deliveries and orders.

Other Matter

We did not audit the financial statements of Hon Chuan Vietnam Co., Ltd., Hon Chuan Malaysia Sdn. Bhd., Hon Chuan (Thailand) Co., Ltd. and Hon Chuan FD Packaging Co., Ltd., which are investees of the Corporation and are accounted for using the equity method for the year ended December 31, 2021 and 2020, but such financial statements were audited by other auditors. Our opinion, insofar as it relates to the amounts included in the Corporation's financial statements for these investees, is based solely on the reports of other auditors. The total assets of the aforementioned investments accounted for using the equity method were NTD3,317,752 thousand and NTD4,236,058 thousand, representing 10.91% and 14.78%, respectively, of the Corporation's total assets as of December 31, 2021 and 2020. The comprehensive income of these investees was NTD420,219 thousand and NTD421,102 thousand, representing 29.59% and 32.52%, respectively, of the Corporation's comprehensive income for the years ended December 31, 2021 and 2020.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Corporation's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Corporation to express an opinion on the financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended December 31, 2021 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audits resulting in this independent auditors' report are Shao-Chun Wu and Hsiao-Feng Yen.

(Concluded)

TAIWAN HON CHUAN ENTERPRISE CO., LTD.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

Taiwan Hon Chuan Enterprise Co., Ltd. (the “Corporation”) was incorporated in 1969. It manufactures and sells various packaging materials for the food and beverage industries (such as aluminum closures, plastic caps, metal caps, labels, polyethylene terephthalate (PET) bottles, and beverage filling original equipment manufacturer (OEM) and automatic sealer machines.

The Corporation became a public company in August 1993 under the approval of the Securities and Futures Bureau (SFB) of the Financial Supervisory Commission. The Corporation’s shares have been listed on the Taiwan Stock Exchange since March 2, 2001.

The financial statements of the Corporation are presented in the Corporation’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Corporation’s board of directors on March 22, 2022.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the IFRSs endorsed and issued into effect by the FSC did not have a material impact on the Corporation’s accounting policies.

- b. The IFRSs endorsed by the FSC for application starting from 2022

New IFRSs	Effective Date Announced by IASB
“Annual Improvements to IFRS Standards 2018-2020”	January 1, 2022 (Note 1)
Amendments to IFRS 3 “Reference to the Conceptual Framework”	January 1, 2022 (Note 2)
Amendments to IAS 16 “Property, Plant and Equipment - Proceeds before Intended Use”	January 1, 2022 (Note 3)
Amendments to IAS 37 “Onerous Contracts - Cost of Fulfilling a Contract”	January 1, 2022 (Note 4)

Note 1: The amendments to IFRS 9 are applied prospectively to modifications and exchanges of financial liabilities that occur on or after the annual reporting periods beginning on or after January 1, 2022. The amendments to IAS 41 “Agriculture” are applied prospectively to the fair value measurements on or after the annual reporting periods beginning on or after January 1,

2022. The amendments to IFRS 1 “First-time Adoptions of IFRSs” are applied retrospectively for annual reporting periods beginning on or after January 1, 2022.

Note 2: The amendments are applicable to business combinations for which the acquisition date is on or after the beginning of the annual reporting period beginning on or after January 1, 2022.

Note 3: The amendments are applicable to property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after January 1, 2021.

Note 4: The amendments are applicable to contracts for which the entity has not yet fulfilled all its obligations on January 1, 2022.

As of the date the financial statements were authorized for issue, the Corporation has assessed that the application of other standards and interpretations will not have a material impact on the Corporation’s financial position and financial performance.

c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

New IFRSs	Effective Date Announced by IASB (Note 1)
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 “Initial Application of IFRS 9 and IFRS 17 - Comparative Information”	January 1, 2023
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	January 1, 2023
Amendments to IAS 1 “Disclosure of Accounting Policies”	January 1, 2023 (Note 2)
Amendments to IAS 8 “Definition of Accounting Estimates”	January 1, 2023 (Note 3)
Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”	January 1, 2023 (Note 4)

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.

Note 3: The amendments are applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

Note 4: Except that deferred taxes will be recognized on January 1, 2022 for temporary differences associated with leases and decommissioning obligations, the amendments will be applied prospectively to transactions that occur on or after January 1, 2022.

As of the date the financial statements were authorized for issue, the Corporation is continuously assessing the possible impact that the application of other standards and interpretations will have on the Corporation’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

The parent company only financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

b. Basis of preparation

The financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

When preparing these parent company only financial statements, the Corporation used the equity method to account for its investments in subsidiaries, associates and joint ventures. In order for the amounts of the net profit for the year, other comprehensive income for the year and total equity in the parent company only financial statements to be the same as the amounts attributable to the owners of the Corporation in its consolidated financial statements, adjustments arising from the differences in accounting treatments between the parent company only basis and the consolidated basis were made to investments accounted for using the equity method, the share of profit or loss of subsidiaries, associates and joint ventures, the share of other comprehensive income of subsidiaries, associates and joint ventures and the related equity items, as appropriate, in these parent company only financial statements.

c. Classification of current and non-current assets and liabilities

Current assets include:

- 1) Assets held primarily for the purpose of trading;
- 2) Assets expected to be realized within 12 months after the reporting period; and
- 3) Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current liabilities include:

- 1) Liabilities held primarily for the purpose of trading;
- 2) Liabilities due to be settled within 12 months after the reporting period, even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorized for issue; and

- 3) Liabilities for which the Corporation does not have an unconditional right to defer settlement for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Assets and liabilities that are not classified as current are classified as non-current.

d. Foreign currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period in which they arise.

Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated at the rates prevailing at the date when the fair value is determined. Exchange differences arising from the retranslation of non-monetary items are included in profit or loss for the period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income; in which cases, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

For the purposes of presenting the financial statements, the assets and liabilities of the Corporation's foreign operations (including subsidiaries and associates operating in other countries or those that use currencies that are different from the Corporation) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period; and income and expense items are translated at the average exchange rates for the period. Exchange differences arising are recognized in other comprehensive income (attributed to the owners of the Corporation and non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e., a disposal of the Corporation's entire interest in a foreign operation, or a disposal involving the loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Corporation are reclassified to profit or loss.

In a partial disposal of a subsidiary that does not result in the Corporation losing control over the subsidiary, the proportionate share of accumulated exchange differences is include in the calculation of equity transactions but is not recognized in profit or loss. For all other partial disposals, the proportionate share of the accumulated exchange differences recognized in other comprehensive income is reclassified to profit or loss.

e. Inventories

Inventories consist of raw materials, supplies, finished goods and work in progress and are stated at the lower of cost or net realizable value. Inventory write-downs are made by item, except where it may be appropriate to group similar or related items. The net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at the weighted-average cost on the balance sheet date.

f. Investments in subsidiaries

The Corporation uses the equity method to account for its investments in subsidiaries.

A subsidiary is an entity that is controlled by the Corporation.

Under the equity method, an investment in a subsidiary is initially recognized at cost and adjusted thereafter to recognize the Corporation's share of the profit or loss and other comprehensive income of the subsidiary. The Corporation also recognizes the changes in the Corporation's share of equity of subsidiaries.

Changes in the Corporation's ownership interest in a subsidiary that do not result in the Corporation losing control of the subsidiary are accounted for as equity transactions. The Corporation recognizes directly in equity any difference between the carrying amount of the investment and the fair value of the consideration paid or received.

Any excess of the cost of acquisition over the Corporation's share of the net fair value of the identifiable assets and liabilities of a subsidiary that constitutes at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and is not amortized. Any excess of the Corporation's share of the net fair value of the identifiable assets and liabilities of a subsidiary that constitutes a business over the cost of acquisition is recognized immediately in profit or loss.

The Corporation assesses its investment for any impairment by comparing the carrying amount with the estimated recoverable amount as assessed based on the investee's financial statements as a whole. Impairment loss is recognized when the carrying amount exceeds the recoverable amount. If the recoverable amount of the investment subsequently increases, the Corporation recognizes a reversal of the impairment loss; the adjusted post-reversal carrying amount should not exceed the carrying amount that would have been recognized (net of amortization or depreciation) had no impairment loss been recognized in prior years. An impairment loss recognized on goodwill cannot be reversed in a subsequent period.

When the Corporation loses control of a subsidiary, it recognizes the investment retained in the former subsidiary at its fair value at the date when control is lost. The difference between the fair value of the retained investment plus any consideration received and the carrying amount of the previous investment at the date when control is lost is recognized as a gain or loss in profit or loss. Besides this, the Corporation accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required had the Corporation had directly disposed of the related assets or liabilities.

Profit or loss resulting from downstream transactions are eliminated in full only in the parent company only financial statements. Profit and loss resulting from upstream transactions and transactions between subsidiaries is recognized only in the parent company only financial statements and only to the extent of interests in the subsidiaries that are not related to the Corporation.

g. Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment loss.

Property, plant and equipment in the course of construction are measured at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Except for freehold land which is not depreciated, the depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

h. Intangible assets

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimate accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are measured at cost less accumulated impairment loss.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

i. Impairment of property, plant and equipment, right-of-use asset and intangible assets

At the end of each reporting period, the Corporation reviews the carrying amounts of its property, plant and equipment, right-of-use asset and intangible assets, to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Corporation estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the corresponding asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

j. Financial instruments

Financial assets and financial liabilities are recognized when the Corporation becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

a) Measurement categories

Financial assets are classified into the following categories: financial assets at FVTPL, financial assets at amortized cost and investments in equity instruments at FVTOCI.

i. Financial assets at FVTPL

Financial assets are classified as at FVTPL when such financial assets are mandatorily classified as at FVTPL. Debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value and any dividends, interest earned and remeasurement gains or losses on such financial assets are recognized in other gains or losses. Fair value is determined in the manner described in Note 25.

ii. Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i) The financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents, trade receivables at amortized cost, notes receivable, other receivables and refundable deposits, are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset, except for:

- i) Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of such financial assets; and
- ii) Financial assets that are not credit impaired on purchase or origination but have subsequently become credit impaired, for which interest income is calculated by applying

the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

A financial asset is credit impaired when one or more of the following events have occurred:

- i) Significant financial difficulty of the issuer or the borrower;
- ii) Breach of contract, such as a default;
- iii) It is becoming probable that the borrower will enter bankruptcy or undergo a financial reorganization; or
- iv) The disappearance of an active market for that financial asset because of financial difficulties.

Cash equivalents include time deposits with original maturities within 3 months from the date of acquisition, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

iii. Investments in equity instruments at FVTOCI

On initial recognition, the Corporation may make an irrevocable election to designate investments in equity instruments as at FVTOCI. Designation as at FVTOCI is not permitted if the equity investment is held for trading or if it is a contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments; instead, it will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Corporation's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

b) Impairment of financial assets

The Corporation recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including trade receivables).

The Corporation always recognizes lifetime expected credit losses (ECLs) for trade receivables. For all other financial instruments, the Corporation recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Corporation measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Corporation considers that the following

situations indicate that a financial asset is in default (without taking into account any collateral held by the Corporation):

- i. Internal or external information shows that the debtor is unlikely to pay its creditors.
- ii. When a financial asset is more than 90 days past due unless the Corporation has reasonable and corroborative information to support a more lagged default criterion.

The Corporation recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

c) Derecognition of financial assets

The Corporation derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in an equity instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss which had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

2) Equity instruments

Debt and equity instruments issued by the Corporation are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments issued by the Corporation are recognized at the proceeds received, net of direct issue costs.

The repurchase of the Corporation's own equity instruments is recognized in and deducted directly from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of the Corporation's own equity instruments.

3) Financial liabilities

a) Subsequent measurement

Except financial liabilities at FVTPL, all financial liabilities are measured at amortized cost using the effective interest method.

Financial liabilities are classified as at FVTPL when such financial liabilities are either held for trading or designated as at FVTPL.

Financial liabilities held for trading are stated at fair value, any gains or losses on such financial liabilities are recognized in other gains or losses; any remeasurement gains or losses on such financial liabilities are recognized in other gains or losses.

Fair value is determined in the manner described in Note 25.

b) Derecognition of financial liabilities

The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

4) Derivative financial instruments

The Corporation enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts.

Derivatives are initially recognized at fair value at the date on which the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument; in which event, the timing of the recognition in profit or loss depends on the nature of the hedging relationship. When the fair value of a derivative financial instrument is positive, the derivative is recognized as a financial asset; when the fair value of a derivative financial instrument is negative, the derivative is recognized as a financial liability.

Derivatives embedded in hybrid contracts that contain financial asset hosts that is within the scope of IFRS 9 are not separated; instead, the classification is determined in accordance with the entire hybrid contract. Derivatives embedded in non-derivative host contracts that are not financial assets that is within the scope of IFRS 9 (e.g. financial liabilities) are treated as separate derivatives when they meet the definition of a derivative; their risks and characteristics are not closely related to those of the host contracts; and the host contracts are not measured at FVTPL.

k. Revenue recognition

The Corporation identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

For contracts where the period between the date on which the Corporation transfers a promised good or service to a customer and the date on which the customer pays for that good or service is one year or less, the Corporation does not adjust the promised amount of consideration for the effects of a significant financing component.

Revenue from the sale of goods and accounts receivable are recognized when the goods are delivered to the customer's designated location or when the goods are shipped, because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence.

The Corporation does not recognize revenue on materials delivered to subcontractors because this delivery does not involve a transfer of control.

l. Leases

At the inception of a contract, the Corporation assesses whether the contract is, or contains, a lease.

The Corporation as lessee

The Corporation recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases which are accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments which depend on an index or a rate. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Corporation uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Corporation remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

m. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other than that which is stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

n. Government grants

Government grants are not recognized until there is reasonable assurance that the Corporation will comply with the conditions attached to them and that the grants will be received.

Government grants related to income are recognized in profit or loss on a systematic basis over the periods in which the Corporation recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Corporation should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Corporation with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan received at a below-market rate of interest is treated as a government grant measured as the difference between the proceeds received and the fair value of the loan based on prevailing market interest rates.

o. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost), and net interest on the net defined benefit liabilities are recognized as employee benefits expense in the period in which they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Corporation's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

p. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

Income tax payable (refundable) is based on taxable profit (loss) for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Act in the ROC, an additional tax on unappropriated earnings is provided in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences, unused loss carryforwards and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, except where the Corporation is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and such temporary differences are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Corporation expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3) Current and deferred taxes

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity respectively.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Corporation's accounting policies, management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The Corporation considers the possible impact of the recent development of the COVID-19 in Taiwan and its economic environment implications when making its critical accounting estimates on cash flow projections, growth rate, discount rate, profitability, etc. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revisions affect only that period or in the period of the revisions and future periods if the revision affects both current and future periods.

6. CASH AND CASH EQUIVALENTS

	December 31	
	2021	2020
Cash on hand and petty cash	\$ 315	\$ 295
Checking accounts and demand deposits	281,958	228,933
Cash equivalent		
Time deposits with original maturities of 3 months or less	<u>629,720</u>	<u>150,944</u>
	<u>\$ 911,993</u>	<u>\$ 380,172</u>

The market rate intervals of cash in the bank at the end of the year were as follows:

	December 31	
	2021	2020
Bank balance	0.00-0.05	0.00-0.05
Time deposits with original maturities of 3 months or less	0.23-0.30	0.30

7. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS - CURRENT

	December 31	
Financial Assets at Fair Value through Profit or Loss - Current	2021	2020
<u>Financial assets mandatorily classified as at FVTPL</u>		
Non-derivative financial assets		
Domestic convertible bonds	\$ -	\$ 16,640
Financial Liabilities at Fair Value through Profit or Loss - Current		
<u>Financial liabilities mandatorily classified as at FVTPL</u>		
Derivative financial liabilities		
Foreign exchange forward contracts	\$ -	\$ 1,119

At the end of the year, outstanding foreign exchange forward contracts not under hedge accounting were as follows:

	Currency	Maturity Date	Notional Amount
<u>December 31, 2020</u>			
Buy	EUR/USD	2021.06.15	EUR1,691/USD2,060
	USD/NTD	2021.01.04	USD820/TWD23,051

The Corporation entered into foreign exchange forward contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities.

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME - NON-CURRENT

	December 31	
	2021	2020
<u>Domestic investments</u>		
Unlisted shares	\$ 16,249	\$ 19,252
<u>Foreign investments</u>		
Unlisted shares	<u>8,645</u>	<u>8,645</u>
	<u>\$ 24,894</u>	<u>\$ 27,897</u>

These investments in equity instruments are held for medium- to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Corporation's strategy of holding these investments for long-term purposes.

9. TRADE RECEIVABLES - NET

	December 31	
At Amortized Cost	2021	2020
Trade receivables from unrelated parties	\$ 1,006,749	\$ 797,544
Less: Allowance for impairment loss	<u>(722)</u>	<u>(722)</u>
	<u>\$ 1,006,027</u>	<u>\$ 796,822</u>

The average credit period of sales of goods is 30 to 90 days. No interest is charged on trade receivables. The Corporation uses other publicly available financial information or its own trading records to rate its major customers. The Corporation's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

In order to minimize credit risk, the management of the Corporation has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Corporation reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Corporation's credit risk was significantly reduced.

The Corporation measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. As the Corporation's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Corporation's different customer base.

The Corporation writes off a trade receivable when there is evidence indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Corporation continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The Corporation has no notes receivable that are past due. The following table details the loss allowance of trade receivables:

	Not Past Due	1 to 90 Days Past Due	91 to 180 Days Past Due	181 to 360 Days Past Due	Over 1 Year Past Due	Total
Expected credit loss rate	0.001%	0.5%-2%	3%-5%	10%	50%-100%	
<u>December 31, 2021</u>						
Gross carrying amount	\$ 972,135	\$ 34,028	\$ 521	\$ -	\$ 65	\$ 1,006,749
Loss allowance (Lifetime ECLs)	<u>(439)</u>	<u>(202)</u>	<u>(16)</u>	<u>-</u>	<u>(65)</u>	<u>(722)</u>
Amortized cost	<u>\$ 971,696</u>	<u>\$ 33,826</u>	<u>\$ 505</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,006,027</u>
<u>December 31, 2020</u>						
Gross carrying amount	\$ 789,958	\$ 6,742	\$ -	\$ 537	\$ 307	\$ 797,544
Loss allowance (Lifetime ECLs)	<u>(439)</u>	<u>(38)</u>	<u>-</u>	<u>(54)</u>	<u>(191)</u>	<u>(722)</u>
Amortized cost	<u>\$ 789,519</u>	<u>\$ 6,704</u>	<u>\$ -</u>	<u>\$ 483</u>	<u>\$ 116</u>	<u>\$ 796,822</u>

The movements of the loss allowance of trade receivables were as follows:

	<u>For the Year Ended December 31</u>	
	<u>2021</u>	<u>2020</u>
Balance at January 1 and December 31	<u>\$ 722</u>	<u>\$ 722</u>

10. INVENTORIES

	<u>December 31</u>	
	<u>2021</u>	<u>2020</u>
Finished goods	\$ 402,772	\$ 355,333
Work in progress	8,586	783
Raw materials	611,432	438,789
Inventory in transit	<u>1,340</u>	<u>7,499</u>
	<u>\$ 1,024,130</u>	<u>\$ 802,404</u>

The cost of inventories recognized as cost of goods sold for the years ended December 31, 2021 and 2020 was \$5,953,584 thousand and \$5,939,530 thousand, respectively.

The cost of goods sold for the years ended December 31, 2021 included inventory write-downs of \$9,442 thousand.

11. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

Investments in Subsidiaries	December 31	
	2021	2020
<u>Unlisted company</u>		
Hon Chuan Holding Limited (“Samoa Hon Chuan”)	\$ 19,802,388	\$ 19,409,562
Bon Trust International Trade Co., Ltd. (“Bon Trust”)	28,904	21,723
Hon Chuan (Cambodia) Co., Ltd. (“Hon Chuan Cambodia”)	64,205	66,429
Hon Chuan (Philippines) Co., Ltd. (“Hon Chuan Philippines”)	<u>75,603</u>	<u>83,647</u>
	<u>\$ 19,971,100</u>	<u>\$ 19,581,361</u>
Proportion of Ownership and Voting Rights (%)		
Name of Subsidiary	December 31	
	2021	2020
Samoa Hon Chuan	100	100
Bon Trust	99.9	99.9
Hon Chuan Cambodia	100	100
Hon Chuan Philippines	100	100

12. PROPERTY, PLANT AND EQUIPMENT

	Beginning Balance	Additions	Disposals	Reclassified Amount	Ending Balance
<u>For the Year Ended December 31, 2021</u>					
Cost					
Freehold land	\$ 467,045	\$ 125,000	\$ -	\$ -	\$ 592,045
Buildings	2,931,965	30,797	-	78,090	3,040,852
Equipment	5,545,083	95,622	(73,548)	299,786	5,866,943
Other equipment	3,613,872	177,541	(42,040)	209,627	3,959,000
Property under construction	<u>91,558</u>	<u>459,547</u>	<u>-</u>	<u>(102,443)</u>	<u>448,662</u>
	<u>12,649,523</u>	<u>\$ 888,507</u>	<u>\$ (115,588)</u>	<u>\$ 485,060</u>	<u>13,907,502</u>

	<u>\$ 4,822,395</u>				<u>\$ 5,605,344</u>

The above items of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives as follows:

Building	
Main buildings	20-60 years
Electrical power equipment	10-50 years
Other	10-50 years
Machinery equipment	3-22 years
Other equipment	3-25 years

13. LEASE ARRANGEMENTS

a. Right-of-use assets

	December 31	
	2021	2020
<u>Carrying amount</u>		
Land	<u>\$ 336,932</u>	<u>\$ 353,289</u>
	For the Year Ended December 31	
	2021	2020
Additions to right-of-use assets	<u>\$ -</u>	<u>\$ 93,105</u>
Depreciation charge for right-of-use assets		
Land	<u>\$ 16,357</u>	<u>\$ 15,194</u>

b. Lease liabilities

	December 31	
	2021	2020
<u>Carrying amount</u>		
Current	\$ 14,797	\$ 14,623
Non-current	\$ 327,445	\$ 342,242

Range of discount rate for lease liabilities was as follows:

	December 31	
	2021	2020
Land	1.18%	1.18%

c. Material leasing activities and terms

The Corporation leases land for the use of plants, office spaces and warehouses with lease terms of 10 years from the Export Processing Zone Administration, MOEA of the ROC. Based on the lease, the variable lease payments are dependent on the Taiwan consumer price index of the year before the lease. The Corporation does not have bargain purchase options to acquire the leasehold land and buildings at the end of the lease term. In addition, the Corporation is prohibited from subleasing or transferring all or any portion of the underlying assets without the lessor's consent.

d. Other lease information

	For the Year Ended December 31	
	2021	2020
Expenses relating to short-term leases	\$ 79,285	\$ 70,447
Total cash outflow for leases	\$ (98,016)	\$ (87,338)

The Corporation's leases of certain buildings, office equipment and transportation equipment which qualify as short-term leases. The Corporation has elected to apply the recognition exemption and thus, did not recognize right-of-use assets and lease liabilities for these leases.

14. OTHER ASSETS

	December 31	
	2021	2020
Office supplies	\$ 304,700	\$ 271,257
Prepaid expenses and prepayment for purchases	32,352	27,891
Refundable deposits	29,616	28,099
Other receivables	17,341	17,825
Others	3,439	3,993
	<u>\$ 387,448</u>	<u>\$ 349,065</u>
Current	\$ 355,305	\$ 316,973
Non-current	32,143	32,092

\$ 387,448 \$ 349,065

The movements of the loss allowance of other receivables were as follows:

	<u>For the Year Ended December 31</u>	
	2021	2020
Balance at January 1	\$ 6,596	\$ -
Add: Impairment loss	<u>-</u>	<u>6,596</u>
Balance at December 31	<u>\$ 6,596</u>	<u>\$ 6,596</u>

15. BORROWINGS

a. Short-term borrowings

	<u>December 31</u>	
	2021	2020
<u>Unsecured borrowings</u>		
Line of credit borrowings	\$ 2,067,000	\$ 1,390,000
Loans for purchasing raw materials	<u>-</u>	<u>24,376</u>
	<u>\$ 2,067,000</u>	<u>\$ 1,414,376</u>
<u>Rate of interest per annum (%)</u>		
Line of credit borrowings	0.55-0.70	0.72-0.75
Loans for purchasing raw materials	-	1.06

b. Short-term bills payable

	<u>December 31</u>	
	2021	2020
Commercial paper	<u>\$ 1,200,000</u>	<u>\$ 3,100,000</u>
<u>Rate of interest per annum (%)</u>		
Commercial paper	0.56-0.58	0.56-0.60

c. Long-term borrowings

	December 31	
	2021	2020
Line of credit borrowings - October 2023 to July 2026	\$ 4,871,257	\$ 6,511,048
Less: Current portion	(955,744)	(46,980)
Discounts on government grants (Note 23)	(52,581)	(54,362)
Bill of credit borrowings - June 2025	<u>1,000,000</u>	<u>-</u>
Long-term borrowings	<u>\$ 4,862,932</u>	<u>\$ 6,409,706</u>
<u>Rate of interest per annum (%)</u>		
Line of credit borrowings	0.10-0.93	0.10-1.30
Bill of credit borrowings	0.708	-

16. BONDS PAYABLE

	December 31	
	2021	2020
Unsecured domestic bonds	\$ 6,000,000	\$ 3,000,000
Less: Bonds discount	<u>(6,687)</u>	<u>(2,596)</u>
	<u>\$ 5,993,313</u>	<u>\$ 2,997,404</u>

On November 26, 2021, the Corporation issued five-year unsecured domestic bonds for a total of \$3,000,000 thousand with a coupon rate of 0.75% and an effective interest rate of 0.7862%. The principal is repayable in cash upon maturity (November 26, 2026).

On April 27, 2018, the Corporation issued five-year unsecured domestic bonds for a total of \$3,000,000 thousand with a coupon rate of 1.07% and an effective interest rate of 1.1079%. The principal is repayable in cash upon maturity (April 27, 2023).

17. OTHER LIABILITIES - OTHERS

	December 31	
	2021	2020
Payables for salaries	\$ 187,327	\$ 172,986
Payables for purchases of equipment	123,885	83,596
Payables for bonus to employees	37,433	33,066
Payables for annual leave	27,096	25,305
Advance receipts	24,151	24,363
Payables for remuneration of directors	17,294	14,586
Others	<u>262,035</u>	<u>213,225</u>
	<u>\$ 679,221</u>	<u>\$ 567,127</u>

18. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

The Corporation adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, the Corporation makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

b. Defined benefit plans

The defined benefit plans adopted by the Corporation in accordance with the Labor Standards Act is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the six months before retirement. The Corporation contribute amounts equal to 2% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Corporation assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Corporation is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Corporation has no right to influence the investment policy and strategy.

The amounts included in the balance sheets in respect of the Corporation's defined benefit plans are as follows:

	December 31	
	2021	2020
Present value of defined benefit obligation	\$ 136,562	\$ 138,480
Fair value of plan assets	<u>(133,418)</u>	<u>(124,484)</u>
Net defined benefit liabilities	<u>\$ 3,144</u>	<u>\$ 13,996</u>

Movements in net defined benefit liabilities were as follows:

	Present Value of the Defined Benefit Obligation	Fair Value of the Plan Assets	Net Defined Benefit Liabilities
Balance at January 1, 2020	<u>\$ 139,598</u>	<u>\$ (118,458)</u>	<u>\$ 21,140</u>

Net interest expense (income)	<u>484</u>	<u>(456)</u>	<u>28</u>
Recognized in profit or loss	<u>905</u>	<u>(456)</u>	<u>449</u>
Remeasurement			
Return on plan assets (excluding amounts included in net interest)	-	(1,764)	(1,764)
Actuarial loss - changes in demographic assumptions	5,272	-	5,272
Actuarial gain - changes in financial assumptions	(3,678)	-	(3,678)
Actuarial loss - experience adjustments	<u>1,189</u>	<u>-</u>	<u>1,189</u>
Recognized in other comprehensive income	<u>2,783</u>	<u>(1,764)</u>	<u>1,019</u>
Contributions from the employer	-	(12,320)	(12,320)
Benefits paid	<u>(5,606)</u>	<u>5,606</u>	<u>-</u>
Balance at December 31, 2021	<u>\$ 136,562</u>	<u>\$ (133,418)</u>	<u>\$ 3,144</u> (Concluded)

Through the defined benefit plans under the Labor Standards Act, the Corporation is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the corporate bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plans' debt investments.
- 3) Salary risk: The present value of the defined benefit obligation is calculated by using the future salaries of plan participants. As such, an increase in the salaries of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations are as follows:

	December 31	
	2021	2020
Discount rate(s)	0.750%	0.350%
Expected rate(s) of salary increase	1.125%	1.125%

If possible reasonable changes in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation will increase (decrease) as follows:

	December 31	
	2021	2020
Discount rate		
0.25% increase	\$ (2,351)	\$ (2,471)
0.25% decrease	\$ 2,420	\$ 2,547
Expected rate of salary increase/decrease		
0.25% increase	\$ 2,331	\$ 2,439
0.25% decrease	\$ (2,276)	\$ (2,379)

The above sensitivity analysis may not be representative of the actual changes in the present value of the defined benefit obligation as it is unlikely that the changes in assumptions will occur in isolation of one another as some of the assumptions may be correlated.

	December 31	
	2021	2020
Expected contributions to the plans for the next year	\$ 12,320	\$ 11,843
Average duration of the defined benefit obligation	9 years	9 years

19. EQUITY

a. Share capital

	December 31	
	2021	2020
Shares authorized (in thousands of shares)	350,000	350,000
Shares authorized	\$ 3,500,000	\$ 3,500,000
Shares issued and fully paid (in thousands of shares)	287,786	287,786
Shares issued	\$ 2,877,859	\$ 2,877,859

b. Capital surplus

	December 31	
	2021	2020
Arising from issuance of common shares (1)	\$ 4,841,447	\$ 4,841,447
The difference between consideration received or paid and the carrying amount of the subsidiaries' net assets during actual disposal or acquisition (1)	353,848	353,848
Other (2)	200,277	200,277
	<u>\$ 5,395,572</u>	<u>\$ 5,395,572</u>

- 1) The capital surplus from shares issued in excess of par (additional paid-in capital from issuance of common shares) and the difference between the consideration received or paid and the carrying amount of the subsidiaries' net assets during actual disposal or acquisition may be used to offset a deficit; in addition, when the Corporation has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Corporation's paid-in capital and to once a year).
 - 2) Such capital surplus may be used to offset a deficit.
- c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Articles, where the Corporation made a profit after tax in a fiscal year, the profit shall be first utilized for offsetting cumulative losses, setting aside as legal reserve 10% of the remaining profit until the accumulated legal capital reserve equals the Corporation's paid-in capital, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Corporation's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. For the policies on the distribution of compensation of employees and remuneration of directors after the amendment, please refer to compensation of employees and remuneration of directors in Note 20-d.

The dividends and bonuses, capital surplus, or legal reserve can be distributed in the whole or in part by cash after a resolution has been adopted by a majority of directors present at a meeting of the board of directors attended by two-thirds of the total number of directors; in addition, a report of such distribution shall be submitted to the shareholder's meeting.

The dividends policy of the Corporation shall be made according to the Corporation's current and future plan, considering investment environment, fund requirements, overall competition and taking into account the interests of shareholders. The Corporation may appropriate more than 30% of net profits of current year for dividends to shareholders. However, when accumulated unappropriated earnings are less than 10% of capital, the Corporation may decide not to distribute dividend.

The shareholders' dividends shall be distributed in the form of cash dividends or share dividends. More than (or equal to) 50% of the total amount of shareholders' dividends shall be in the form of cash dividends.

The legal reserve may be used to offset deficits. If the Corporation has no deficit and the legal reserve has exceeded 25% of the Corporation's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of cash dividends per share for 2020 and 2019 were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For the Year Ended December 31		For the Year Ended December 31	
	2020	2019	2020	2019
Legal reserve	\$ 151,030	\$ 138,104		
Special reserve	356,137	209,737		
Cash dividends	1,036,029	878,637	\$3.60	\$3.05

The appropriation of earnings as cash dividends has been resolved by the Corporation's board of directors in March 2021 and March 2020, the other proposed appropriations will be resolved by the shareholders in their meetings in July 2021 and June 2020.

The appropriation of earnings for 2021, which was proposed/resolved by the Corporation's board of directors on March 22, 2022, was as follows:

	Appropriation of Earnings	Dividends Per Share (NT\$)
<u>Proposed</u>		
Legal reserve	\$ 196,428	
Special reserve	544,040	
<u>Resolved</u>		
Cash dividends	\$ 1,237,479	\$ 4.30

The appropriation of earnings as cash dividends as listed above had been resolved by the Corporation's board of directors; the other proposed appropriations will be resolved by the shareholders in their meeting to be held on June 17, 2022.

d. Special reserves

The increase in retained earnings that resulted from all IFRSs adjustments was not enough for this appropriation; therefore, the Corporation appropriated to the special reserve an amount of \$352,668 thousand, the increase in retained earnings that resulted from all IFRSs adjustments on transitions to IFRSs.

Additional special reserve should be appropriated for the amount equal to the difference between net debit balance reserves and the special reserve appropriated on the first-time adoption of IFRSs. Any special reserve appropriated may be reversed to the extent that the net debit balance reverses and is thereafter distributed.

e. Treasury shares

Purpose of Buy-back	Number of Shares at January 1	Increase During the Year	Decrease During the Year	Number of Shares at December 31
<u>For the Year Ended</u> <u>December 31, 2020</u>				
Shares cancelled	_____ -	<u>5,093,000</u>	<u>(5,093,000)</u>	_____ -

In order to maintain the Corporation's creditworthiness and protect shareholders' interests, the Corporation's board of directors resolved in March 2020 to buy back and cancel 5,093 thousand treasury shares in accordance with Article 28-2 of the Securities and Exchange Act. As of December 31, 2020, the shares had been fully repurchased and the cost of the repurchase was \$277,423 thousand. On June 30, 2020, the treasury shares were cancelled and the registration of the change was completed in July 2020.

Under the Securities and Exchange Act, the Corporation shall neither pledge treasury shares nor exercise shareholders' rights on these shares, such as the rights to dividends and to vote.

20. NET PROFIT FROM CONTINUING OPERATIONS

Net profit (loss) from continuing operations includes the following items:

a. Other gains and losses

	For the Year Ended December 31	
	2021	2020
Loss on disposal of property, plant and equipment	\$ (995)	\$ (745)
Gain on valuation of financial assets and liabilities at FVTPL	674	2,270
Miscellaneous income	32,891	26,516
Other losses	-	(13,537)
	<u>\$ 32,570</u>	<u>\$ 14,504</u>

b. Finance costs

	For the Year Ended December 31	
	2021	2020
Interest on bank	\$ 65,370	\$ 76,470
Interest on convertible bonds	35,492	33,196
Interest on lease liabilities	4,108	3,729
Other interest expenses (Note 23)	<u>19,133</u>	<u>11,303</u>
	<u>\$ 124,103</u>	<u>\$ 124,698</u>

c. Employee benefits expense, depreciation and amortization expenses

	For the Year Ended December 31					
	2021			2020		
	Operating Costs	Operating Expenses	Total	Operating Costs	Operating Expenses	Total
Employee benefits expense						
Payroll expense	\$ 724,390	\$ 306,314	\$ 1,030,704	\$ 692,547	\$ 287,439	\$ 979,986
Labor and health insurance expense	65,929	24,652	90,581	59,361	22,003	81,364
Pension expense	25,407	9,994	35,401	24,346	9,633	33,979
Other employee benefits expense	4,716	11,371	16,087	1,946	11,539	13,485
Remuneration of directors	-	17,294	17,294	-	14,586	14,586
Depreciation expenses	643,486	78,779	722,265	548,492	81,424	629,916
Amortization expenses	1,885	1,168	3,053	1,885	545	2,430

For the years ended December 31, 2021 and 2020, the average number of employees of the Corporation was 1,537 and 1,533, respectively, which included both 5 non-employee directors. The calculation basis is consistent with employee benefits expense.

For the years ended December 31, 2021 and 2020, the average employee benefits expense was \$766 and \$726 thousand, respectively. For the years ended December 31, 2021 and 2020, the average employee

salary was \$673 and \$641 thousand, respectively. The average employee salary increased by 5% year-on-year.

The remuneration policies are based on the Corporation's operational conditions, the industry standard, and the organizational position, and may be adjusted based on the overall economy, industrial environment and government regulations. Compensation of individual employees is determined based on his/her role, experience, professional abilities, and individual performance. A reasonable and fair policy for performance appraisal is also set up as the basis for the promotions, rotations, compensation adjustments and year-end bonuses. In addition, the Corporation allocates a certain percentage of the total amount of performance bonus payable annually based on the Corporation's profit. After the amount is being reviewed by the remuneration committee and the audit committee and approved by the board of directors, employees that meet certain performance standards will be paid according to their assessed performance. The remuneration of directors is made in accordance with the provisions of the Corporation. After the end of the year, the remuneration of directors is calculated in accordance with its regulations, and reported to the shareholders in their meeting after being reviewed by the remuneration committee and approved by the board of directors.

d. Compensation of employees and remuneration of directors

The Corporation accrued compensation of employees and remuneration of directors at the rates of no less than 1% and no higher than 3%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors. The compensation of employees and remuneration of directors for the years ended December 31, 2021 and 2020 which have been approved by the Corporation's board of directors on March 22, 2022 and March 23, 2021, respectively, were as follows:

	For the Year Ended December 31			
	2021		2020	
	%	Cash	%	Cash
Compensation of employees	1.70%	\$ 37,433	1.78%	\$ 33,066
Remuneration of directors	0.79%	17,294	0.79%	14,586

If there is a change in the amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There is no difference between the actual amounts of compensation of employees and remuneration of directors paid and the amounts recognized in the financial statements for the year ended December 31, 2020 and 2019.

Information on the compensation of employees and remuneration of directors resolved by the Corporation's board of directors in 2022 and 2021 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

21. INCOME TAXES

a. Major components of tax expense recognized in profit or loss

	For the Year Ended December 31	
	2021	2020
Current tax		
In respect of the current year	\$ 176,733	\$ 171,726
Adjustments for prior year	6,565	(18,195)

Deferred tax		
In respect of the current year	<u>(3,563)</u>	<u>(329)</u>
Income tax expense recognized in profit or loss	<u>\$ 179,735</u>	<u>\$ 153,202</u>

A reconciliation of accounting profit and income tax expenses is as follows:

	For the Year Ended December 31	
	2021	2020
Income tax expense calculated at the statutory rate	\$ 428,893	\$ 361,723
Nondeductible expenses in determining taxable income	20	25
Deductible items in determining taxable income	-	(209)
Unrecognized deductible temporary differences	(252,139)	(185,913)
Tax-exempt income	(3,604)	(4,229)
Adjustments for prior years' tax	<u>6,565</u>	<u>(18,195)</u>
Income tax expense recognized in profit or loss	<u>\$ 179,735</u>	<u>\$ 153,202</u>

b. Income tax recognized in other comprehensive income

	For the Year Ended December 31	
	2021	2020
Deferred tax		
In respect of current period		
- Remeasurement of defined benefit plans	<u>\$ 204</u>	<u>\$ 1,078</u>

c. Deferred tax assets and liabilities

	For the Year Ended December 31, 2021			
	Opening Balance	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Closing Balance
<u>Deferred tax assets</u>				
Temporary differences				
Defined benefit obligation	\$ 2,799	\$ (2,374)	\$ 204	\$ 629
Others	<u>4,302</u>	<u>5,937</u>	<u>-</u>	<u>10,239</u>
	<u>\$ 7,101</u>	<u>\$ 3,563</u>	<u>\$ 204</u>	<u>\$ 10,868</u>
<u>Deferred tax liabilities</u>				
Temporary differences				
Reserve for land value increment tax	<u>\$ 24,283</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 24,283</u>

For the Year Ended December 31, 2020

	Opening Balance	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Closing Balance
<u>Deferred tax assets</u>				
Temporary differences				
Defined benefit obligation	\$ 4,228	\$ (2,507)	\$ 1,078	\$ 2,799
Others	<u>2,395</u>	<u>1,907</u>	<u>-</u>	<u>4,302</u>
	<u>\$ 6,623</u>	<u>\$ (600)</u>	<u>\$ 1,078</u>	<u>\$ 7,101</u>
<u>Deferred tax liabilities</u>				
Temporary differences				
Reserve for land value increment tax	\$ 24,283	\$ -	\$ -	\$ 24,283
Others	<u>929</u>	<u>(929)</u>	<u>-</u>	<u>-</u>
	<u>\$ 25,212</u>	<u>\$ (929)</u>	<u>\$ -</u>	<u>\$ 24,283</u>

- d. The aggregate amount of temporary differences associated with investments for which deferred tax liabilities have not been recognized.

As of December 31, 2021 and 2020, the taxable temporary differences associated with investments in subsidiaries for which no deferred tax liabilities have been recognized were \$703,935 thousand and \$559,930 thousand, respectively.

- e. Income tax assessments

Income tax returns of the Corporation through 2019 have been assessed by the tax authorities.

22. EARNINGS PER SHARE

	Net Profit Attributable to Owners of the Corporation	Number of Shares (In Thousands)	Earnings Per Share (NT\$)
<u>For the year ended December 31, 2021</u>			
Basic earnings per share			
Net profit attributable to owners of the Corporation	\$ 1,964,731	287,786	<u>\$ 6.83</u>
Effect of potentially dilutive ordinary shares			
Compensation of employees	<u>-</u>	<u>632</u>	

Diluted earnings per share

Net profit attributable to owners of the Corporation adding effect of potentially dilutive ordinary shares

\$ 1,964,731 288,418 \$ 6.81

Net Profit Attributable to Owners of the Corporation	Number of Shares (In Thousands)	Earnings Per Share (NT\$)
---	--	--

For the year ended December 31, 2020

Basic earnings per share

Net profit attributable to owners of the Corporation

\$ 1,655,412 289,585 \$ 5.72

Effect of potentially dilutive ordinary shares
Compensation of employees

- 696

Diluted earnings per share

Net profit attributable to owners of the Corporation adding effect of potentially dilutive ordinary shares

\$ 1,655,412 290,281 \$ 5.70

The Corporation may settle the compensation of employees in cash or shares; therefore, the Corporation assumes that the entire amount of the compensation will be settled in shares, and the resulting potential shares are included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

23. GOVERNMENT GRANTS

Except as disclosed in other notes, the following government grants were received by the Corporation:

As of December 31, 2021, according to the “Action Plan for Welcoming Overseas Taiwanese Businesses to Return to Invest in Taiwan” made by the government, the Corporation borrowed \$3,047,659 thousand from the National Development Fund with an preferential interest rate for its operation and purchase of equipment. The loan is expected to be settled within 5 to 7 years in equal installments. Using the prevailing market interest rates of 0.85%-1.35% for an equivalent loan, the fair value of the loan was estimated at \$2,963,289 thousand on initial recognition. The difference of \$84,370 thousand between the proceeds and the fair value of the loan is viewed as a government grants derived from an interest-free loan and is recognized as deferred revenue, which will be subsequently transferred to profit or loss over time. For the year ended December 31, 2021, the amount recognized in other revenue was \$13,048 thousand and interest expense recognized on this loan was \$19,133thousand.

If the Corporation fails to comply the loan regulations, and the National Development Fund terminates the grants, the Corporation will pay the loan with the original agreed interest rate plus the annual interest rate.

24. CAPITAL MANAGEMENT

The Corporation manages its capital to ensure that Corporation will be able to continue a going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Corporation consists of net debt (borrowings offset by cash and cash equivalents) and equity attributable to owners of the Corporation (comprising issued capital, reserves, retained earnings and other equity).

Key management personnel of the Corporation review the capital structure on a quarterly basis. As part of this review, the key management personnel consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the key management personnel, in order to balance the overall capital structure, the Corporation may adjust the amount of dividends paid to shareholders, the number of new shares issued or repurchased, and/or the amount of new debt issued or existing debt redeemed.

25. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments measured at fair value on a recurring basis

1) Fair value hierarchy

	Level 1	Level 2	Level 3	Total
<u>December 31, 2021</u>				
Financial assets at fair value through other comprehensive income				
Equity investments				
Unlisted shares	\$ -	\$ -	\$ 24,894	\$ 24,894
<u>December 31, 2020</u>				
Financial assets at fair value through profit or loss (FVTPL)				
Domestic convertible bonds	\$ 16,640	\$ -	\$ -	\$ 16,640
Financial liabilities at fair value through profit or loss (FVTPL)				
Foreign exchange forward contracts	\$ -	\$ 1,119	\$ -	\$ 1,119
Financial assets at fair value through other comprehensive income				
Equity investments				
Unlisted shares	\$ -	\$ -	\$ 27,897	\$ 27,897

There were no transfers between Level 1 and 2 in the current and prior years.

2) Valuation techniques and assumptions applied for fair value measurement

- a) The fair value of financial instruments with standard conditions and traded in active market, including listed shares and emerging market shares, is decided based on the market price.

- b) The fair values of foreign exchange forward contracts are determined using the discounted cash flow method. Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.
- c) The unlisted equity investments at fair value through other comprehensive income are all measured at Level 3. The fair values of unlisted equity investments are determined using price-to-book ratio approach. In this approach, according to the financial information of the companies, both net book value per share calculated and share price estimated by comparing share price or P/E ratio with similar companies were used to capture the present value of the expected future economic benefits to be derived from the ownership of these investments.
- 3) Reconciliation of Level 3 fair value measurements of financial instruments

Financial assets at fair value through other comprehensive income - equity instruments

	For the Year Ended December 31	
	2021	2020
Balance at January 1	\$ 27,897	\$ 35,399
Recognized in other comprehensive income (included in unrealized gain (loss) on financial assets at FVTOCI)	(3,003)	(3,502)
Return of capital due to capital reduction of invested companies	-	(4,000)
Balance at December 31	<u>\$ 24,894</u>	<u>\$ 27,897</u>

b. Categories of financial instruments

	December 31	
	2021	2020
<u>Financial assets</u>		
Mandatorily classified as at FVTPL	\$ -	\$ 16,640
Financial assets at amortized cost		
Cash and cash equivalents	911,993	380,172
Notes receivable and trade receivables	1,207,403	953,867
Financial assets at fair value through other comprehensive income - equity investments	24,894	27,897
Other receivables	17,341	17,825
Refundable deposits	29,616	28,099
<u>Financial liabilities</u>		
Hold for trading at FVTPL	-	1,119
Amortized cost		
Short-term borrowings	2,067,000	1,414,376
Short-term bills payable	1,200,000	3,100,000
Notes payable and trade payables	387,597	414,201
Bonds payable	5,993,313	2,997,404
Long-term borrowings (including current portion)	5,818,676	6,456,686
Other payables	385,920	296,821
Guarantee deposits received	4,250	5,250

c. Financial risk management objectives and policies

The Corporation's major financial instruments include equity and debt investments, trade receivables, trade payables, borrowings and bonds payable. The Corporation's corporate treasury function identifies and assesses the risks and manages market uncertainties with the objective of reducing the potentially adverse effects that market fluctuations may have on its financial performance. These risks include market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk.

The Corporation's corporate treasury function evaluates, on a quarterly basis, whether the use of financial derivatives is governed by the Corporation's policies that were approved by the board of directors. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis. The Corporation did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

1) Market risk

The Corporation's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Corporation entered into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk. There has been no change to the Corporation's exposure to market risks or the manner in which these risks are managed and measured.

Foreign currency risk

The Corporation has foreign currency denominated sales and purchases, which expose the Corporation to foreign currency risk. Exchange rate exposures are managed within approved policy parameters utilizing foreign exchange forward contracts. The use of financial derivatives would reduce the influence of foreign exchange risk but could not completely eliminate the risk.

The carrying amounts of the Corporation's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) at the end of the reporting period are set out in Note 28.

Sensitivity analysis

The Corporation is mainly exposed to the USD and JPY.

The Corporation's sensitivity to a 1% increase and decrease in NTD (the functional currency) against the relevant foreign currencies represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items. The sensitivity analysis included external borrowings as well as loans to foreign operations within the Corporation where the denomination of the loan is in a currency other than the functional currency of the lender or the borrower. Assuming a 1% strengthening in the NTD against the USD, the pre-tax profit for the years ended December 31, 2021 and 2020 would have decreased by \$7,797 thousand and \$2,378 thousand, respectively. Assuming a 1% strengthening in the NTD against the JPY, the pre-tax profit for the years ended December 31, 2021 and 2020 would have decreased by \$1,525 thousand and \$904 thousand, respectively.

Interest rate risk

The carrying amounts of the Corporation's financial assets and financial liabilities with exposure to interest rates were as follows:

December 31	
2021	2020

Fair value interest rate risk		
Financial liabilities	\$ 7,535,555	\$ 6,454,269
Cash flow interest rate risk		
Financial liabilities	7,885,676	7,871,062

Sensitivity analysis

The sensitivity analysis below was determined based on the Corporation's exposure to interest rates for both derivative and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of each liability outstanding at the end of the reporting period was outstanding for the whole year. A 0.125% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been raised by 0.125% higher and all other variables were held constant, the Corporation's pre-tax profit for the years ended December 31, 2021 and 2020 would decrease by \$9,857 thousand and \$9,839 thousand, respectively.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Corporation. At the end of the reporting period, the Corporation's maximum exposure to credit risk, which would cause a financial loss to the Corporation due to the failure of the counterparty to discharge its obligation and due to the financial guarantees provided by the Corporation, is arising from:

- The carrying amount of the respective recognized financial assets as stated in the balance sheets; and
- The maximum amount the entity would have to pay if the financial guarantee is called upon, irrespective of the guarantee being exercised.

Trade receivables consist of a large number of customers, which spread across diverse industries and geographical areas. On-going credit evaluation is performed on the financial condition of trade receivables. The Corporation's concentrations of credit risk regarding top 5 customers were 49% and 50%, respectively, in total trade receivables as of December 31, 2021 and 2020. No other concentration of credit risk was observed.

3) Liquidity risk

The Corporation manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Corporation's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Corporation relies on bank borrowings as a significant source of liquidity. As of December 31, 2021 and 2020, the Corporation had available unutilized short-term bank loan facilities of \$13,130,381 thousand and \$9,302,648 thousand, respectively.

The following table has been drawn up based on the undiscounted cash flows of financial liabilities from the due date.

	Less Than 1 Year	1-5 Years	5+ Years
<u>December 31, 2021</u>			
Non-derivative financial liabilities			
Borrowings	\$ 3,022,744	\$ 4,862,932	\$ -
Short-term bills payable	1,200,000	-	-
Non-interest bearing liabilities	387,597	-	-
Bonds payable	-	5,993,313	-
Lease liabilities	<u>18,735</u>	<u>70,514</u>	<u>314,739</u>
	<u>\$ 4,629,076</u>	<u>\$10,926,759</u>	<u>\$ 314,739</u>
<u>December 31, 2020</u>			
Non-derivative financial liabilities			
Borrowings	\$ 1,461,356	\$ 6,048,367	\$ 361,339
Short-term bills payable	3,100,000	-	-
Non-interest bearing liabilities	414,201	-	-
Bonds payable	-	2,997,404	-
Lease liabilities	<u>18,735</u>	<u>74,151</u>	<u>329,838</u>
	<u>\$ 4,994,292</u>	<u>\$ 9,119,922</u>	<u>\$ 691,177</u>
Derivative financial liabilities			
Foreign exchange forward contracts	<u>\$ 1,119</u>	<u>\$ -</u>	<u>\$ -</u>

Further information on the maturity analysis of the above financial liabilities was as follows:

b. Business transaction

	For the Year Ended December 31	
	2021	2020
<u>Sales of goods</u>		
Subsidiary	\$ 76,665	\$ 63,280
<u>Purchases of goods</u>		
Subsidiary	\$ 129,512	\$ 109,143

The prices of raw materials and supplies, work in process and equipment parts sold by the Corporation to its subsidiaries are generally based on a markup of cost, and the price of the finished goods is adjusted according to the market price. Payment for the goods is made by telegraphic transfer within 180 days from the closing of the month.

The price of sales to related parties and collection terms approximated those for third parties.

	December 31	
	2021	2020
<u>Accounts receivable</u>

Post-employment benefits	<u>157</u>	<u>235</u>
	<u>\$ 58,229</u>	<u>\$ 50,143</u>

The remuneration of directors and key executives, as determined by the remuneration committee, is based on the performance of individuals and market trends.

27. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant contingencies and unrecognized commitments of the Corporation at December 31, 2021 and 2020 were as follows:

- a. As of December 31, 2021 and 2020, unused letters of credit for purchases of raw materials and machinery and equipment amounted to approximately \$222,025 thousand and \$291,501 thousand, respectively.
- b. Unrecognized commitments were as follows:

	December 31	
	2021	2020
Acquisition of property, plant and equipment	<u>\$ 955,559</u>	<u>\$ 316,376</u>

28. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by the foreign currencies other than functional currencies of the Corporation and the exchange rates between foreign currencies and respective functional currencies were disclosed. The significant assets and liabilities denominated in foreign currencies were as follows:

December 31						
2021			2020			
Foreign Currency	Exchange Rate	New Taiwan Dollars	Foreign Currency	Exchange Rate	New Taiwan Dollars	
<u>Financial assets of monetary items</u>						
USD	\$ 28,972	27.68	\$ 11,102	28.48	\$ 316,185	
JPY	634,286	0.24	327,164	0.28	90,395	
<u>Investments accounted for using the equity method</u>						
USD	720,455	27.68	686,785	28.48	19,559,638	
<u>Financial liabilities of monetary items</u>						
USD	804	27.68	2,753	28.48	78,405	

The significant unrealized foreign exchange gains (losses) were as follows:

For the Year Ended December 31				
2021			2020	
Foreign Currency	Exchange Rate	Net Foreign Exchange Losses	Exchange Rate	Net Foreign Exchange Losses
USD	28.01 (USD:NTD)	\$ (9,371)	29.55 (USD:NTD)	\$ (3,136)
JPY	0.26 (JPY:NTD)	(15,281)	0.28 (JPY:NTD)	(188)
EUR	33.16 (EUR:NTD)	<u>22</u>	33.71 (EUR:NTD)	<u>(579)</u>
		<u>\$ (24,630)</u>		<u>\$ (3,903)</u>

29. OTHER ITEMS

Environmental Protection Bureau of Taichung City Government (“Environmental Protection Bureau”), Environmental Protection Administration Executive Yuan, R.O.C. (Taiwan), and Taichung District Prosecutors Office (“Taichung Prosecutors Office”) collectively inspected the label factories of the Corporation and discovered that the air pollution control equipment was not functioning properly. As a result, Environmental Protection Bureau issued Letter No. 1070126655 with fine notifications No. 20-107-110002 and No. 20-107-110003 which amounted to \$20,200 thousand fine. The Corporation paid the fine and recognized the amount as other losses under non-operating income and expenses in the current year. The Corporation appointed a lawyer to appeal for an administrative remedy. This case was denied by the Supreme Administrative Court on November 25, 2021, and the case was concluded.

Because of the abovementioned event, Environmental Protection Bureau issued Letter No. 1080045552 on May 2, 2019 for the air pollution charge of \$125,869 thousand from the third quarter of 2013 through the second quarter of 2018. The Corporation paid the fine and recognized the amount as other losses under non-operating income and expenses in the first half of 2019. The Corporation appointed a lawyer to appeal to Taichung High Administrative Court for administrative litigation. The Taichung High Administrative Court announced the first-instance verdict that the Corporation lost the trial, and the case was appealed to the Supreme Administrative Court and is currently under trial. The investigation of the case was closed by the Taichung District Prosecutors Office on September 20, 2019. In addition to ordering the Corporation to pay the unlawful income of \$77,299 thousand, which was the air pollution charge from the fourth quarter of 2010 through the second quarter of 2018, the prosecutors charged 19 persons, including the Corporation, for indictable offense due to violation of Air Pollution Control Act. The case underwent a trial in the Taichung District Court. The Corporation paid the aforementioned unlawful income and recognized the amount as other losses under non-operating income and expenses in 2019.

30. SEPARATELY DISCLOSED ITEMS

a. Information about significant transactions and investees:

- 1) Financing provided to others. (Table 1)
- 2) Endorsements/guarantees provided. (Table 2)
- 3) Marketable securities held (excluding investments in subsidiaries, associates and joint controlled entities). (Table 3)
- 4) Marketable securities acquired or disposed of costs or prices at least NT\$300 million or 20% of the paid-in capital. (Table 4)
- 5) Acquisition of individual real estate at costs of at least NT\$300 million or 20% of the paid-in capital. (Table 5)
- 6) Disposal of individual real estate at prices of at least NT\$300 million or 20% of the paid-in capital. (None)
- 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital. (None)
- 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital. (Table 6)
- 9) Trading in derivative instruments. (Note 7)
- 10) Information on investees. (Table 7)

b. Information on investments in mainland China

- 1) Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the period, repatriations of investment income, and limit on the amount of investment in the mainland China area. (Table 8)
- 2) Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses:

- a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period. (None)
 - b) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the period. (None)
 - c) The amount of property transactions and the amount of the resultant gains or losses. (None)
 - d) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes. (Table 2)
 - e) The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds. (Table 1)
 - f) Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receiving of services. (None)
- c. Information of major shareholders: list all shareholders with ownership of 5% or greater showing the name of the shareholder, the number of shares owned, and percentage of ownership of each shareholder: (None).

6.6 Financial difficulties, if any, encountered by the Company and its affiliated companies in the most recent year and up to the publication of the annual report, and its impact on the Company's financial status: None.

7. Review and Analysis of Financial Conditions and Performance and Risk Management

7.1 Financial Status

Financial Status Analysis

Unit: NTD\$ Thousand

Item \ Year	2021	2020	Increase (Decrease) Amount	Change Ratio (%)	Change Analysis
Current Assets	12,902,873	10,608,001	2,294,872	21.63	1
Property, Plant and Equipment	17,197,599	16,654,786	542,813	3.26	-
Intangible Assets	347,622	350,327	(2,705)	(0.77)	-
Other Assets	3,095,923	4,079,396	(983,473)	(24.11)	2
Total Assets	33,544,017	31,692,510	1,851,507	5.84	-
Current Liabilities	7,806,355	6,981,922	824,433	11.81	-
Non-current Liabilities	11,547,419	10,826,683	720,736	6.66	-
Total Liabilities	19,353,774	17,808,605	1,545,169	8.68	-
Capital Stock	2,877,859	2,877,859	0	0.00	-
Additional Paid-in Capital	5,395,572	5,395,572	0	0.00	-
Retained Earning	8,042,009	7,113,755	928,254	13.05	-
Non-controlling Equity	730,018	807,894	(77,876)	(9.64)	-
Other Equity	(2,855,215)	(2,311,175)	(544,040)	23.54	3
Treasury Shares	0	0	0		-
Total Equity	14,190,243	13,883,905	306,338	2.21	-

Please explain the variation reason for which exceeding 20%:

1. Increase in Current Assets: Mainly due to the increase in accounts receivable and inventories on December 31, 2021, compared with the same period a year ago.
2. Decrease in Other Assets: Mainly due to prepayments for equipments transferred to fixed assets, so it decreases.
3. Decrease in Other Equity: Due to TWD against USD or other currency has sharply appreciated and translation of subsidiaries statements into New Taiwan Dollars, the amount of cumulative translation adjustments declines.

7.2 Analysis of Financial Performance

7.2.1 Financial performance analysis

Unit: NTD\$ Thousand

Year Item	2021	2020	Increase (Decrease) Amount	Change Ratio (%)	Change Analysis
Net Sales	21,382,534	19,348,249	2,034,285	10.51	-
Cost of Goods Sold	16,471,847	15,242,548	1,229,299	8.06	-
Gross Profit	4,910,687	4,105,701	804,986	19.61	-
Operating Expense	2,082,715	1,915,855	166,860	8.71	-
Profit From Operation	2,827,972	2,189,846	638,126	29.14	-
Non-operating Income and Expense	(122,999)	(34,533)	(88,466)	256.18	1
Profit Before Income Tax	2,704,973	2,155,313	549,660	25.50	-
Income Tax	676,615	424,573	252,042	59.36	2
Net Income	2,028,358	1,730,740	297,618	17.20	-
Other Comprehensive Income	(629,692)	(364,883)	(264,809)	72.57	3
Total Comprehensive Income of This Year	1,398,666	1,365,857	32,809	2.40	-
Please explain the variation reason for which exceeding 20%: 1. Decrease in Non-operating Income and Expense: Mainly due to the reduction of Chinese government subsidies by approximately NT\$ 43,000 thousand in 2021, and the loss of about NTD\$ 25,000 thousand from the disposal of idle fixed assets in China in 2021. 2. Increase in Income Tax: Mainly due to the rise in revenue in 2021 compared to 2020, resulting in an increase in gross profit and profit before income tax. 3. Decrease in Other Comprehensive Income: Due to the influence of cumulative translation adjustment of this year.					

7.2.2 Forecasts of sales volumes and supportive sources, its impact on the Company's financial and operational situations and action plan

The forecast of sales volumes is based upon industrial tendency, demand and supply conditions in food and beverage sectors, taking into consideration of sales of various products and clients' changes. For the coming year, we do not foresee any material changes and can properly cope with financial and business situations. For the sales volumes in the future, please refer to Page 5 "2022 Projected sales volume and its reference".

7.3 Analysis of Cash Flow

7.3.1 Liquidity Analysis within the last 2 years

Item \ Year	2021	2020	Different (%)
Cash Flow Ratio (%)	46.2	60.48	(23.61)
Cash Flow Adequacy Ratio (%)	91.2	104.04	(12.34)
Cash Re-investment Ratio (%)	5.36	7.27	(26.27)
<p>1. The decline in Cash Flow Ratio:</p> <p>a. Mainly, the group purchased a large number of PET chips in the 4th quarter of 2021, which mitigated the cost increase caused by raw materials and increased the inventory of raw materials. The rise of consolidated sales in the 4th quarter of 2021 increased the accounts receivable at the end of the year. The decline in cash provided by operating activities is for two reasons above.</p> <p>b. The increase in Current Liabilities: The group purchased many bulk materials such as PET chips in the 4th quarter of 2021 to alleviate the pressure of rising raw material costs. In addition, the PET chips of the second plant in Thailand were purchased locally, resulting in a decrease in prepayments and an increase in accounts payable, making an increase in current liabilities in 2021 compared to 2020.</p> <p>c. Due to the decline in cash provided by operating activities and the increase in current liabilities, the cash flow ratio for the current period decreased.</p> <p>2. The decline in Cash Flow Re-investment Ratio: Due to the decline in cash provided by operating activities (the reason is the same as above). The group continues to expand plants and purchase fixed assets. In the 4th quarter of 2021, many PET chips were purchased, which slowed down the cost increase caused by raw materials and increased the inventory of raw materials, so the cash flow re-investment ratio declined.</p>			

7.3.2 Cash Liquidity Analysis for next year

Unit: NTD\$ Thousand

Cash Balance – Beginning (1)	Estimated Annual Net Cash Flow from Operating Activities (2)	Estimated Annual Cash Outflow (3)	Cash Balance (Deficit) (1)+(2)-(3)	Contingency Plans for Insufficient Cash	
4,952,118	4,150,467	4,490,974	4,611,611	Investment Plan	Financial Plan
				-	-
1. Cash liquidity analysis for next year: (1) Operating activities: Mainly arising from expected profits of 2022 business activities, which causes the inflow of net cash. (2) Investing activities: Expected increase of capital expenditures, which causes the outflow of net cash. (3) Financing activities: Plan to pay back the banks’ loan, which causes the outflow of net cash. 2. Contingency plans for insufficient cash and liquidity analysis: Not applicable.					

7.4 The impact of material capital expenditure on financial business in the most recent year

7.4.1 Major Capital Expenditure and its Source of Capital

Unit: NTD\$ Thousand

Project	Actual or Planned Source of Capital	Actual or Planned Date of Completion	Total Capital	Actual Capital Expenditure	
				2021	2022
Hon Chuan	Equity fund & Bank loan	Finished before the 4th quarter of 2022	5,289,001	2,135,867	3,153,134

7.4.2 Impact on the financial and business conditions

In view of the gradual growth of beverage market, demographic dividend of emerging markets, continuous enhancement of consumption level, Hon Chuan distributed actively in Taiwan, South-east Asia and Africa. We invested new filling production lines for beverage, and new packaging production lines for beverage and food. Also, we have signed up long-term cooperation contracts with several prestigious beverage companies. The Company will consistently explore those potential emerging markets, through proprietorship or joint venture, to produce and sell beverage and other packaging materials for food and drinks. The niche market strategy is expected to lead the Company into a goal of sustainable management and development.

7.5 Re-investment policy in the most recent year, main reason for profit or loss resulted, its improvement plan, and next year's investment plan

Analysis of Re-investment

Unit: NTD\$ Thousand

Explanation Item	Amount (Note)	Policy	Main Reason for Profit or Loss Resulted	Improvement Plan	Other Investment Plan in the Future
Hon Chuan Holding Limited	15,944,804	Expand great China, South-east Asia and Africa markets.	Cultivating in great China and South-east Asia markets becomes fruitful. The profit from investment in Hon Chuan Holding Limited stood at NT\$1,261,890 thousand in 2021.	Overseas markets are still full of opportunities and are expected to grow in a steady pace.	It depends on the actual operational requirements.

Note: For the investments exceeding 5% of authorized capital up to March 31, 2022.

7.6 Risk analysis and evaluation

7.6.1 Interest rates, exchange rates, and inflation, their impact on the Company's profit or loss, and future countermeasures

7.6.1.1 The Impacts of interest rates, in the most recent fiscal year, on the Company's profit and loss, and the future countermeasures

Due to the impact of the coronavirus pandemic, the global (including Taiwan) interest rates kept at a low level in the first three quarters of 2021. However, with the increasing vaccination rate and gradual lifting of containment measures, along with global supply chain bottlenecks, commodity prices rised and inflation skyrocketed. The US Federal Reserve held interest rates meeting and turned hawkish in September of 2021, implying that it will potentially pause easing monetary policy and begin lifting rates and shrinking the balance sheet in 2022. USD and TWD interest rates also began to rebound. The Company issued long-term fixed-rate corporate bond and commercial paper during periods of low-interest rates, which effectively reduced the impact of rising interest rates. With increasing global demand and lingering supply chain bottlenecks, international goods prices stay high and inflation increases pronouncedly. A further rise in inflation may prompt major central banks to adopt tighten monetary policy. The Company will observe the influence in all aspects and take multiple financing instruments to control the financing cost within a relatively reasonable range.

7.6.1.2 The Impacts of exchange rates in the most recent fiscal year on the Company's profit and loss, and the future countermeasures

The Company has set up subsidiaries and plants in Mainland China, Southeast Asia and Africa, in which mainly target at domestic markets, so the export and outsourcing percentages are lower. Collections and payment are mainly trading with local currencies. The major exchange gains and losses are mainly the exchange gains and losses generated from the holdings of financial assets and debts valued in foreign currencies. Apart from adopting the natural hedging strategy by holding foreign debts to balance the foreign currency asset position, we also closely observe the international finance and exchange rate fluctuations, collect market information and timely grasp the trend of exchange rate fluctuations, in accordance with "Procedures for Financial Derivatives Transactions" to engage in hedging and timely avoid the risks associated with exchange rate fluctuations.

7.6.1.3 The Impacts of inflation, in the most recent fiscal year, on the Company's profit and loss and the future countermeasures

As the Company and subsidiaries, in the recent years, continued to develop the signing of mid and long-term strategic cooperation contracts with our clients, and this type of contract adopts floating prices to flexibly adjust the product prices, so the risks associated with the raw material price fluctuation can be reduced, to moderate the threat brought from inflation to the profit and loss of the Company.

The following information is provided as a reference and comparison for the above-mentioned risks:

Unit: NTD\$ Thousand

Item / Year	2021	2020
Net foreign exchange gain (loss)	(27,602)	(1,585)
Net Sales	21,382,534	19,348,249
Profit from Operations	2,827,972	2,189,846
Profit before Income Tax	2,704,973	2,155,313
Interest revenue	52,197	51,541
Interest expense (Note 1)	138,183	167,767

Note 1: The interest expenses for 2021 include the interest expenses of NTD\$ 35,492 thousand which recognized from the 1st domestic unsecured corporate bonds issued by the Company.

7.6.2 The policies to engage in high-risk, high-leverage investments, lending funds to others, endorsements and guarantees, and the transactions of derivative products, the main reasons for profits and losses, and the future countermeasures

1. The Company has never engaged in any high-risk or high-leverage investments. In addition, providing endorsements/guarantees and engaging in derivative transactions are all in response to the operation needs and are handled according to the Company's "Regulations Governing the Acquisition and Disposal of Assets", "Operational Procedures for Lending Funds to Others", "Operational Procedures for Endorsements/Guarantees" and "the Procedures for Engaging in Derivatives transactions".
2. The transactions of derivatives products the Company and subsidiaries engaged in were to achieve the purposes of the risk aversion arising from foreign currency exchange rate fluctuation, and the relevant transactions were handled according to "Regulations Governing the Acquisition and Disposal of Assets" and "the Procedures for Engaging in Derivatives transactions", and were fully disclosed in the financial statements.

The net profits (losses) generated from engaging in the transaction of derivative products by the Company were as follows:

Unit: NTD\$ Thousand

Item	2021	2020
Gain (or Loss) on valuation of financial asset	(28,768)	(4,542)

7.6.3 Future Research and Development (R&D) Plans and the R&D expenses expected to be invested

For long-term development and quality improvement, the Company combines and integrated R&D technical team to reinforce our core competitiveness, sets up R&D technical group, cultivates professional talents, invests in R&D and technical tasks, uses the advanced equipment and information to develop products, collects the latest

domestic and foreign packaging materials and beverage processing technologies, to meet our clients' needs in the market.

In 2022, the Company is expected to invest in the R&D expenditures equivalent to what was invested in the previous fiscal year; in the future, we will continue to invest in technology R&D to upgrade our competitive advantage. For the R&D plans in the most recent fiscal year, please refer to Page 80.

7.6.4 The Impacts of changes of the important domestic and foreign policies and laws on the company's finance and business, and the countermeasures

The Company and subsidiaries pay constant attention to the variable information of major domestic and foreign policies and laws, regularly update regulatory changes by cooperating with external law consultants and professional consultants, in order to provide to its management team as reference and take actions with countermeasure, so there are no significant impacts on the Company's finance or business.

7.6.5 The Impacts of Technology Changes(Including Cyber Security Risks) and Industry Changes on Our Company's Finance and Business, and the Countermeasures

The Company and subsidiaries pay attention to the technology changes and technical development and evolution in our industry at all times. In recent years, the Company has continued to optimize and customize the ERP system and introduce ERP system to our new production line for providing useful data; in addition, we continuously develop the Business Process Management (BPM) System to digitize the Company's form process. The Company is currently planning to build a business intelligence platform to bring together company-wide data, information and knowledge for information integration and analysis. The Company also constantly improve product quality and manufacturing processes, grasp the latest development trends in the industry, through close cooperation process with the clients, and adopt prudent financial management strategies to maintain our market competitiveness. Meanwhile, to cope with the new cyber security threat, the Company has joined the Taiwan Computer Emergency Response Team (TWCERT) to receive information security notifications, strengthen hosts vulnerability repairs and introduce a protective tool and equipment to raise users' information security awareness and lower risk. In the future, the Company and subsidiaries will continue to pay attention to the change situation of the relevant technology in our industry, that we will also continue to upgrade our R&D capabilities, actively broaden the future market application fields, evaluate the impacts on our company's operation and make corresponding adjustment, to reinforce our company's and subsidiaries' business development and financial condition, so technology changes and industry changes have had no significant impacts on the Company and subsidiaries so far.

7.6.6 The Impacts of Change of Corporate Image on the Enterprise Crisis Management and the Countermeasures

The major clients of the Company and subsidiaries are mostly world-class international giants, and for many years, the Company and subsidiaries have adhered to the principles of business integrity and fulfilling our role in the industry, and pay attention to

corporate image, so we could establish a professional image in the industry and win the affirmative reputation from the international giants. The Company and subsidiaries consider the promotion of social economy, upgrade of environmental prosperity and protection of employee welfare to be our priorities. As for the laws and regulations set by the competent authorities, we also strictly comply with. So far, the Company and subsidiaries have good corporate image and there has been no significant changes that would result in the circumstances of enterprise crisis management.

7.6.7 The Expected Benefits and Possible Risks to Engage in Mergers and Acquisitions (M&A) and the Countermeasures

The Company and subsidiaries do not have plans to merge with or acquire other companies, and when we do have M&A plans in the future, we will carefully assess and consider the merger synergy in order to guarantee the existing shareholders' equities.

7.6.8 The Expected Benefits and Possible Risks to Expand the Plants and the Countermeasures

1. Expected Benefits:

In view that currently consumers have increase their degree of attention on the quality and eco-friendly property of packaging materials, the Company and subsidiaries, in the recent years, have more actively developed aseptic filling technology and combined aseptic beverage filling technology, to form the integrated complete manufacturing process from the production of packaging materials to filling of beverage content, to provide the clients the comprehensive services with price competitiveness. The completely finished beverage products are shipped in whole boxes, so the wear and tear risks associated with the shipping of packaging materials purchased by the clients, and the capital, time and manpower, etc. wasted, setting up their own plants to perform filling operation, are effectively reduced. Currently, the Company and subsidiaries plan to extend the production territory of aseptic beverage filling from Taiwan, where the parent company is located, to China, South-east Asia and Africa markets, in order to reinforce the competitive advantage, of our company and subsidiary, in the international market.

The Company has also constantly developed the emerging markets with growth potential, either by sole ownership or joint venture, to produce and sell beverage and the packaging materials. Recently, there have been successively several markets that have reached the periods of fruitful results to be harvested, and the planning strategy for this niche market is expected to lead our company to move towards another epoch-making milestone.

2. Possible Risks and Countermeasures:

- (1) During the project construction period, the construction area causes inconvenience for the entering and exiting of personnel and vehicles and the goods allocation costs are also increased; and our company's countermeasures include hiring 24-hour full time security guards to monitor the entering and exiting of personnel and vehicles, separating passenger lanes completely from the driveways, and coordinating with supervision and occasional inspection by the Company's Labor Safety and Health department and the government's occupational safety unit.
- (2) To prevent the construction progress from going behind schedule, our

company stipulates the construction progress in the contract with the contractors, sets the penalties, reviews weekly and adopts improvement measures, and saves the meeting minutes to facilitate the subsequent follow-up, to ensure the construction to be completely on schedule.

7.6.9 The Risks Faced with Concentrated Procurement and Sales, and the Countermeasures

The Company and subsidiaries maintain flexibility in terms of the procurement of bulk raw materials by purchasing from several suppliers, so there are no risks arising from over concentration.

In terms of sales, our clients are mostly well-known domestic food and beverage giants with lower credit risks, in addition, the Company and subsidiaries continue to develop new clients and form partnership relationship with both domestic and foreign well-known food and beverage giants. So far there have been no risks arising from concentrated sales.

7.6.10 The impacts and risks arising from a major quantity of shares belonging to directors, supervisors, or shareholders holding greater than a 10 percent stake in the company is transferred or changes hands and the countermeasures: None.

7.6.11 The impacts and risks arising from the change of management rights and the countermeasures: Not applicable.

7.6.12 Litigation and Non-Litigation Events:

The Company's significant litigations, non-litigations, and administrative litigations, which the judgments are already determined or still pending, of which the result could have material impacts on the shareholders' equities or the securities prices, the disputed facts, target amounts, the litigation starting dates, the main litigating parties, and the processing status up to the annual report printing date should be disclosed:

On September 11 and 20, 2018, the Environmental Protection Bureau of Taichung city government came to the Company for examining and auditing air pollution control issues in company with Taiwan Taichung District Prosecutors Office. Because the air pollution control equipment in the Label plant of the Company didn't reach the regulatory standards, emission amounts exceeded the contents of the license, and internal executive units didn't follow up the latest regulations update, which caused air pollution control fees under-reported for the past periods, the Environmental Protection Bureau of Taichung city government, by No. 1080045552 on May 2, 2019, had recalculated the fee from the 3rd quarter of 2013 to the 2nd quarter of 2018 in accordance with Article 75 of the Air Pollution Control Act and requested the Company to pay double the amount of the fee rates for pollution source emissions, which was in total NTD\$ 125,869,455 (has been recognized in the 2nd quarter financial report of 2019). The Company has sought for administrative relief against the Taichung High Administrative Court on November 1, 2019. The Taichung High Administrative Court decided against the

Company on October 8, 2020, and the case is currently appealed to the Supreme Administrative Court. Regarding the above-mentioned lack of environmental safety, the Company has completed the improvement after the event.

Due to the above incidents, the prosecutor from the Taiwan Taichung District Prosecutor's Office institutes a public prosecution in 19 people including the Company for violating the Air Pollution Control Act and the Offenses of Fraudulence of Criminal Code of the Republic of China, and requested them to pay NTD\$ 77,298,948(has been recognized in the 3rd quarter financial report of 2019). The content contained in the indictment of the Taichung District Procuratorate Office is partly different from the facts. In addition, there may exist doubt about double payment of the above-mentioned payment and the amount of NT \$ 125,869,455 for the air pollution fee from the 3rd quarter of 2013 to the 2nd quarter of 2018 paid by the Company to the Environmental Protection Bureau; the company has appointed lawyers to undertake relevant research and assist in the subsequent defense. The whole case (No. 2479 in 2019) is pending in the Taiwan Taichung District Court. The Company has paid the aforementioned illegal benefits and recognized them as non-operating expenses - other losses for the year 2019.

7.6.13 Other important risks or countermeasures:

In order to reduce the related risk of environmental protection, the Company takes some countermeasures as follows:

- Strengthen the internal propaganda and training courses of environmental protection regulation in every plant.
- In order to promptly update the related laws and regulations, Legal affairs office shall take responsible of announcing and propagandizing, and Auditing office shall take responsible of supervising, checking and auditing.
- The Company has recruited several Environmental safety Specialists, hired external consultants with professional and practical experience, and outsourcing consultant company of Environmental protection bureau, to assist itself to fully implement procedures related to occupational safety, environmental sanitation, and environmental protection law.
- Purchase related control equipment, make sure to comply with environmental protection law and fully carry out environmental protection policy.

7.7 Other important Matters: None.

8.1.2 Independent Auditor's HON CHUAN and Affiliated Enterprises Consolidated Financial Statements: Please refer to Page 124 to 190.

8.1.3 Representation letter about Consolidated Financial Statements of Affiliated Enterprises

Representation Letter

The entities that are required to be included in the combined financial statements of Taiwan Hon Chuan Enterprise Co., Ltd. as of and for the year ended December 31, 2021, under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the International Financial Report No.10, "Consolidated Financial Statements." In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Taiwan Hon Chuan Enterprise Co., Ltd. and Subsidiaries do not prepare a separate set of combined financial statements.

Very truly yours,

Taiwan Hon Chuan Enterprise Co., Ltd.

Dai, Hung-Chuan

Chairman

March 22, 2022

8.1.4 Relationship report: Not applicable.

8.2 The status of issuing private placement securities in the most recent year and up to the publication of the annual report: None.

8.3 Acquisition or disposal of the Company's stock shares by subsidiaries in the most recent year and up to the publication of the annual report: None.

8.4 Other necessary supplementary notes: None.

9. The occurrence of any events as stated in Section 3 Paragraph 2 in Article 36 of the Securities Exchange Act that had significant impact on shareholders' equity or securities prices in the most recent year and up to the publication of the annual report: None.
